GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

6/5/98	A96-06-049	Southern Gas Company, for authority to offer on a tariffed basis, a new service consisting of the installation of automatic earthquake gas shut-off valves owned by her persons.
--------	------------	--

Summary: On June 2, Eleanor Youngsmith, attorney for the Consumer Services Division (CSD), met with ALJ Patrick in San Francisco. On the same date, Youngsmith had a telephone conversation with ALJ Patrick. During the meeting, Youngsmith delivered to ALJ Patrick a number of letters from non-parties. The letters contained comments on the proposed decision. Youngsmith expressed hope that the ALJ Division would not stand in the way of the agreement between the staff and Southern California Gas Company (SoCalGas). Youngsmith also noted that the only reason the staff agreed to temporarily withdraw its opposition to the proposed new rules was because the CSD had entered into an agreement with SoCalGas. Youngsmith explained that the agreement provided that SoCalGas would be given an opportunity to implement its newly proposed criteria on an interim six-month basis, in order to gain facts, and provide information to the CSD, so that a determination could be based on evidence of whether the proposed new program increased public safety. During the telephone conversation, Youngsmith mentioned the 50 already known safety incidents alleged in the staff's report in addition to numerous safety incidents

SoCalGas has detected in its inspection of some of the valves installed by contractors. Youngsmith noted that the staff believes that all of the earthquake gas shut-off valves already installed by contractors should be inspected as soon as possible.
