GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

Summary: On June 3, 1998, Stanley Hulett, a representative of Southwest Gas Corporation ("Southwest"), met with Cmmr. Conlon in San Francisco. On the same day,

Hulett had a telephone conversation with Cmmr. Conlon and Cmmr. Bilas. Also present during the meeting were: James Hendry, advisor to Cmmr. Conlon; Edward Zub, Senior Vice President, Regulation and Product Pricing, for Southwest; James Kane, Senior Vice President, Operations for Southwest; and Thomas Sheets, Vice President/General Counsel, for Southwest. Sheets discussed the materials provided to Cmmr. Bilas, and other Commissioners on June 1, 1998, (attached to the notice of June 3, 1998). Hulett suggested because of the lack of a complete record in this proceeding and to provide a full opportunity to review the costs to complete phase 1 and 11 and the projected cost to complete phase 111 that the application be set for hearing. Hulett further stated that Southwest was prepared to support its position, and that such hearings would be an appropriate vehicle to avoid the procedural problems associated with the draft decision. During the telephone conversation, Hulett advised them that no construction will take place on phase III, pending the outcome of the Commission deliberation on the application.

Summary: THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON 6/5/98 AND APPEARED IN THE CALENDAR OF 6/15/98. On June 2, 1998, John Hughes, Regulatory Affairs Manager, for Southern California Edison Company (Edison), met with ALJ Pulsifer in San Francisco. A copy of the May 29, 1998, letter (attached to the notice) to all Commissioners was provided to ALJ Pulsifer. Hughes stated that the purpose of the letter was to point out that the proposed rules did not incorporate safety and reliability concerns that were discussed in the text of the decision. Hughes further stated that if untrained individuals are allowed to have access to electric utility facilities without notification or proper safety training, possible physical injury could result without Edison even having knowledge of work being performed on its premises. Hughes stated that the decision should consider liability issues before being finalized.

Summary: On June 11, 1998, Kristel L. Frank, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Cmmr. Bilas and his adv. Julie Halligan. Also present were: Joyce Alfton, Energy Division; Mark Pocta, Office of Ratepayer Advocates; Paul Stein, attorney for Utility Reform Network (TURN); James Weil, Dede Hapner, Vice President, Regulatory Relations, PG&E; Joshua Bar-Lev, attorney, PG&E; Dave Elmore, Director, Regulatory and Strategic Planning, PG&E. Frank referred to a phrase stated in ALJ Econome's 5/18/98 proposed decision and said that it would be contrary to the terms of the Core Procurement Incentive Mechanism (CPIM). Frank further stated that it appears that TURN may have misunderstood the numbers shown in the BCAP for deliveries via Topock. Frank stated that the Commission can review PG&E's actions under the CPIM in the quarterly and annual operating reports, and that the Commission does not need to draw any conclusions at this time. PG&E urged the Commission to remove the clause which could have unintended consequences. Bar-Lev stated that this language could have implications for more than just TW capacity, but any other shareholder asset. Hapner pointed out that these issues were addressed in the Gas Accord and it's not necessary to reopen that issue here.
