NXX CODE LOTTERY WORKSHOP

The Telecommunications Division of the California Public Utilities Commission will be holding a second technical workshop on fine-tuning the NXX Code Lottery held each month at the CPUC. Decision 98-08-037 found there is a need for a fresh review of lottery procedures. In this second workshop, the lottery process will be reviewed to determine if there are ways to make the distribution of NXX codes among carriers more equitable, and

more conducive to the development of competition. Specifically, the topic of increasing the percentage of initial codes assigned from the lottery from the current 60% to a higher amount will be explored. Participants should come prepared to address potential reform measures for the lottery, identify potential shortcomings and suggest ways to revise the lottery process to promote a more competitive market including potential revisions in the allocation between initial and growth codes.

If you plan to attend the January 12, 1999 workshop please RSVP by January 8, 1999 to Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

12/11/98 A97-12-048 Southern California Gas Company, for authority to
unbundle core interstate pipeline transportation.

Summary: On December 8, 1998, Southern California Gas Co. ("SoCalGas") representatives met in consecutive meetings at CPUC with Robert Lane, advisor to Commissioner Knight, and Michelle Cook, advisor to Commissioner Duque, and urged PUC to adopt the multiparty settlement submitted in this proceeding should the Commission not consider it subject to Senate Bill 1602. The SoCalGas representatives, Jan Van Lierop and Brian Cherry, said the proposed alternate decision creates an unfair and artificial price advantage for core aggregators over core procurement customers.

12/15/98 A97-10-024 Southern California Edison Company for authority to
recover capital additions to its fossil generating facilities
made between 1/1/96 and 12/31/96.

Summary: On December 10, 1998, in consecutive meetings at CPUC with two (2) PUC officials, a Southern California Edison Co. (“Edison”) representative conveyed oral communications regarding the alternate decision (“alternate”) of Commissioner Duque. Mike Hoover of Edison met with: (1) Commission President Bilas and his advisor, Maryam Ebke, and (2) Commissioner Neeper and his advisor, David Gamson. The same points were communicated in each session. Mr. Hoover said the alternate would change the methodology for calculating cost effectiveness in a capricious manner that would not make economic sense. He stated the alternate’s rationale for using a seven year payback period was incorrect because it mischaracterized Edison’s proposals for cost recovery for the utility’s fossil plants in 1994 and 1995. Mr. Hoover said to his knowledge that Edison never proposed that cost recovery should be limited to the transition cycle, and noted that Edison could not have known how the restructuring process would ultimately unfold in AB 1890. The Edison representative said that cost effectiveness analyses of capital additions must be based on a 15 to 20 year useful life of the equipment in question, and that the Test Year 1995 general rate case proceeding adopted that assumption. Mr. Hoover further stated that some capital additions were necessary for reliability purposes notwithstanding they were not cost effective using the 7 year payback period, and he cited boiler feed tubes

and air compressors at certain Edison facilities as examples. Mr. Hoover said Edison was the only utility to divest all of its fossil fired generation of the new market with a selling price of almost two times book value, and that it would be illogical to assume that purchasers of plants only used a 5 year period to determine purchase price. He concluded by saying it would be unfair and even punitive to impose a new criteria after the fact based on a misunderstanding of Edison's filing.

Summary: On December 10, 1998, at an "all party meeting" at CPUC, a Southern California Edison Co. ("Edison") representative conveyed oral communications regarding the alternate decision ("alternate") of Commissioner Duque. Mike Hoover was Edison's representative. In addition to Commissioner Duque and his advisor, Michelle Cooke, others present were two representatives from the Office of Ratepayer Advocates ("ORA") and one from The Utility Reform Network ("TURN"). Mr. Hoover said the alternate would change the methodology for calculating cost effectiveness in a capricious manner that would not make economic sense. He stated the alternate's rationale for using a seven year payback period was incorrect because it mischaracterized Edison's proposals for cost recovery for the utility's fossil plants in 1994 and 1995. Summary: On December 16, 1998, Frank De Rosa of U.S. Generating Co. called James Hendry, advisor to Commissioner Conlon, and asked him if he needed any filings or documentation on Southern California Edison's application seeking approval of its settlements under the BRPU. Upon Mr. Hendry's response, Mr. De Rosa then faxed him a one page schematic entitled "Edison Settlement Chronology." There were various transactions listed on the schematic with a time line (left to right) from 12/93 to 5/97. The
