The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. If agenda items (including revisions) are not ready on the distribution date, they will be made available at no charge in the lobby outside the Commission Auditorium at 9:00 a.m. on the morning of the Commission meeting, but not earlier.

In addition, the Commission will make draft agenda items available for viewing and photocopying (at 20 cents per page) at the Commission's Central Files Office (Room 2002), 505 Van Ness Avenue, San Francisco, and in the Los Angeles, San Diego, and the following field offices: El Centro, Eureka, Sacramento and San Bernardino. Since the agenda package will be mailed to these locations, it will be available at these locations a day or two after the distribution date. 2/2/99	A98-05-019	San Diego Gas and Electric Company, for authority to increase its authorized return on common equity, to adjust its existing ratemaking capital structure, to adjust its authorized embedded costs of debt and preferred stock, to decrease its overall rate of return, and to revise its electric distribution and gas rates accordingly, and
	A98-05-021	Pacific Gas and Electric Company, for authority to establish its authorized rates of return on common equity for electric distribution and gas distribution, and establish its unbundled rates of return for calendar year 1999 for electric distribution and gas distribution, and
	A98-05-024	Southern California Edison Company, for consideration of unbundled rate of return on common equity, capital

structure, cost factors for embedded debt and preferred stock, and overall rate of return for utility operations.

Summary: On January 28, 1999, Bruce Foster, Southern California Edison Company's (Edison) Vice President, met with Michelle Cooke, advisor to Cmmr. Duque, in San Francisco. Also present was Mike Hoover, Director of Edison's San Francisco's office. Written materials (attached to the notice) were used. Foster described the operation of the Commission's performance-based ratemaking procedure authorized in D96-09-092. Foster stated that Edison's rates are fixed through 2001, except for adjustments for inflation and assumed levels of productivity under a formula known as "CPI minus X". Foster explained that the cost of capital trigger mechanism automatically adjusts Edison's return on equity for changes in economic conditions based on the 12-month average of Aa utility bond rates. Foster stated that Edison's performance-based ratemaking (PBR) rates and the trigger mechanism were implemented by Commission resolution which was effective January 1, 1997. Referring to Edison's petition to modify D97-08-056 in light of the recent adoption of the cost of capital trigger mechanism, Foster stated that, although the Commission denied Edison's petition in D97-11-073, it did state that Edison could make its point in this proceeding regarding the operation of the cost of capital trigger mechanism. Foster explained that the limited purpose for Edison's participation in this proceeding was to review generic issues related to unbundling cost of capital. Foster noted that the Office of Ratepayer Advocates, The Utility Consumer Action Network and Dr. James Weil propose to adjust Edison's return not only for an alleged unbundling discount, but they also propose substantial reductions in Edison's return based on changes in economic conditions which have occurred since the trigger mechanism was implemented. Foster argued that their proposal would violate the automatic adjustment feature of the Commission's trigger mechanism. Foster noted that with respect to the alleged unbundling discount, the record shows the UDC is not less risky than the former integrated utility. Foster also described Edison's unique position in this case and discussed he history of the Commission's cost of capital decision for Edison and Southern California Gas Company.

2/3/99 A98-11-024 Pacific Bell, for arbitration of an interconnection agreement with Pac-West Telecomm, Inc., pursuant to section 256(b) of the Telecommunications Act of 1996.

Summary: On February 3, 1999, two Pac-West Telecomm, Inc. ("Pac-West") attorneys initiated an ex parte session at CPUC with Commissioner Duque and advisor Tim Sullivan. James M. Tobin and Mary E. Wand told the commissioner Pac-West had moved to dismiss Pacific Bell's ("PacBell") petition for arbitration because it was not in compliance with § 252 of the Communications Act (47 USC § 252). Another reason stated was that important issues were pending in other proceedings now before PUC and the Federal Communications Commission. The attorneys stated Pac-West preferred the administrative law judge's draft decision over the alternate decision prepared by Commissioner Neepers' office because the former granted Pac-West the relief sought. In concluding, Ms Wand said § 252 should not

govern the proceeding because neither negotiations nor the petition to arbitrate had conformed with the Act.

2/4/99 A96-03-007 Pacific Bell Communications, for a certificate of public convenience and necessity to provide InterLATA and IntraLATA and local exchange telecommunications services.

Summary: On February 1, 1999, a representative of AT&T Communications of California, Inc. ("AT&T") initiated oral and written ex parte communications at CPUC with Commissioner Neeper and advisor Fassil Fenikile. Bob Kargol was the AT&T representative, and he was accompanied by Richard Severy of MCI WorldCom. AT&T stated support of the administrative law judge's proposed decision. Mr. Kargol and Mr. Severy stated Commissioner Neeper's alternate decision fails to address evidence of Pacific Bell's ("PacBell") planned use of improper marketing practices. They also stated that the total billed revenue ("TBR") information available to PacBell could be used by them to market long distance service in an anti-competitive manner. Mr. Severy concluded by pointing out PacBell had previously been found to have misappropriated carrier proprietary information in marketing efforts. Distributed during the meeting was a two (2) page summary sheet entitled "PB Com Certification Proceedings: The Proposed and Alternate Decisions."

2/5/99 A96-03-007 Pacific Bell Communications, for a certificate of public convenience and necessity to provide InterLATA and IntraLATA and local exchange telecommunications services.

Summary: On February 2, 1999, AT&T Communications of California, Inc. ("AT&T") representative Bob Kargol provided Commissioner Duque's advisor, Tim Sullivan, a copy of a court order. The six (6) page order of the U.S. District Court, Northern District of California, issued on 8/26/98 directed Pacific Bell to be "jointly and severally liable for damages in the amount of \$1,520,000, which is the amount determined by the Court to represent a reasonable royal payment for misappropriation of plaintiffs' confidential, computerized long distance billing information." In AT&T's "Notice of Ex Parte Communication," the filer indicated this document was provided as a follow up item from the previous day's meeting with Commission Duque and Mr. Sullivan.

Summary: On consecutive dates, February 4 and 5, 1999, Pacific Bell (“PacBell”) representatives initiated ex parte meetings at CPUC, conveying the same communications in each meeting. On 2/4/99, the group met with Commissioner Neeper and advisor Fassil Fenikile. On 2/5/99, the group met with Commissioner Duque and advisor Tim Sullivan. The representatives on the first occasion were Ed Mueller, President and CEO of PacBell, along with Jim Callaway, Bill Blase, Cynthia Marshall, and Ric Zamora. The same group, absent Mr. Callaway, attended the session with Commissioner Duque. In these sessions PacBell orally provided compliance status on its “271” application per D.98-12-069. Such status was amplified by four (4) briefing sheets of graphs and charts. The first was headlined “Pacific Bell’s 271 Application Compliance Progress as of 2/1/99.” The chart projects upward progress from 12/98 through 6/99. The second and third are each entitled “compliance progress as of 2/1/99” and together provide the status of twenty (20) categories of projects. The fourth summarizes “issues” and lists them as “OSS testing,” “flow through requirements,” “performance results,” and “ongoing issues.”

("Roseville"),

was a final ruling pursuant to the Public Utilities Code. The audit, the representatives stated, must begin now in view of the company's upcoming New Regulatory Framework review. It was requested that a clear directive be issued to Roseville to comply with the ruling. Two written papers were given the recipients during the meeting, e.g. the "Assigned Commissioner's Ruling" dated 10/26/98 and a Public Utilities Code packet containing §§ 304 through 311.

2/11/99 I87-11-033 Commission investigation into alternative regulatory frameworks for local telecommunications exchange carriers, and

Summary: On February 8, 1999, four (4) Pacific Bell ("PacBell") representatives met with and engaged in oral ex parte communications at CPUC with Commission President Bilas and advisor Lester Wong. The PacBell representatives were Ed Mueller, President and CEO of PacBell, and Jim Callaway, Ric Zamore, Bill Blase, and Jim Young. Notwithstanding the recent Supreme Court decision in AT&T v Iowa Utilities Board, Mr. Young stated there is no mandate to change PUC's earlier decision that intraLATA pre-subscription should coincide with PacBell's entry into long distance. He said no change is required because: (a) Federal Communications Commission ("FCC") rules may be subject to further review by the Eighth Circuit, (b) § 271 authorizes states to address timing, and thus FCC rules would be guidelines, (c) § 251(d)(3) of the Act preserves state access rules and decisions not inconsistent with the Act, (d) simultaneous entry was the basis for the parties' settlement and Commission decision, and hence AT&T and others cannot now unilaterally change that.

2/16/99 A98-05-007 Pacific Gas and Electric Company, for authority to adopt a revenue-sharing mechanism and other prerequisites for new non-tariffed products and services

Summary: On February 10, 1999, Jana Corey, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), initiated two voice mail messages: to David Gamson, advisor to Cmmr. Nepper, and to Ann Watson, advisor to Cmmr. Bilas. On the same day, Corey spoke to Dorothy Duda, advisor to Cmmr. Bilas. Corey stated that PG&E feels strongly that the net revenue sharing mechanism proposed by PG&E is the correct policy choice; provides appropriate incentives to maximize ratepayer benefits; is consistent with accepted economic principles; protects the ratepayer from harm; and maximize the efficient utilization of PG&E's assets. During her telephone conversation with Dorothy Duda, Corey also stated that the further negotiation period required by the ALJ's draft decision is not likely to bear fruit. Corey explained further that although the Office of Ratepayer Advocates (ORA) supports the gross revenue sharing mechanism contained in the Southern California Edison Company (Edison)/ORA memorandum of understanding in the Edison revenue

sharing case, PG&E's situation is distinct from Edison's. Corey noted that PG&E is uniquely disadvantaged relative to the other utilities in that it does not currently operate under a performance based ratemaking system, and therefore has no alternative revenue sharing mechanism available under which to offer new non-tariffed products and services.

Summary: On February 9, 1999, representatives from Roseville Telephone Company ("Roseville") initiated a meeting with Commissioner Duque and Advisor Timothy Sullivan. The Roseville representatives were Michael D. Campbell, Phil Germond, and Greg R. Gierczak. They objected that Office of Ratepayer Advocates' ("ORA") process of initiating the audit did not follow procedures established in the general rate case order. They also objected to the scope and cost of the audit. The Roseville representatives concluded by stating their effort to uncover the truth about the audit selection process through invocation of the Public Records Act has been impeded by limited as well as delayed responses to their request.

2/17/99	A98-12-021	Southern California Edison Company, for an order approving termination agreement for termination of a negotiated power purchase agreement between Southern California Edison Company and O'Brien California Cogen Limited
---------	------------	---

Summary: On February 11, 1999, Russell Worden, Regulatory Affairs Manager for Southern California Edison Company (Edison), met with Michelle Cooke, advisor to Cmmr. Duque, in San Francisco. Written materials (attached to the notice) were used. Worden referred to the Response of O'Brien Calif. Cogen (O'Brien) in Opposition to the Motion of Southern California Gas Company (SoCalGas) for permission to file a late protest to Edison's application. Specifically, Worden referred to the affidavit of Mark Anderson, Vice President of O'Brien, who described a telephone call from the Account Representative of SoCalGas. Worden stated that according to the affidavit, the representative of SoCalGas

indicated that if "... I [Mr. Anderson] were to pay them a substantial sum of money that they [SoCalGas] would not participate in the proceeding." Worden noted that the affidavit also states that SoCalGas did not have any objection to the Edison application, on its merit, but according to Anderson, SoCalGas was seeking monetary compensation from O'Brien in return for withdrawing its request to file a protest. Worden stated that SoCalGas' behavior is an abuse of the Commission's Rules and, if tolerated by the Commission, would be an obstacle to maximizing the ratepayer benefits presented in the application.

2/18/99 A98-05-007 Pacific Gas and Electric Company, for authority to adopt a revenue-sharing mechanism and other prerequisites for new non-tariffed products and services

Summary: On February 16, 1999, Jana Corey, Director, Regulatory Relations, of Pacific Gas and Electric Company (PG&E), spoke with David Gamson, advisor to Cmmr. Neeper. Corey stated that PG&E feels strongly that the Commission should adopt a revenue sharing mechanism for PG&E's new non-tariffed products and services now, and that the further negotiation period required by the draft decision is not likely to bear fruit. Corey stated further that the net revenue sharing mechanism proposed by PG&E is the correct policy choice, provides appropriate incentives to maximize ratepayer benefits, is consistent with accepted economic principles, and maximizes the efficient utilization of PG&E's assets. Corey explained that PG&E's proposal would only apply until the disposition of PG&E's performance-based ratemaking (PBR) mechanism and only to new non-tariffed products and services. Corey also pointed out that PG&E is uniquely disadvantaged relative to the other utilities in that it does not currently operate under a PBR system, and therefore has no alternative revenue sharing mechanism available under which to offer new non-tariffed products and services.
