3/30/99 A95-10-024 Pacific Gas and Electric Company, for authorization to implement a plan of reorganization which will result in a holding company structure.

Summary: Over three (3) days, March 24, 25, and 29, 1999, Pacific Gas & Electric Co. ("PG&E") conveyed the same oral ex parte communications to PUC officials. Such were conveyed, respectively, to: (1) Commissioner Neepser and advisor David Gamson, (2) Commissioner Duque and advisor Michelle Cooke, and (3) Commission President Bilas and advisor Dorothy Duda. Les Guliasi and Cheryl Mason were the PG&E principals attending these meetings at Commission headquarters. Mr. Guliasi said four (4) issues addressed in the proposed decision ("PD") should be changed. Ms Mason said there is no need for an order instituting an investigation into the financial conditions of the state's energy utilities. Ms Mason further stated that the PD order of a verification audit of PG&E is both unnecessary and unfair. Reasons were cited. If there is such an audit, she said, its responsibility should lie with the Energy Division and not the Office of Ratepayer Advocates. Ms Mason said the next matter should be to reject the PD's document retention order imposed on PG&E in favor of the order previously adopted in Phase I of the proceeding. In concluding, Ms Mason provided comments why Fact "25" of the PD should be deleted and indicated the guidelines pertaining to holding companies go well beyond those already approved in PG&E's affiliate rules compliance plan.

3/30/99 A98-01-014 San Diego Gas & Electric Company, for authority to implement a distribution performance-based ratemaking mechanism.

Summary: On March 22, 1999 the Office of Ratepayer Advocates ("ORA") communicated ex parte to Commissioner Duque and advisor, Michelle Cooke. Both oral and written ex parte communications were conveyed. The occasion was a meeting conducted at CPUC at the initiation of Sempra. Other representatives in attendance were from the Natural Resources Defense Council ("NRDC"), Utility Consumer Action Network ("UCAN"), Pacific Gas & Electric Co., California Energy Markets, Southern California Edison, San Diego Gas & Electric Co. ("SDG&E"), and Sempra Energy. ORA attendees were Jason Zeller, Bill Gibson, and Dexter Khoury. ORA told Commissioner Duque that Commission President Bilas' alternative order is flawed because it gives SDG&E an incentive to increase sales, this notwithstanding the alternative adopts rate indexing and that ORA favors rate indexing. Providing details in justification, ORA then contended that either the decision should be modified to de-couple sales from revenues or the original

proposed decision should be adopted because the revenue per customer cap gives SDG&E no incentive to increase sales. ORA then cited figures illustrating that both the proposed decision and the alternative have an appropriate sharing formula. ORA concluded by providing reasoning why the gas fixed cost account ("GFCA") should be ended on 4/30/99. The written ex parte communication was a two (2) page handout provided the attendees on the GFCA.

The occasion was a meeting conducted at CPUC at the initiation of Sempra. Attending for Sempra were Ed Guiles, President of San Diego Gas and Electric ("SDG&E") and Bill Reed, Lisa Hubbard, and Kimberly Freeman, all of SDG&E. Representatives from the following parties were also in attendance: UCAN, NRDC, Southern California Edison, California Energy Markets, Pacific Gas & Electric Co., and Office of Ratepayer Advocates. Mr. Guiles stated SDG&E agrees that Commission President Bilas' proposed alternate decision ("AD") is simple, relevant, and compatible with the competitive market. He said PUC should adopt rate indexing methodology because it encourages cost effective use of SDG&E's distribution system. Demand side management ("DSM") is a core value at SDG&E, Mr. Guiles added. The AD's PBR mechanism provides the right price signals to the market place, Mr. Guiles concluded. Mr. Reed stated SDG&E opposed a 4/30/99 end date for the Gas Fixed Cost Account ("GFCA") because it may result in a shareholder impact of roughly \$30 million. He urged to Commission to implement a January end date for the GFCA, citing the collection disparities between the first four (4) months of the year and the remainder of the year. The Commission should also re-consider the deadband that has been set for the earnings sharing mechanism, Mr. Reed said. The deadband should be at least 100 basis points wide, he said, and that it should capture the normal operating conditions of the utility.

3/30/99 A98-05-001 Pacific Gas and Electric Company, for approval of demand-side management shareholder incentives for 1997 program year accomplishments, and second claim for incentives for 1996 program year accomplishments.

Summary: On March 25, 1999, Pacific Gas & Electric Co.'s ("PG&E") Sabrina Miller told David Gamson during a lunch meeting in San Francisco that the utility entered into the Presidio contract with National Park Service based on what they knew at the time. Mr. Gamson is an advisor to Commissioner Neeper. Ms Miller cited two items on the record reflecting what PG&E knew at that time, e.g. a transcript of Ms Birmingham's testimony and a document which recorded gas use by the Presidio boiler system.

3/31/99 A98-01-008 Pacific Gas and Electric Company, for authority to sell Hunters Point, Potrero, Pittsburg, and Contra Costa Power Plants and Geysers geothermal power plant and related assets.

Summary: On March 29, 1999, Pacific Gas & Electric Co. ("PG&E") initiated consecutive meetings at CPUC with (1) Michelle Cooke, advisor to Commissioner Duque, and (2) David Gamson, advisor to Commissioner Neepser. Attending for PG&E were Kristel Frank and Joseph Malkin. Ms Frank stated PG&E had no problems with the alternate decision sponsored by Commission President Bilas. Ms Frank further stated that PG&E proposed the surplus between the accrual for environmental and non-environmental clean up costs be credited to the remaining fossil plant rate base. This ratemaking was approved previously by PUC for the Wave I plants, Ms Frank said, and that no party opposed it, and further that no party commented that the alternate to the PD should be revised. She added that \$8.8 million of the \$48.5 million in surplus is geothermal surplus, and that PG&E proposes the \$8.8 million be credited to the Transition Cost Balancing Account ("TCBA") while the remaining \$39.7 would be credited to the remaining fossil generation plants. She said the surplus would be credited to decommissioning/dismantling reserve for plants at Humboldt Bay, Hunters Point, and Kern, adding that the Kern Power Plant is decommissioned but not yet dismantled. Ms Frank urged the Commission not to delay the decision on the sale of the plants and to adopt PG&E's proposed ratemaking treatment described in the aforesaid alternate decision.

Summary: On March 26, 1999, Pacific Gas & Electric Co. ("PG&E") responded to ex parte telephonic communications initiated by Dorothy Duda, advisor to Commission President Bilas. Four (4) telephone calls were made. The PG&E representative involved in the exchanges was Kristel Frank. Ms Frank stated PG&E had no problems with the alternate decision sponsored by Commission President Bilas. Ms Frank further stated that PG&E proposed the surplus between the accrual for environmental and non-environmental clean up costs be credited to the remaining fossil plant rate base. Summary: On March 30, 1999, Kristel Frank of Pacific Gas & Electric Co. ("PG&E") initiated oral ex parte communications with David Gamson, advisor to Commissioner Neeper. She told Mr. Gamson that the surplus of the environmental costs would be used to reduce the decommissioning liability of the remaining power plants and thereby offset ratebase. PG&E had been authorized, she said, to collect approximately \$83 million for decommissioning the plants. As of 12/31/98 \$38 million had been amortized, Ms Frank said, leaving \$45 million for future amortization. Ms Frank said the \$39 million surplus would reduce that amount if PG&E's proposed ratemaking were adopted. If the surplus exceeds the amount remaining to be amortized, she said, it would be credited to the Transition Cost Balancing Account. She concluded by saying this is the same ratemaking treatment approved by PUC for PG&E's Wave 1 power plant sales.
