2/24/99            A99-01-014            San Diego Gas & Electric Company, for authority to implement a distribution performance-based ratemaking mechanism.

**Summary:** On February 19 and 22, 1999, respectively, representatives from the Natural Resources Defense Council ("NRDC") conveyed the same oral ex parte communications to (1) Commissioner Duque and his advisor, Michelle Cooke, and (2) Commissioner Neeper and his advisor, David Gamson. The 2/19/99 occasion was an "all party" meeting, and on 2/22/99 only the two sets of principals were present. The NRDC representatives were Peter Miller, Ralph Cavanaugh, and attorney Barry Epstein. Other parties present at the "all party" meeting were the Office of Ratepayer Advocates, UCAN, MRW, Pacific Gas & Electric Co., Southern California Edison, and Sempra Energy. The NRDC representatives stated the revenue per customer index mechanism in the proposed decision ("PD") was superior to the rate cap mechanism advocated by San Diego Gas & Electric Co. ("SDG&E"). NRDC stated the extensive record in the proceeding justifies the revenue per customer index. That index is tailored to SDG&E's specific circumstances, according to NRDC's statements, and is not a "one size fits all" application. The SDG&E proposal would create incentives to build load to existing customers, and thereby cause more pollution NRDC added. By contrast, energy efficiency would be the result of the revenue per customer mechanism according to NRDC's concluding comments.

2/24/99            A98-06-045            San Diego Gas & Electric Company, for authority to revise line loss factors for energy payments to qualifying facility generators

**Summary:** On February 22, 1999, John W. Leslie representing San Diego Gas & Electric Co. ("SDG&E") responded to a telephone call initiated by Administrative Law Judge Gottstein. In addressing SDG&E's reply comments filed 2/19/99, Mr. Leslie said the utility opposes Monsanto Company's ("Monsanto") request to set SDG&E's DLF for distribution level QF's at 1.025. The record does not support Monsanto's request, Mr. Leslie said. Claudine Swartz of Sempra Energy ("Sempra") wrote a letter to David Gamson, advisor to Commissioner Neepser. It began: "Dear David. Thank you for taking the time yesterday to meet by telephone with Sempra Energy to discuss the Proposed Decision in the above referenced matter." Ms Swartz then proceeded to answer two questions which the letter indicates were asked by Mr. Gamson during the earlier meeting. The questions were: (a) "Does the GMM calculation reflect the physical location of a generating facility and its distance from a load center?" and (b) "Why is there such a large discrepancy between the existing average TLF of 1/025 and the GMM's.?" The letter indicated the answer to the first question was "yes," and it provided a two paragraph explanation. The answer to the second question began with "... (San Diego Gas & Electric's)... currently existing line loss factors implicitly assume that a QF always reduces line losses on the transmission (and distribution) system, and thus always produces line loss "savings." Three (3) additional paragraphs provided further technical explanation. Attached to the letter in support of its commentary were thirty seven (37) additional pages of previously submitted exhibits, listed as "Ex.3 (McKenna)," "Ex.5 supplemental testimony of SDG&E witness Strong," "ISO Tariff Ex. 5 Attachment 'A'," "Ex. 6 Rebuttal testimony of SDG&E witness Strong," "Ex. 14 pp.1 and 2," "Strong Transcript (Vol. I," and "SDG&E Opening Brief."

                          I95-04-044            Investigation on the Commission's own motion into competition for local exchange service.

**Summary:** THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON March 2, 1999 AND APPEARED IN THE CALENDAR OF March 8, 1999.

On March 1, 1999, four (4) Pacific Bell ("PacBell") representatives initiated a meeting at CPUC with three (3) commission advisors, Fassil Fenikile, Lester Wong, and Tim Sullivan. The PacBell representatives were Ross Ireland, Bill Blase, Cynthis, and April Rodewald. The Notice of Ex Parte Communication stated the purpose of the meeting was to discuss the Commission's interim policy regarding collocation reservation of space in PacBell's

central office. The representatives discussed the impact of the interim policy relating to the technical limitations of equipment installed in PacBell's central offices, stating technical limitations exist for processor controlled switches, manufacturers' cable restrictions, and minimum separation distances for certain equipment. FCC rules on the subject were discussed, including § 51.323 ("Standards for physical collocation and virtual collocation") stating, inter alia "An incumbent LEC shall provide physical collocation and virtual collocation to requesting telecommunications carriers" and details thereof. The PacBell representatives also asked the advisors what future activities are planned by the Commission for addressing the space reservation issues. Three handouts were presented the advisors, two of which were PUC decision documents. The third handout was FCC "§ 51.323 (supra).

3/17/99	A98-07-006	San Diego Gas & Electric Company, for approval of consolidated changes in 1999 authorized revenue and revised rate components; the CTC rate component and associated headroom calculations, RGTCOMA balances; credit computations, disposition of various balancing/memorandum accounts; and electric revenue allocation and rate design changes.
	A98-07-003	Pacific Gas and Electric Company, for verification, consolidation, and approval of costs and revenues in the Transition Revenue Account.
	A98-07-026	Southern California Edison Company, to consolidate authorized rates and revenue requirements; verify residual competition transition charge revenues; review and dispose of amounts in various balancing and memorandum accounts; verify regulatory balances transferred to the transition cost balancing account on 1/1/98; and propose rate recovery for Santa Catalina Island Diesel fuel costs.

**Summary:** THIS IS AN AMENDED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON 2/24/99 AND APPEARED IN THE CALENDAR OF 3/2/99.

On February 10, 1999, Commonwealth Energy Corp. ("Commonwealth") representatives conducted three (3) meetings at CPUC with commissioners and conveyed oral communications in each. Frederick M. Bloom and Norman A. Pedersen met in order with: (a) Commission President Bilas, (b) Commissioner Duque and advisor Michelle Cooke, and (c) Commissioner Neeper and advisor David Gamson. The amended notice was filed to comply with rules 1.4 and 7 of the Rules of Practice and Procedure. The content of the communication was the same meetings (a) and (b) with Commission President Bilas and Commissioner Duque respectively (infra). In the meeting with Commissioner Neeper, Commonwealth stated the following. It is headquartered in Tustin and has offices in San Diego and Palm Desert. It is the largest energy service provider ("ESP") in California in

terms of customers, over 40,000. The company recently announced it is converting all of its customers to green power while continuing to offer the same discount from utility distribution company ("UDC") commodity charges that it is currently offering. The green power market is a "niche" market in which ESP's can survive as a result of California Energy Commission credits. There has been a rapid exodus of ESP's from the conventional credits. There has been a rapid exodus of ESP's from the conventional retail electricity market. That is because of the difficulty in competing with UDC commodity prices, currently reflected in the "PX energy credit." These prices are based on the wholesale Power Exchange price with no mark up to cover UDC overhead expenses associated with procurement. It is critical that PUC address retail UDC commodity pricing if the Commission is interested in developing meaningful retail competition for conventional power. In filing the amended ex parte notice, Commonwealth stated the following: "The conversations with Commissioners Duque and Bilas were substantively different from the conversation with Commissioner Neeper insofar as the conversations between Mr. Bloom and Commissioners Bilas and Duque dealt with Commonwealth, Commonwealth's compliance with all relevant CPUC regulations, and Commonwealth's marketing strategies, including the basis therefore. The conversation did not lead to a focus on the captioned proceeding, unlike the conversation with Commissioner Neeper. Accordingly, the February 23, 1999 notices of ex parte contact with Commissioners Bilas and Duque were submitted in error and are hereby withdrawn." (Note: Filer's notice dated 2/23/99 was filed on 2/24/99).

3/17/99	A99-01-016	Pacific Gas and Electric Company, for authority to establish post-transition period electric ratemaking mechanisms.
	A99-01-019	San Diego Gas & Electric Company, for authority to implement post rate freeze ratemaking mechanism.
	A99-01-034	Southern California Edison Company, to propose a method to determine and implement the end of the rate freeze; and propose ratemaking mechanisms which should be in place after the end of the rate freeze period.

3/18/99            A98-05-022            Pacific Gas and Electric Company, to report assessments of inventory balances and to address appraisal of retained generation assets.

**Summary:** THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON March 5, 1999 AND APPEARED IN THE CALENDAR OF March 11, 1999

On March 2, 1999 Jana Corey of Pacific Gas & Electric Co. ("PG&E") initiated and attended an ex parte meeting at CPUC with Commission President Bilas and his advisor, Dorothy Duda. Also in attendance representing PG&E were Thomas Bottorff and David Rubin. While the meeting was initiated for another proceeding (A98-05-007), Mr. Bottorff stated that transfer of PG&E's hydroelectric assets to an unregulated subsidiary is PG&E's preferred alternative. (PG&E reported they were unaware Rule 7(c)(2) applied; hence the ex parte communications reported herein was inadvertent). Mr. Bottorff said PG&E is working with environmental and customer groups to mitigate their concerns. Customer groups have asked PG&E about the end of the rate freeze, Mr. Bottorff said, and their response has been that that will be more easily determined after there has been a valuation decision. In concluding, Mr. Bottorff stated his concern over the scoping memo and that the appraisal principles may not apply if there is a transfer of the hydroelectric assets to an unregulated PG&E subsidiary, and that they will soon file a § 851 application.

Mr. Bottorff said PG&E is working with parties who are concerned about land use issues, tree cutting, and water diversion among other issues. He said the new owner of the assets has limited ability to alter use of these resources because of FERC licenses and other governmental requirements.

3/24/99            A98-01-014            San Diego Gas & Electric Company, for authority to implement a distribution performance-based ratemaking mechanism.

**Summary:** On March 22, 1999, representatives from the Natural Resources Defense Council ("NRDC") initiated an "all party" meeting at CPUC with Commission President Bilas and his advisor, Dorothy Duda. The NRDC representatives were Ralph Cavanaugh and attorney Barry Epstein. Other parties present at the "all party" meeting were the Office of Ratepayer Advocates, UCAN, MRW (representing the City of San Diego), Sempra Energy, and San Diego Gas & Electric Co. ("SDG&E"). NRDC stated the rate index mechanism proposed in the alternate proposed decision was inferior to NRDC's proposed revenue-per-customer index included in the proposed decision of ALJ Minkin. The rate index would provide a perverse incentive to SDG&E, Mr. Cavanaugh said, causing increased sales throughput at the expense of energy efficiency, demand side management, and distributed generation technologies. Monopoly distribution utilities should have no incentive to affect the competitive market for energy commodities, the NRDC representative concluded, while distribution utilities should be indifferent as to load.

3/29/99            A98-01-014            San Diego Gas & Electric Company, for authority to implement a distribution performance-based ratemaking mechanism

**Summary:** On three (3) consecutive days, March, 23, 24, and 25, 1999, UCAN's Michael Shames met with PUC officials and engaged in oral ex parte communications. His communications content was the same in each meeting. William Marcus accompanied Mr.

Shames on 3/23/99. PUC officials in attendance at these meetings held at CPUC were, in order: (1) Commission President Bilas and his advisor, Dorothy Duda, (2) Commissioner Neeper and his advisor, David Gamson, and (3) Commissioner Duque and his advisor, Michelle Cooke. Initiating the respective meetings were: (1) NRDC, (2) Mr. Shames, and (3) San Diego Gas & Electric Co. ("SDG&E") Attendees for the respective meetings in addition to Mr. Shames and the party initiating them were: (1) SDG&E, Office of Ratepayer Advocates ("ORA"), and City of San Diego, (2) (only Mr. Shames), and (3) ORA, City of San Diego, Southern California Edison, and Pacific Gas & Electric Co., and NRDC. In each meeting Mr Shames told the PUC officials that UCAN supported the administrative law judge's proposed decision and opposed the alternate decision. He added that revenue per customer indexing was essential to protect against undue windfalls to the company and ensure an open distribution system to new competitors. UCAN's Notice of Ex Parte Communications indicated the 3/24/99 meeting was an "equal time" meeting with Commissioner Neeper in response to SDG&E and other parties' ex parte meetings with the commissioner.

3/30/99            A98-01-014            San Diego Gas & Electric Company, for authority to implement a distribution performance-based ratemaking mechanism

**Summary:** On March 25, 1999, representatives from the Natural Resources Defense Council ("NRDC") conveyed oral ex parte communications to Commissioner Duque and his advisor, Michelle Cooke. The occasion was an "all party" meeting at CPUC initiated by San Diego Gas & Electric Co. ("SDG&E"). The NRDC representatives were Ralph Cavanaugh and Peter Niler. Other parties present were the Office of Ratepayer Advocates, UCAN, Southern California Edison, Pacific Gas & Electric Co., Sempra Energy, and California Energy Markets. NRDC stated the rate index mechanism proposed in the alternate proposed decision was inferior to NRDC's proposed revenue-per-customer index included in ALJ Minkin's proposed decision. The rate index would provide a perverse incentive to SDG&E, NRDC said, causing increased sales throughput at the expense of energy efficiency, demand side management, and distributed generation technologies. Monopoly distribution utilities should have no incentive to affect the competitive market for energy commodities, the NRDC representative continued, while distribution utilities should be indifferent as to load. Concluding, NRDC said California utilities, including SDG&E, underspent their authorized energy efficiency funding when faced with a previous disincentive to support energy efficiency at the time ERAM was eliminated.

**Summary:** On March 29, 1999, AT&T Communications of California, Inc., ("AT&T") initiated three (3) ex parte meetings at Commission headquarters with PUC officials in which both oral and written communications were conveyed. The same subject matter was conveyed in each meeting. The PUC officials receiving the communications were, in order: (1) Commissioner Nepper and advisor Fassil Fenikile, (2) Commission President Bilas and his Chief of Staff, Ann Watson, and advisor Lester Wong, and (3) Tim Sullivan, advisor to Commissioner Duque. The AT&T principals were Rick Witherington, David Condit, Rose Johnson, Sarah DeYoung, Michael Morrissey, and Harry Davidow. Mr. Morrissey provided an overview of how the New York commission concluded that a third party test of Bell Atlantic New York's ("BANY") Operations support Systems ("OSS") was necessary after reviewing and rejecting self testing proposals made by BANY. Mr. Davidow then reviewed details of the third party test being conducted by KPMG and Hewlett Packard. Ms Johnson compared and contrasted the BANY test with the current proposal for OSS testing made by SBC/PacBell. A twenty four (24) page handout was distributed at each briefing. The first page of the handout contained two columns, comparing the "Bell Atlantic New York OSS Test Plan" with the "Pacific Bell Test Plan." Another page was entitled "DOJ has publicly supported the New York testing approach." The last page "Conclusions" has two entries: "third party testing is the quickest and most effective way to facilitate legitimate RBOC entry into long distance" and "most important, only well designed third party testing incents correct TBOC behavior."
