3/1/99	A99-01-016	Pacific Gas and Electric Company, for authority to establish post-transition period electric ratemaking mechanisms.
	A99-01-019	San Diego Gas & Electric Company, for authority to implement post rate freeze ratemaking mechanism.
	A99-01-034	Southern California Edison Company, to propose a method to determine and implement the end of the rate freeze; and propose ratemaking mechanisms which should be in place after the end of the rate freeze period.

Summary: On February 24, 1999, Southern California Edison ("Edison") initiated an ex parte meeting at CPUC with Commissioner Nepper in which oral communications were conveyed. The Edison representatives attending were Bruce C. Foster and Michael Hoover. Edison said they filed their Post Transition Ratemaking Application in compliance with D97-10-057. Noting that Commissioner Duque's assigned commissioner's ruling would expand this proceeding to two phases, Edison indicated it filed information related to Phase I but not Phase II. They said expansion of scope through an assigned commissioner ruling is inappropriate because a past decision can only be overturned by a Commission vote. The proper thing for parties desiring to expand the scope of the proceeding is to file a petition to modify D97-10-057 and D89-01-040 the Edison representatives asserted, and added that its a waste of resources to require by April the filing of rate design principles, cost allocation proposals, and specific rate designs. Related arguments were presented before Edison concluded that there is no reason to consolidate the rate design applications for the three (3)

utilities and that doing so in the new competitive market context could have anti-competitive consequences.

3/4/99	A99-01-016	Pacific Gas and Electric Company, for authority to establish post-transition period electric ratemaking mechanisms.
	A99-01-019	San Diego Gas & Electric Company, for authority to implement post rate freeze ratemaking mechanism.
	A99-01-034	Southern California Edison Company, to propose a method to determine and implement the end of the rate freeze; and propose ratemaking mechanisms which should be in place after the end of the rate freeze period.

Summary: On March 1, 1999, Michael Hoover of Southern California Edison ("Edison") initiated an ex parte meeting at CPUC with Dorothy Duda, advisor to Commission President Bilas, in which oral and written communications were conveyed. Mr. Hoover stated Edison filed their Post Transition Ratemaking Application in compliance with D97-10-057. Noting that Commissioner Duque's assigned commissioner's ruling would expand this proceeding to two phases, Mr. Hoover indicated it filed information related to Phase I but not Phase II. He said expansion of scope through an assigned commissioner ruling is inappropriate because a past decision can only be overturned by a Commission vote. The proper thing for parties desiring to expand the scope of the proceeding is to file a petition to modify D97-10-057 and D89-01-040 the Edison representative asserted, and added that its a waste of resources to require by April the filing of rate design principles, cost allocation proposals, and specific rate designs. Related arguments were presented before the Edison representative concluded that there is no reason to consolidate the rate design applications for the three (3) utilities and that doing so in the new competitive market context could have anti-competitive consequences. A more detailed summary of these points was provided in writing to Ms Duda, a copy of which was attached to the filer's Notice of Ex Parte Communications.
