Summary: On April 6, 1999 Southern California Edison Co. ("SCE") representatives attended an ex parte meeting with Commissioner Duque and advisor Michelle Cooke. This "all party" meeting was initiated by Enron Corp. Other parties attending were Sempra Energy, Pacific Gas & Electric Co., California Farm Bureau Federation, Office of Ratepayer Advocates, California Large Energy Consumers Assoc., California Manufacturers Assoc., San Diego Gas & Electric Co., California Industrial Users, The Utility Reform Network, California Energy Markets, Energy Producers and Users Coalition and California Assoc. of Cogenerators. SCE representatives in attendance were Bruce C. Foster, Michael R. Hoover, and Tres M. Petmecky. A sixteen (16) page written packet was provided the commissioner as well as an oral presentation. Among the many points made: There are several problems with the proposed decision. It is unclear which activities SCE are required to perform. It is unclear which activities SCE may terminate. The PD in denying § 376 recovery in favor of "market" recovery fails to define the market. Facts "29" and "72" raise several questions (and SCE lists them). The PD's defined role of the Utility Distribution Company ("UDC") is inconsistent with Commission decisions and reflects an incorrect view of UDC authority and responsibility. The PD should be modified to comport with previous PUC decisions and Assembly Bill 1890. Mr. Foster concluded by insisting the utilities must be allowed the opportunity to justify the reasonableness of the costs they incurred to implement direct access and comply with Commission decisions. The written ex parte handout contains numerous data, headings, and arguments, including tables of "Industry Restructuring Costs" and various "ESP" and other comments.

I93-04-002 Commission Order Instituting Investigation on the Commission's own motion into open access and network architecture development of dominant carrier networks.

Summary: On April 9, 1999 counsel for INFONXX, Inc., ("INFONXX") wrote a letter to Commission President Bilas, and provided a copy to Commissioner Neepser. John Clark's eleven (11) page letter described INFONXX's business as a competitive directory assistance ("DA") provider and explained the benefits that INFONXX and competitors have brought to consumers. Mr. Clark pointed out that the Commission's failure to establish nondiscriminatory, cost based pricing for such access has allowed the ILEC's to hinder fair competition by imposing egregiously high rates on DA service providers. Attached to Mr.

Clark's letter was a Southern Bell cost study showing costs of DA database access as being orders of magnitude below rates now being charged by Pacific Bell. Also attached was a recent arbitration award by the Texas PUC establishing cost based rates for DA database access also well below those now being charged by Pacific Bell. Mr. Clark urged the commissioners to put in place a non-discriminatory pricing structure similar to that of the Texas PUC.
