4/16/99 A96-11-007 Southern California Water Company, to increase rates in order to recover costs resulting from participation in the State Water Project under contract with the Central Coast Water Authority and other related costs to deliver water in its Santa Maria District.

Summary: On April 14, 1999 attorney Dan L. Carroll representing the Santa Maria Valley Water Conservation District (the "District") initiated an ex parte meeting at CPUC with Commissioner Duque. Attorney Brenda Jahns Southwick representing California Bureau Federation and Santa Barbara County Farm Bureau accompanied Mr. Carroll. Oral and written communications were conveyed. Mr. Carroll filed a four (4) page Notice of Ex Parte Communications representing oral statements he made to the commissioner, and a twenty eight (28) page packet comprising the handout provided the PUC official. Mr. Carroll and the District were responding to an ex parte meeting between Southern California Water Company ("SCWC") and Commissioner Duque on 3/23/99. The notice indicated the following point was made to Commissioner Duque: "The District's interest in the proceeding proceeds from its responsibility to manage the Santa Maria groundwater basin and its desire to see growth in the Orcutt area confront its own costs." Another point was that "SCWC had had four bites at the apple in its efforts to recover the costs of its ill advised participation in the State Water Project: (and it lists them).. Mr. Carroll said SCWC, not its ratepayers, should have to bear the cost of SCWC's poor business decision. He said SCWC's application should be denied with prejudice. Mr. Carroll then listed eight (8) reasons why the hearing record supports the proposed decision and refutes SCWC's assertions. Mr. Carroll concluded his oral presentation by stating SCWC's so called "Prudent Result" would be a fifth bite at the apple. Numerous points are made in the 28 page written packet. One headline reads "The Real Reason for This Application" followed by "to rescue SCWC from a horrible business decision."

would result in the wholesale disallowance of costs associated with activities SCE was mandated by the Commission to undertake in 1997 and 1998. This is unfair, SCE said, to deny SCE the opportunity to show reasonableness of costs after having been earlier ordered to perform them. Mr. Foster also stated the PD assumes a role for the Utility Distribution Company ("UDC") that has not been articulated before by PUC. The PD assumes the UDC is the same as any competitor and ignores SCE's special responsibilities Mr. Foster added. As a result of such faulty logic, Mr. Foster said the PD concludes market recovery is appropriate but never defines what the market is. Mr. Foster concluded by saying that despite the PD's disallowance of costs beyond 12/31/98, working groups and workshops continue for full implementation of direct access.

Summary: On April 14, 1999, Southern California Edison ("SCE") told Commissioner Neepser that Commissioner Duque's alternate decision ("AD") was the proper decision to approve. While both the proposed decision ("PD") and the AD recognize there is no premium or discount associated with unbundling, SCE said, the AD correctly concludes the ROE ("return on equity") should not be changed. SCE's PBR has a trigger mechanism, the commissioner was told, that reflects changes in market conditions and any change from that decision as suggested by the PD would not be appropriate.. SCE initiated this meeting, with representatives Bruce Foster and John Hughes conveying the communications.

Summary: .On April 15, 1999, Sempra Energy ("Sempra") initiated three (3) ex parte sessions with PUC officials regarding the same subject. Sempra representatives involved were Lee Schavrien and Kimberly Freeman. They met with (1) David Gamson, advisor to Commissioner Neepser, (2) Dorothy Duda, advisor to Commission President Bilas, and (3) Commissioner Duque and his advisor, Michelle Cooke. Mr. Schavrien stated there was

a technical and factual error in the proposed decision ("PD") on the calculation of San Diego Gas & Electric's ("SDG&E") return on equity ("ROE") request. He cited the transcript at page "1559." Correction of the error, he said, would equate to 11.8% ROE. Moreover, he continued, the correction would increase the recommended ROE from 10.6% to 10.77%. Mr. Schavrien then stated use of T-Bond rates rather than Aa Utility Bond rates is contrary to past PUC practice. Use of T-Bond rates, Mr. Schavrien insisted, compromises SDG&E's Market Indexed Capital Adjustment Mechanism ("MICAM"), as the MICAM is based on Aa Utility bond rates. Mr. Schavrien concluded by stating the Commission should consider the market volatility of the past six (6) months inasmuch as interests are almost 100 basis points higher today.
