A draft resolution (L-279) of the Legal Division approving disclosure of information concerning incident 19980527-01, dated May 24, 1999, will be on the June 24, 1999 Commission meeting agenda. Interested parties may request that USB's investigative report and correspondence with Southern California Edison Company be treated as confidential. Interested parties seeking confidential treatment should recognize the strong public interest in disclosure of information concerning incidents involving public utilities, and should seek confidential treatment only if they can demonstrate to the Commission's satisfaction both that the portions they wish kept confidential fall within a specific

exemption in the California Public Records Act (Government Code Section 6250 et seq.) and that the public interest in nondisclosure clearly outweighs the public interest in disclosure. Any request for confidentiality must be filed prior to the close of the comment period for this resolution.

Interested parties may obtain a copy of L-279 for review and submission of written comments. A copy of the draft resolution may be obtained from, and any subsequent written comments should be submitted to:

	A98-05-021	Pacific Gas and Electric Company, for authority to establish its authorized rates of return on common equity for electric distribution and gas distribution, and establish its unbundled rates of return for calendar year 1999 for electric distribution and gas distribution.
	A98-05-024	Southern California Edison Company, for consideration of unbundled rate of return on common equity, capital structure, cost factors for embedded debt and preferred stock, and overall rate of return for utility operations.

Summary: On May 21, 1999, John P. Hughes of Southern California Edison ("Edison") left voice messages in the offices of all commissioners. He said comments filed by Messrs. Knecht and Czahar contained errors. Mr. Hughes said Edison's PBR trigger mechanism had not been activated, and the filed comments to that effect were wrong. He also said Knecht/Czahar erroneously asserted that treasury bonds were the trigger mechanism in return on equity ("ROE"). Edison uses the "Aa" utility bond rate, Mr. Hughes said, and that the yield has declined by 140 basis points. If the erroneous comments were not corrected, Mr. Hughes said, Edison would respond in writing.
