A draft resolution (L-279) of the Legal Division approving disclosure of information concerning incident 19980527-01, dated May 24, 1999, will be on the June 24, 1999 Commission meeting agenda. disclosure of information concerning incidents involving public utilities, and should seek confidential treatment only if they can demonstrate to the Commission's satisfaction both that the portions they wish kept confidential fall within a specific exemption in the California Public Records Act (Government Code Section 6250 et seq.) and that the public interest in nondisclosure clearly outweighs the public interest in disclosure. Any request for confidentiality must be filed prior to the close of the comment period for this resolution.

utility subsidiaries which will occur indirectly as a result of GTE's merger with Bell Atlantic.

Summary: On May 27, 1999 GTE California Inc. ("GTE") told Commissioner Neeper's advisor that a motion recently filed by a group of intervenors in the GTE/Bell Atlantic merger proceeding should be rejected. Ms Jenny Wong of GTE told Advisor Fassil Fenikile that, alternatively, the procedural schedule for the proceeding should be suspended. Ms Wong indicated the parties have had ample time to analyze the application since December, 1998. Ms Wong further indicated GTE and Bell Atlantic have been cooperative with the parties, but that the motion, filed one week before testimony in the proceeding, did not present compelling arguments for the Commission's consideration. She said it was unreasonable for the parties to seek a response in such an extremely short time. GTE will, she said, respond in due time and will present more complete information on merger activities before the other state commissions and the FCC.

Summary: On June 2, 1999 Sempra Energy's ("Sempra") Lisa Hubbard delivered to PUC advisors a set of charts showing San Diego Gas & Electric Co.'s ("SDG&E") rate changes by customer class over the Restructuring period. Advisors receiving the written ex parte materials were Michelle Cooke, Dorothy Duda, Julie Halligan, and David Gamson. The charts reflected Commission decisions and assumptions in pending proceedings from 6/10/96 through 7/1/99 categorized by various unbundled components. Attached to the charts was a cover memo from Ms Hubbard explaining the charts were provided in response to Commissioner Neepers' comments at the Business Meeting of 5/27/99 regarding his interest in what rates would look like post-rate freeze. Ms Hubbard's memo noted that the charts make assumption in the outcome of the Cost of Capital and Revenue Adjustment proceeding still pending before the Commission, and that the numbers may change if the Commission's decisions differ from those assumptions. The charts comprised six (6) pages, and were labeled as follows at the top of each page: (1) residential, (2) small commercial, (3) Schedule A1-TOU, (4) Schedule A6-TOU, (5) Lighting, and (6) Agriculture.

Summary: AUGMENTATION REQUIRED. On May 25, 1999 a TURN ("The Utility Reform Network") attorney responded to a telephone call from Administrative Law Judge ("ALJ") Gottstein. Marcel Hawiger explained to the ALJ numbers presented in the table entitled "Permutation #2" of Joint Exhibit No. 8. Mr. Hawiger explained TURN's calculation of the surcharge attributable to other parties in footnote 6. He described the assumption underlying data in the fourth row. Mr. Hawiger noted that footnote 1 explains that SoCalGas uses an equal cents per therm formula in the table to allocate the surcharge portion attributable to other parties, while SoCalGas apparently proposes a different allocation method in their opening brief.

6/2/99 A99-03-014 Pacific Gas and Electric Company, to revise its electric marginal costs, revenue allocation, and rates at the end of the rate freeze.

Summary: On May 26, 1999 Jana Corey and David Rubin of Pacific Gas & Electric Co. ("PG&E") engaged in oral ex parte communications at CPUC with Julie Halligan, advisor to Commission President Bilas. Ms Corey stated PG&E would like the wires bypass charge originally proposed in PG&E's performance based ratemaking ("PBR") application be considered in Phase 2 of their general rate case ("GRC"). Mr. Rubin said discounted rates were historically considered in this proceeding and that the Distribution OIR is considering issues of policy, not implementation. He said Commissioner Duque's January 1999 scoping memo in the PBR case suggested moving this proposal to Phase 2 of PG&E's GRC, and that nothing has changed since to suggest this was inappropriate.
