Summary: On June 23, 1999, John Faber, President of ISP Networks, Inc., participated in two separate meetings: with Cmmr. Wood and with Cmmr. Hyatt in San Francisco. Also present at the meeting with Cmmr. Wood was Norman Low, assistant to Cmmr. Wood. In both meetings also participated: Martin Scheel of SaberNet; and David Simpson of Young, Vogl, Harlick, Wilson & Simpson, LLP, attorneys for these Internet Service Providers

(ISPs) (the Parties). During the meeting with Cmmr. Wood, the Parties urged the Commission to require that Pacific Bell pay Pac-West Telecomm, Inc. (Pac-West) terminating compensation for calls destined for ISPs. The parties explained that without such payments, Pac-West would no longer be able to provide reasonable flat rate access services for ISPs, which could lead to rural customers being cut-off from Internet. During the meeting with Cmmr. Hyatt, the parties, referring to the importance of ensuring the continued robust development of the competitive local carriers market, urged the Commission to support the draft decision in this matter.

6/24/99 A99-03-062 Southern California Edison Company, for an order under Section 701 of the Public Utilities Code granting Southern California Edison Company authorization to establish a pilot program for reselling bilateral forward purchases into the PX and ISO.

Summary: On June 21, 1999, Bruce Foster, Vice President of Regulatory Affairs of Southern California Edison Company (Edison), met with Cmmr. Bilas in San Francisco. Also present were: Dorothy Duda and Julie Halligan, advisors to Cmmr. Bilas; Mike Hoover and Gary Schoonyan, Directors of Regulatory Affairs of Edison. Written materials (attached to the notice) were used. Foster presented an overview of Edison's position that the Draft Decision (DD) contains errors of law and fact and should not be adopted. Foster expressed concern that the language over-reaches beyond the Pilot Program for Forward Purchases for bidding into the Power Exchange/Independent System Operator markets, and would preclude transactions that would clearly benefit Californians and further the goals of the Preferred Policy Decision. Schoonyan provided several examples of transactions that have been used previously, but would be foreclosed by the DD, including: baseload power that cannot be delivered due to congestion, ancillary services arrangements, and emergency situations. Schoonyan also indicated that if the Commission is not willing to approve Edison's application, Edison recommends it alter certain language in the DD that would preclude these previously discussed transactions prior to the end of the transition period.

Summary: On June 22, 1999, James Tobin, attorney for Pac-West Telecomm, Inc. (Pac-West), met with Cmmr. Wood in San Francisco. Also present were: Kevin Coughlan and Norman Low, interim advisors to Cmmr. Wood; and Wally Griffin, Chief Executive Officer of Pac-West. Pac-West's corporate brochure (attached to the notice) was used. Griffin explained that Pac-West has invested \$100 million in California and is growing its business to include local, long distance, and equipment services for small and medium business. Tobin stated that even though the Federal Communication Commission has determined that traffic to Internet Services Providers is jurisdictionally interstate, that finding does not prevent this Commission from treating this traffic as local for compensation purposes. He further stated that the Neeper Alternate was not capable of implementation because it does not identify any contract provisions to be inserted into the arbitrated agreement to replace the proposals of the parties which are rejected.

Summary: On June 22, 1999, James Tobin, attorney for Pac-West Telecomm, Inc. sent a letter (attached to the notice) to Cmmr. Bilas. Copies were also sent to Cmmrs. Duque, Neeper, Hyatt and Wood. Attached to the letter were copies of two recent decisions of the Maryland Public Service Commission and the Indiana Utility Regulatory Commission and an opinion from the United States Court of Appeal for the Seventh Circuit. The letter stated that three decisions upheld state Commission decisions requiring the payment of reciprocal compensation for traffic terminating to Internet Service Providers and rejected arguments that the Federal Communications Commission's February 26, 1999, Declaratory Ruling precluded such compensation

Summary: On June 22, 1999, J. Shelby Bryan, CEO of ICG Communications, Inc. (ICG), met with Cmmr. Bilas in San Francisco. Also present were: Cmmr. Hyatt; Lester Wong and Dorothy Duda, advisors to Cmmr. Bilas; and Cindy Z. Schonhaut, Executive Vice President – Government Affairs, and Barry Drenfeld and Nick Selby, outside counsels, to ICG. During the meeting, ICG's representatives, Bryan, Schonhaut and Selby, mentioned that ICG believed that the Commission should deny the pending applications for rehearing of D98-10-057 and that further review, if any, of the Commission's policies regarding reciprocal compensation for Internet service provider (ISP)-bound traffic should occur in a

separate new proceeding. The ICG representatives stated that, even if it were necessary to revise D98-10-057 in light of the Federal Communications Commission's February 25, 1999 declaratory ruling regarding ISP-bound traffic, the Commission could make such revisions without changing the result of D98-10-057, which was consistent with the declaratory ruling.
