SUBSCRIPTION INFORMATION

Subscription Notice for Draft Agenda Items

In compliance with Public Utilities Code Section 311.5, parties who wish to subscribe to receive draft agenda items may do so by writing to the Public Utilities Commission; Attention: Poly Arca, Room 1003, 505 Van Ness Avenue, San Francisco, CA 94102, or by calling (415) 703-1798. The cost for a one-year subscription to the entire public agenda package (which excludes Executive Session materials) is \$1,000. You may also order a partial agenda package (energy agenda items only or telecommunication agenda items only) at the cost of \$500 per year. The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. If

agenda items (including revisions) are not ready on the distribution date, they will be made available at no charge in the lobby outside the Commission Auditorium at 9:00 a.m. on the morning of the Commission meeting, but not earlier.

In addition, the Commission will make draft agenda items available for viewing and photocopying (at 20 cents per page) at the Commission's Central Files Office (Room 2002), 505 Van Ness Avenue, San Francisco, and in the Los Angeles, San Diego, and the following field offices: El Centro, Eureka, Sacramento and San Bernardino. Since the agenda package will be mailed to these locations, it will be available at these locations a day or two after the distribution date. These locations will not receive agenda items that are not ready on the distribution date. If an agenda item is held over to a subsequent Commission meeting, that agenda item and any revisions to that agenda item that were available on the morning of the initial Commission meeting (as well as any further available revisions) will be mailed in the Escutia package for the subsequent Commission meeting; the item and its revisions will also be available for viewing and photocopying in the Commission's Central Files Office and field offices as set forth above. Intervenors who have a financial hardship determination pending or granted shall be eligible to receive draft agenda item packets at no charge.

The cost to receive the agenda only, without copies of draft agenda items, remains at \$75 per year.

Subscription Notice for Daily Calendar and/or Agenda

Parties who wish to subscribe to the Daily Calendar and/or the Agenda may do so by writing to the Public Utilities Commission; Attention: Poly Arca, Room 1003, 505 Van Ness Avenue, San Francisco, CA 94102, or by calling (415) 703-1798. The subscription cost for the Daily Calendar is \$225 per year. The Biweekly Daily Calendar is \$50 per year. The Agenda is \$75 per year. Checks are to be made payable to the Public Utilities Commission.

71/99 A99-03-062 Southern California Edison Company, for an order under Section 701 of the Public Utilities Code granting Southern California Edison Company authorization to establish a pilot program for reselling bilateral forward purchases into the PX and ISO.

Summary: On June 28, 1999, Bruce Foster, Vice President of Regulatory Affairs for Southern California Edison Company (Edison), met with Cmmr. Neeper in San Francisco. Also present were: David Gamson, advisor to Cmmr. Neeper; and Gary Schoonyan, Director of Regulatory Affairs for Edison. Foster indicated that he had agreed with Cmmr. Neeper's memorandum stating that a Pilot Program or Forward Purchases (Pilot) did not violate the Commission's preferred policy decision (PPD). However, Foster also expressed Edison's concern that the language over-reaches beyond the Pilot and if left uncorrected, would preclude transactions involving existing practices that clearly benefit Californians. Schoonyan provided several examples of transactions that have been used previously, but would not be foreclosed by the draft decision (DD). Schoonyan indicated that if the Commission is not willing to approve the application, Edison recommends it alter certain language in the DD that would preclude these previously discussed transactions prior to the end of the transition period.

7/8/99 A99-03-062 Southern California Edison Company, for an order under Section 701 of the Public Utilities Code granting Southern California Edison Company authorization to establish a pilot program for reselling bilateral forward purchases into the PX and ISO.

Summary: AUGMENTATION REQUIRED. On July 2, 1999, Jonathan Bromson, attorney for the Office of Ratepayer Advocates (ORA), met with Cmmr. Duque in San Francisco. Also present were: Michelle Cooke, advisor to Cmmr. Duque, and Jeanne Hallman, staff member for ORA; and representatives of the other interested parties, including Southern California Edison Company, San Diego Gas and Electric Company, The Utility Reform Network, the Alliance for Retail Markets, Independent Energy Producers, the Department of General Services, Williams, Western Power Trading Forum and Dynegy. ORA representatives stated ORA's support for ALJ Hale's draft decision.

ORA representatives noted that the preferred policy decision (PPD) set a very high standard for the Commission to make changes to the policy during the transition period, and that Edison had not established that last summer's price spikes were the type of event that mandated a change to a policy. ORA representative argued that the goal of the PPD of transparency in the operations of the Power Exchange (PX) would be compromised by allowing Edison to enter into bilateral contracts without parties knowing the terms. ORA representatives pointed out that the Federal Energy Commission had recently approved the PX's own block-forwarding proposal, along with a price cap and an anticipated redesign in ancillary services guidelines, all of which should alleviate price spikes.

7/8/99 I98-03-013 Order Instituting Investigation on the Commission's own motion, into whether existing standards and policies of the Commission regarding drinking water quality adequately protect the public health and safety with respect to contaminants such as Volatile Organic Compounds, Perchlorate, MTBEs, and whether those standards and policies are being uniformly complied with by Commission regulated utilities.

Summary: LATE FILED: On June 30, 1999, William T. Bagley, attorney for California Water Association (CWA), met with Cmmr. Wood in San Francisco. Written materials (attached to the notice) were used. Bagley described lawsuits against investor-owned water utilities and stated that if trial juries were allowed to award damages against water utilities, the impact on rates would be devastating and water rates would differ drastically from region to region based on different jury verdicts.

7/6/99 A98-04-016 **CORRECTION FROM THE DAILY CALENDAR OF 7/9/99.** Pacific Gas and Electric Company, for authorization to sell the El Dorado Hydroelectric Project to El Dorado Irrigation District.

Summary Michelle Cooke, advisor to Cmmr. Duque, in San Francisco. Also present were: Dorothy Duda, advisor to Cmmr. Bilas, and Kevin Coughlan, advisor to Cmmr. Wood; Sabrina Miller, Senior Regulatory Representative, Richard Meiss, attorney, Stephanie Maggard, Director, Capital Accounting Department, Steven Peirano, Senior Project Manager, Hydro Generation Department, for Pacific Gas and Electric Company (PG&E); William Hetland, General Manager, and John Kessler, Director, Hydroelectric Department, for EID; and William Marcus, Principal Economist, JBS Energy, Inc. Written materials (attached to the notice) were used. Myers stated that Federal Energy Regulatory Commission (FERC) had approved the transfer of the Project's license from PG&E to EID, and that, with the certification by the EID Board of a Final Environmental Impact Report (EIR), this matter would be ready for a decision. Kessler stated that the project had been severely damaged in the storm of 1997 and had been inoperable for electric generation

since that time. Kessler noted that, associated with the Project's primary electric generation function, was a public utility and contractual obligation for PG&E to deliver a set amount of water for EID. Kessler stated that that water represented a critical and irreplaceable one-third of EID's water supply to its customers and that, in acquiring the Project, EID sought to ensure a continued supply of water. Referring to a dispute existed in this proceeding, Myers explained that it centered on the economic terms and the "value" of the assets. Peirano stated that PG&E was **now** foreclosed from renewing the Project license and, without this transfer, PG&E's only alternative would be to decommission the plant. Myers and Meiss both noted that, with the transfer, PG&E would not only be relieved of its water obligation to EID, but highly contentious litigation surrounding that obligation would end. Marcus indicated that the \$17 million payment to EID was reasonable. Maggard described the ratemaking treatment for the transfer. Meiss, Kessler, and Myers also stated that the values ascribed to parcels and water being transferred were consistent with restrictions on land use and water rights dictated by the federal, state, and local authority over Project property and water. Myers further noted that approval of this transfer would not create any new consumptive water rights for EID. Myers and Meiss urged the Commission's prompt approval of the CATA after the certification of the final EIR.
