Summary: On August 10, 1999, Rick Witherington, Government Affairs Vice President of AT&T Communications of California, Inc. (AT&T), met with Cmmr. Hyatt in San Francisco. Also present were: Bob Lane, interim advisor to Cmmr. Hyatt; and Bob Kargoll, AT&T Regulatory Director. Written materials (attached to the notice) were used. AT&T representatives discussed its concern that under the current prices in the Open Access and Network Architecture Development unbundled network element (UNE) pricing decision, AT&T would not be able to enter the local market to serve residential customers. AT&T representatives also discussed the importance of geographically deaveraged UNE loop prices, and the need to account for Pacific Bell's USF support in setting UNE loop prices until geographically deaveraged prices are in place.

8/13/99	A93-12-025	Southern California Edison Company, for authority to increase its authorized level of base rate revenue approximately \$153 million over the current albr under the electric revenue adjustment mechanism for service rendered beginning 1/1/95 and to reflect this increase in rates.
	I94-02-002	Commission Order Instituting Investigation, into the rates, charges, and practices of Southern California Edison Company, establishment of the utility's revenue requirement, and attrition request; consolidated with A93-12-025.

Summary: On August 5, 1999, Bruce Foster, Vice President of Regulatory Affairs for Southern California Edison Company (Edison), met with Cmmr. Hyatt in San Francisco. Also present were: Kim Malcolm, advisor to Cmmr. Hyatt; and Mike Hoover, Director of Regulatory Affairs for Edison. Foster and Hoover stated that the draft decision (DD) failed to recognize that the primary concerns discussed in D96-08-025 were resolved with the adopted ratemaking treatment. Foster and Hoover also noted that the concern related to the uncertainties over how unbundling, performance-based ratemaking (PBR) and other aspects

of the restructured electric industry will develop has also been resolved. Foster and Hoover also pointed out that the DD fails to recognize that the ratemaking and sales impacts are excluded from Edison's PBR. Foster and Hoover stated further that the DD ignores the fact that the FPO decision found Edison's proposed generic contracts neither anti-competitive nor discriminatory and it also ignores the Unbundling Decision that found that all direct access customers can take advantage of FPOs. Foster and Hoover explained that the DD would close rate options that existed prior to June 10, 1996 and that this would violate AB1890 and would be inconsistent with D97-12-044. Edison representatives asked the Commission to reject the DD.
