Stakeholder Roundtable on CPUC Innovations

October 12, 1999
1 pm

California Public Utilities Commission
505 Van Ness Avenue
Auditorium
San Francisco
(Corner of Van Ness Avenue and McAllister Street)

The *Stakeholder Roundtable* is a key element of our ongoing effort to assure that the way the California Public Utilities Commission (CPUC) conducts business is fully aligned with evolving publicly-valued needs and expectations.

Federal and state utility deregulation, technological change, as well as other current issues with widespread impact including area code proliferation, local and long distance telephone competition, competition in electricity services, and the need for consumer education and protection in competitive industries. All of these make it imperative for the CPUC to continue to strive to address stakeholder and public needs in innovative and efficient ways.

The goal of the *Stakeholder Roundtable* is to hear your suggestions for specific, feasible, needed innovations at the CPUC with respect to, for instance, changes in processes, rules, ways of conducting business, and ways we interact and communicate with the public and others. We also seek ideas from our employees on how we can make the Commission a more fulfilling place to work.

Recently, the Commission issued its *Draft 1999 – 2000 CPUC Business Plan* for stakeholder review and comment (available at www.cpuc.ca.gov). Within it are ongoing process reform efforts, planned innovations in expanded electronic access to the CPUC, and additional planned streamlined procedures to benefit stakeholders and the public directly. The *Draft Business Plan* incorporates a set of eight good government initiatives I proposed this spring and the Directors' responses to an innovation survey conducted by the Governor's Office of Innovation in Government. These documents are available on the Commission website in association with this notice.

The *Stakeholder Roundtable* is intended to go a step further by enabling us to hear firsthand from electric, telephone, and gas utilities and providers, rail, water, transportation, and other regulated entities. We also seek input from the public, consumer groups, industry labor representatives, legislators, the Administration, other government agencies, employee advocacy groups and employee union representatives about innovations or improvements you think we should make to better serve public and stakeholder interests, and how we should begin to implement them expeditiously. Contact Garret Shean at 415-703-1114; 916-327-1416, or GShean@cpuc.ca.gov by September 13th if you wish to be a *Stakeholder Roundtable* participant.

Submission Instructions for Stakeholder Roundtable:

As a starting point, the Roundtable will consider:

- Where are we now?
- Where should we be?

How do we get there?

In asking, "Where should we be?" the Commissioners seek constructive ideas on making the agency effective, efficient, and future-oriented. Areas for discussion might include, for example:

New or evolving regulatory models for the Commission's regulatory, oversight, education, consumer protection, and enforcement roles;
Communication, both to and from the Commission, and access to Commission information, focusing on ease of use, availability of information or employees, and the timeliness and value of available information;
Electronic interfacing between the Commission and stakeholders, and e-business processes including the transferring information to and sharing of databases;
The development of expert systems or automated processes for repetitive business processes; and
Feedback mechanisms to continuously inform the Commission of a need to re-align its processes to address changing circumstances or enhanced technology.

Responses: The Commission requests that stakeholder responses be submitted electronically at Gshean@cpuc.ca.gov. Internal PUC submissions are to GPS on Outlook. Hardcopy submissions may be mailed to Mr. Shean, Room 5119, 505 Van Ness Avenue, San Francisco, California 94102

The Commission requests that all potential participants provide on or before September 20, 1999, a one-page summary of their innovation suggestions so that they can be compiled into general topic areas for panel selection and circulated electronically to participants prior to the *Roundtable* to facilitate a valuable dialogue. An agenda, including a designation of topic panels, for the *Roundtable* will be returned to all respondents on October 5, 1999. Non-panel participants may address the *Roundtable* during a general comment period.

Following the initial *Roundtable*, staff teams will review the replies, conduct any needed public workshops to discuss comments on stakeholder suggestions, and prepare an implementation plan for Commission consideration.

A draft resolution (L-286) of the Legal Division approving the disclosure of information concerning the explosion occurring on February 17, 1998 at 2101 San Pablo Avenue, Pinole, California, will be on the September 2, 1999, Commission meeting agenda. The Commission may vote on this resolution at that time, or it may postpone a vote until later. CORRECTION

The August 3, 1999, Daily Calendar indicated that a draft resolution (L-285) of the Legal Division approving disclosure of confidential records concerning direct access customers to the California State Board of Equalization pursuant to a confidentiality agreement will be on the September 2, 1999, Commission meeting agenda. The Daily Calendar invited comments on the draft resolution and also noted that this draft resolution has been circulated to the Electric Restructuring Service List, R.94-04-031/I.94-04-032, the Registered Electric Service Providers Service List, and the Inactive Electric Service Providers Service List.

Due to changed circumstances, draft resolution L-285 will not be placed on the agenda for consideration at the Commission's September 2, 1999 meeting. Since the matter will require consideration by the Commission at a future business meeting, the Daily Calendar will provide notice and information about filing comments at a future time.

If you have questions, you may contact Fred Harris at (415) 703-1557.

8/26/99	A98-05-004	Pacific Gas and Electric Company, to establish the eligibility and seek recovery of certain electric industry restructuring implementation costs as provided for in Public Utilities Code Section 376,
	A98-05-006	San Diego Gas & Electric Company, for (1) a determination of eligibility for recovery under Public Utilities Code section 376 of certain cost categories and activities, (2) a finding of reasonableness of the costs incurred through 12/31/97, (3) approval of an audit methodology for verifying the eligibility of section 376 costs for recovery from 1998 through 2001, and (4)

approval of a section 376 balancing account mechanism to recover eligible costs, and
A98-05-015 Southern California Edison Company, to address restructuring implementation costs pursuant to Public Utilities Code section 376, in compliance with Ordering Paragraph 18 of D97-11-074.

Summary: On August 25, 1999, Jeanne M. Bennett, attorney for Enron Corp. (Enron), had a telephone conversation with Dorothy Duda, advisor to Cmmr. Bilas. Bennett discussed the revised Proposed Decision (PD) issued by ALJ Minkin on the settlement agreement between Southern California Edison Company (SCE) and certain Interested Parties regarding SCE's recovery of restructuring implementation costs. Bennett also discussed, specifically, the apparent discrepancy between the revised PD's requirement that SCE recover all non-Section 376 eligible restructuring implementation costs prior to the end of its rate freeze and the Commission's recent approval of a four-year amortization period for San Diego Gas & Electric Company's post-rate freeze recovery. In addition, the implications for an early end to SCE's rate freeze if the subject language in the revised PD is adopted was discussed.

8/27/99 A98-04-016 Pacific Gas and Electric Company, for authorization to sell the El Dorado Hydroelectric Project to El Dorado Irrigation District.

Summary: On August 24, 1999, Sabrina Miller, Senior Regulatory representative for Pacific Gas and Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Neeper, in San Francisco. On the same day, Miller also met with Jullie Halligan, advisor to Cmmr. Bilas, and Kim Malcolm, advisor to Cmmr. Hyatt. Also present at both meetings were: Kim Malcolm, advisor to Cmmr. Hyatt; Sara Steck Myers, attorney, and John Kessler, Director, Hydroelectric Department, both for the El Dorado Irrigation District (EID); Les Guliasi, Manager for Regulatory Relations, Stephanie Maggard, Director of Strategic Planning, Richard Meiss, attorney, and Bob McLenna, attorney, all from PG&E. In both meetings, Myers and Miller stated that both EID and PG&E support the alternate pages of Cmmr. Duque incorporated in the Proposed Decision (PD) of ALJ Barnett. Myers and Miller also stated issuance of construction to restore water facilities. Myers opposed the ALJ's \$2 million adjustment to the \$17 million rate recovery. Meiss stated that the Commission has never decided whether to separate electric generating assets for California Transportation Commission from water utility assets for ratemaking purposes. Maggard noted that cost of the El Dorado Hydroelectric Project (Project) have been part of electric rates and water revenue considered as electric other operating revenues. Meiss stated that PG&E electric ratepayers would be advantaged by transferring the facilities to EID, rather than rebuilding the damaged Project. Miller asked that Ordering Paragraph 4, requiring PG&E's Board of Directors assure the Commission that PG&E will not ask for decommissioning costs be changed to a letter from PG&E's Chief Executive Officer. A

one-page handout outlining the history of events related to the Project was used and it is attached to the notice.
