**Stakeholder Roundtable on CPUC Innovations**

<p>October 12, 1999 1 pm</p>	<p><i>California Public Utilities Commission 505 Van Ness Avenue Auditorium San Francisco (Corner of Van Ness Avenue and McAllister Street)</i></p>
----------------------------------	---

The *Stakeholder Roundtable* is a key element of our ongoing effort to assure that the way the California Public Utilities Commission (CPUC) conducts business is fully aligned with evolving publicly-valued needs and expectations.

Federal and state utility deregulation, technological change, as well as other current issues with widespread impact including area code proliferation, local and long distance telephone competition, competition in electricity services, and the need for consumer education and protection in competitive industries. All of these make it imperative for the CPUC to continue to strive to address stakeholder and public needs in innovative and efficient ways.

The goal of the *Stakeholder Roundtable* is to hear your suggestions for specific, feasible, needed innovations at the CPUC with respect to, for instance, changes in processes, rules, ways of conducting business, and ways we interact and communicate with the public and others. We also seek ideas from our employees on how we can make the Commission a more fulfilling place to work.

Recently, the Commission issued its *Draft 1999 – 2000 CPUC Business Plan* for stakeholder review and comment (available at [www.cpuc.ca.gov](http://www.cpuc.ca.gov)). Within it are ongoing process reform efforts, planned innovations in expanded electronic access to the CPUC, and additional planned streamlined procedures to benefit stakeholders and the public directly. The *Draft Business Plan* incorporates a set of eight good government initiatives I proposed this spring and the Directors' responses to an innovation survey conducted by the Governor's Office of Innovation in Government. These documents are available on the Commission website in association with this notice.

The *Stakeholder Roundtable* is intended to go a step further by enabling us to hear firsthand from electric, telephone, and gas utilities and providers, rail, water, transportation, and other regulated entities. We also seek input from the public, consumer groups, industry labor representatives, legislators, the Administration, other government agencies, employee advocacy groups and employee union representatives about innovations or improvements you think we should make to better serve public and stakeholder interests, and how we should begin to implement them expeditiously. Contact Garret Shean at 415-703-1114; 916-327-1416, or [GShean@cpuc.ca.gov](mailto:GShean@cpuc.ca.gov) by September 13th if you wish to be a *Stakeholder Roundtable* participant.

**Submission Instructions for Stakeholder Roundtable:**

As a starting point, the Roundtable will consider:

- Where are we now?
- Where should we be?
- How do we get there?

In asking, "Where should we be?" the Commissioners seek constructive ideas on making the agency effective, efficient, and future-oriented. Areas for discussion might include, for example:

- New or evolving regulatory models for the Commission's regulatory, oversight, education, consumer protection, and enforcement roles;
- Communication, both to and from the Commission, and access to Commission information, focusing on ease of use, availability of information or employees, and the timeliness and value of available information;
- Electronic interfacing between the Commission and stakeholders, and e-business processes including the transferring information to and sharing of databases;
- The development of expert systems or automated processes for repetitive business processes; and
- Feedback mechanisms to continuously inform the Commission of a need to re-align its processes to address changing circumstances or enhanced technology.

Responses: The Commission requests that stakeholder responses be submitted electronically at [Gshean@cpuc.ca.gov](mailto:Gshean@cpuc.ca.gov). Internal PUC submissions are to GPS on Outlook. Hardcopy submissions may be mailed to Mr. Shean, Room 5119, 505 Van Ness Avenue, San Francisco, California 94102

The Commission requests that all potential participants provide on or before September 20, 1999, a one-page summary of their innovation suggestions so that they can be compiled into general topic areas for panel selection and circulated electronically to participants prior to the *Roundtable* to facilitate a valuable dialogue. An agenda, including a designation of topic panels, for the *Roundtable* will be returned to all respondents on

October 5, 1999. Non-panel participants may address the *Roundtable* during a general comment period.

Following the initial *Roundtable*, staff teams will review the replies, conduct any needed public workshops to discuss comments on stakeholder suggestions, and prepare an implementation plan for Commission consideration.

9/9/99	R95-04-043	Rulemaking on the Commission's own motion into competition for local exchange service and
	I95-04-044	Investigation on the Commission's own motion into competition for local exchange service.

**Summary: LATE FILED.** On August 5, 1999, Bill Blase, Vice President Regulatory, for Pacific Bell, sent a letter attaching an article to Cmmrs. Bilas, Wood, Neeper, Hyatt, and Duque. Copies of the letter with the attachment were also sent to Cmmrs' respective advisors. The article demonstrated with empirical data that using the Bell South Georgia loop rate of \$16.51 (which is 40% higher than that proposed in California in the OANAD proceeding) competitors can earn substantial returns. Using the local exchange company loop, competitors have access to revenue sources beyond simply local service. These additional sources include intraLATA toll, vertical services, access charges and interLATA toll. Copies of written materials are attached to the notice.

9/14/99	A98-05-038	Pacific Bell, for authority for pricing flexibility and to increase prices of certain operator services, to reduce the number of monthly directory assistance call allowances, and adjust prices for four centrex optional features
---------	------------	---

**Summary:** On September 9, 1999, James M. Tobin and Mary E. Ward, attorneys for County of Los Angeles (LA County), met with Cmmr. Hyatt. Tobin stated that the application should be rejected because Pacific Bell had failed to prove that it costs justified the rate increases. Tobin also stated that if the Commission decides to accept Pacific Bell's flawed cost studies as basis for directory assistance (DA) pricing, the cost studies cannot justify a price in excess of \$.40 cents per DA call. Furthermore, Tobin stated that the Commission should not issue its decision until has resolved the pricing issues for unbundled network elements (UNEs) currently pending in R.93-04-003/I.93-04-002, the "OANAD" proceeding, in order to insure that the DA rate adopted is consistent with the DA UNE rate adopted in the OANAD proceeding.
