**Stakeholder Roundtable on CPUC Innovations**

<p>October 12, 1999 1 pm</p>	<p>California Public Utilities Commission 505 Van Ness Avenue Auditorium <b>San Francisco</b> (Corner of Van Ness Avenue and McAllister Street)</p>
----------------------------------	---

The *Stakeholder Roundtable* is a key element of our ongoing effort to assure that the way the California Public Utilities Commission (CPUC) conducts business is fully aligned with evolving publicly-valued needs and expectations.

Federal and state utility deregulation, technological change, as well as other current issues with widespread impact including area code proliferation, local and long distance telephone competition, competition in electricity services, and the need for consumer education and protection in competitive industries. All of these make it imperative for the CPUC to continue to strive to address stakeholder and public needs in innovative and efficient ways.

The goal of the *Stakeholder Roundtable* is to hear your suggestions for specific, feasible, needed innovations at the CPUC with respect to, for instance, changes in processes, rules, ways of conducting business, and ways we interact and communicate with the public and others. We also seek ideas from our employees on how we can make the Commission a more fulfilling place to work.

Recently, the Commission issued its *Draft 1999 – 2000 CPUC Business Plan* for stakeholder review and comment (available at [www.cpuc.ca.gov](http://www.cpuc.ca.gov)). Within it are ongoing process reform efforts, planned innovations in expanded electronic access to the CPUC, and additional planned streamlined procedures to benefit stakeholders and the public directly. The *Draft Business Plan* incorporates a set of eight good government initiatives I proposed this spring and the Directors’ responses to an innovation survey conducted by the Governor’s Office of Innovation in Government. These documents are available on the Commission website in association with this notice.

The *Stakeholder Roundtable* is intended to go a step further by enabling us to hear firsthand from electric, telephone, and gas utilities and providers, rail, water, transportation, and other regulated entities. We also seek input from the public, consumer groups, industry labor representatives, legislators, the Administration, other government

agencies, employee advocacy groups and employee union representatives about innovations or improvements you think we should make to better serve public and stakeholder interests, and how we should begin to implement them expeditiously. Contact Garret Shean at 415-703-1114; 916-327-1416, or [GShean@cpuc.ca.gov](mailto:GShean@cpuc.ca.gov) by September 13th if you wish to be a *Stakeholder Roundtable* participant.

**Submission Instructions for Stakeholder Roundtable:**

As a starting point, the Roundtable will consider:

Where are we now?  
Where should we be?  
How do we get there?

In asking, "Where should we be?" the Commissioners seek constructive ideas on making the agency effective, efficient, and future-oriented. Areas for discussion might include, for example:

New or evolving regulatory models for the Commission's regulatory, oversight, education, consumer protection, and enforcement roles;  
Communication, both to and from the Commission, and access to Commission information, focusing on ease of use, availability of information or employees, and the timeliness and value of available information;  
Electronic interfacing between the Commission and stakeholders, and e-business processes including the transferring information to and sharing of databases;  
The development of expert systems or automated processes for repetitive business processes; and  
Feedback mechanisms to continuously inform the Commission of a need to re-align its processes to address changing circumstances or enhanced technology.

Responses: The Commission requests that stakeholder responses be submitted electronically at [Gshean@cpuc.ca.gov](mailto:Gshean@cpuc.ca.gov). Internal PUC submissions are to GPS on Outlook. Hardcopy submissions may be mailed to Mr. Shean, Room 5119, 505 Van Ness Avenue, San Francisco, California 94102

The Commission requests that all potential participants provide on or before September 20, 1999, a one-page summary of their innovation suggestions so that they can be compiled into general topic areas for panel selection and circulated electronically to participants prior to the *Roundtable* to facilitate a valuable dialogue. An agenda, including a designation of topic panels, for the *Roundtable* will be returned to all respondents on October 5, 1999. Non-panel participants may address the *Roundtable* during a general comment period.

---

Following the initial *Roundtable*, staff teams will review the replies, conduct any needed public workshops to discuss comments on stakeholder suggestions, and prepare an implementation plan for Commission consideration.

9/20/99	A99-03-047	Pacific Bell, for arbitration of an interconnection agreement with MFS/WorldCom pursuant to Section 252(b) of the Telecommunications Act of 1996
---------	------------	--

**Summary:** On September 15, 1999, Karen Notsund, Senior Director, Government Affairs, for ICG Telecom Group, Inc. (ICG), had two telephone conversations to Lester Wong, advisor to Cmmr. Bilas, in San Francisco. Notsund discussed the portion of the Final Arbitrator's Report (FAR) that resolves Issue 83 and finds that WoldCom Technologies, Inc., is not entitled to claim compensation for the tandem switching and common transport functions that are performed by its fiber optic network in terminating local calls. Notsund explained that ICG is concerned that the FAR's resolution would penalize efficiencies gained through deployment by competitive local exchange carriers (CLECs) of modern fiber optic networks. Notsund urged the Commission to adopt the Alternate Order by Cmmr. Bilas that would adopt the resolution that was contained in the Draft Arbitrator's Report. Notsund stated that any concern that CLECs would be overcompensated for terminating local calls that originated from Pacific Bell was misplaced for two reasons: First, the compensation reflects the costs that Pacific Bell itself urged the Commission to adopt in the OANAD UNE costing case. Second, assuming that, were it not for the CLEC, Pacific Bell would be serving the end user customer. Notsund further stated that Pacific Bell is only compensating the CLEC for the costs that the CLEC incurs in terminating calls, costs which Pacific avoids because the CLEC is doing the work of terminating the call.

Southern California Edison Company, for authority to adopt a revenue-sharing mechanism for certain other operating revenues.

**Summary:** On September 15, 1999, Tom Thompson, from the Office of Ratepayer Advocates (ORA), had a telephone conversation with Michelle Cooke, advisor to Cmmr. Duque, in San Francisco. Thompson expressed his understanding of events which led to letters to the Commission on September 10, 1999 from TURN, Edison and ORA, as well as the letter from TURN of September 14, 1999. Thompson reiterated ORA's support for the alternate decision of Cmmr. Bilas.

**Summary: LATE FILED:** On September 14, 1999, Robert Finkelstein, staff attorney, for The Utility Reform Network (TURN), met with Cmmr. Wood and his advisor, Kevin Coughlan, and on the same day, met with Kim Malcolm, advisor to Cmmr. Hyatt, in San Francisco. Finkelstein urged that neither the Draft Decision (DD) nor the Alternate Decision (AD) be issued without substantial changes. Finkelstein noted that based on the record as it existed prior to the filing of Southern California Edison (Edison) and the Office of Ratepayer Advocates (ORA) Joint Reply Comments, the Proposed Settlement would to demonstrable reductions in the amount of Other Operating Revenues that flowed to ratepayers under existing ratemaking mechanisms. Finkelstein also noted that both DD and the AD generally reject every substantive argument ORA had made in support of the reasonableness of the Settlement from ratepayers perspective. In addition, during the meeting with Cmmr. Wood, Finkelstein noted that the Reply Comments reversed the

position of at least one of the Settling Parties on a core issued covered by the Proposed Settlement. While Finkelstein agreed that this was an incremental improvement, he contended that the Commission should be very troubled by the manner in which the change was made, and especially the fact that the Settling Parties claimed no change had occurred. Finkelstein suggested that since the support for the Proposed Settlement relied more on the credibility of the Settling Parties, that this should be further cause for the Commission to seriously reconsider the totality of the Proposed Settlement and as a result of that review, reject it.

**Summary:** On September 20, 1999, Russell G. Worden, of Southern California Edison Company, spoke by telephone to Kim Malcolm, advisor to Cmmr. Hyatt, in San Francisco.
