Stakeholder Roundtable on CPUC Innovations

October 12, 1999 1 pm	California Public Utilities Commission 505 Van Ness Avenue Auditorium San Francisco (Corner of Van Ness Avenue and McAllister Street)
--------------------------	--

The *Stakeholder Roundtable* is a key element of our ongoing effort to assure that the way the California Public Utilities Commission (CPUC) conducts business is fully aligned with evolving publicly-valued needs and expectations.

Federal and state utility deregulation, technological change, as well as other current issues with widespread impact including area code proliferation, local and long distance telephone competition, competition in electricity services, and the need for consumer education and protection in competitive industries. All of these make it imperative for the CPUC to continue to strive to address stakeholder and public needs in innovative and efficient ways.

The goal of the *Stakeholder Roundtable* is to hear your suggestions for specific, feasible, needed innovations at the CPUC with respect to, for instance, changes in processes, rules, ways of conducting business, and ways we interact and communicate with the public and

others. We also seek ideas from our employees on how we can make the Commission a more fulfilling place to work.

Recently, the Commission issued its *Draft 1999 – 2000 CPUC Business Plan* for stakeholder review and comment (available at www.cpuc.ca.gov). Within it are ongoing process reform efforts, planned innovations in expanded electronic access to the CPUC, and additional planned streamlined procedures to benefit stakeholders and the public directly. The *Draft Business Plan* incorporates a set of eight good government initiatives I proposed this spring and the Directors' responses to an innovation survey conducted by the Governor's Office of Innovation in Government. These documents are available on the Commission website in association with this notice.

The *Stakeholder Roundtable* is intended to go a step further by enabling us to hear firsthand from electric, telephone, and gas utilities and providers, rail, water, transportation, and other regulated entities. We also seek input from the public, consumer groups, industry labor representatives, legislators, the Administration, other government agencies, employee advocacy groups and employee union representatives about innovations or improvements you think we should make to better serve public and stakeholder interests, and how we should begin to implement them expeditiously. Contact Garret Shean at 415-703-1114; 916-327-1416, or GShean@cpuc.ca.gov by September 13th if you wish to be a *Stakeholder Roundtable* participant.

Submission Instructions for Stakeholder Roundtable:

As a starting point, the Roundtable will consider:

Where are we now?
Where should we be?
How do we get there?

In asking, "Where should we be?" the Commissioners seek constructive ideas on making the agency effective, efficient, and future-oriented. Areas for discussion might include, for example:

New or evolving regulatory models for the Commission's regulatory, oversight, education, consumer protection, and enforcement roles;
Communication, both to and from the Commission, and access to Commission information, focusing on ease of use, availability of information or employees, and the timeliness and value of available information;
Electronic interfacing between the Commission and stakeholders, and e-business processes including the transferring information to and sharing of databases;
The development of expert systems or automated processes for repetitive business processes; and
Feedback mechanisms to continuously inform the Commission of a need to re-align its processes to address changing circumstances or enhanced technology.

Responses: The Commission requests that stakeholder responses be submitted electronically at Gshean@cpuc.ca.gov. Internal PUC submissions are to GPS on Outlook. Hardcopy submissions may be mailed to Mr. Shean, Room 5119, 505 Van Ness Avenue, San Francisco, California 94102

The Commission requests that all potential participants provide on or before September 20, 1999, a one-page summary of their innovation suggestions so that they can be compiled into general topic areas for panel selection and circulated electronically to participants prior to the *Roundtable* to facilitate a valuable dialogue. An agenda, including a designation of topic panels, for the *Roundtable* will be returned to all respondents on October 5, 1999. Non-panel participants may address the *Roundtable* during a general comment period.

Following the initial *Roundtable*, staff teams will review the replies, conduct any needed public workshops to discuss comments on stakeholder suggestions, and prepare an implementation plan for Commission consideration.

Public Meetings - CPUC Draft Environmental Impact Report

First Meeting:
October 13, 1999
Starts at 6 pm

Hutchins Street Square
125 S. Hutchins Street
Lodi

Second Meeting:
October 14, 1999
Starts at 6 pm

Isleton Community Center
208 Jackson Boulevard
Isleton

The CPUC invites all interested agencies and the public to comment on the Draft Environmental Impact Report (EIR) for the Lodi Gas Storage Application. The Draft EIR can be viewed at the Sacramento, Lodi, Walnut Grove, Isleton, and Stockton Public Libraries. The deadline for submitting written comments on the Draft EIR is November 11, 1999.

The CPUC released for public review and comment a Draft EIR for the project. Lodi Gas Storage, LLC, applied to the CPUC for approval to construct and operate a natural gas storage field near Lodi, California, and an approximately 33-mile pipeline in California's San Joaquin and Sacramento Counties. The Draft EIR contains environmental analyses and recommended mitigation measures for impacts that may occur if the project is approved. The CPUC's review analyzed topics such as agricultural, air quality, biological, and water resource impacts for the proposed pipeline and alternative routes. Two alternative routes follow public rights-of-way and an existing PG&E pipeline, and another alternative is a composite of all of the pipeline routes.

If approved, the CPUC will grant Lodi Gas Storage, LLC, a Certificate of Public Convenience and Necessity. The proposed project includes a separation facility that removes the water from gas, 11 natural gas withdrawal/injection wells, three monitoring wells, a compressor and dehydration station, and a 33-mile pipeline. The natural gas pipeline would connect to PG&E's pipeline system. Lodi Gas Storage plans to use the storage and pipeline to respond to market demands and fluctuations in the price of natural gas.

For questions about the meetings, contact the CPUC information line at 415/989-1446, extension 85. Contact the Public Advisor's office (415-703-2074) for more information on the public participation hearing. For more information about the project and about the environmental review process, visit the web site at <http://www.cpuc.ca.gov/divisions/energy/environment/info/lodi-gas.htm>

	I93-04-002	Commission Order Instituting Investigation on the Commission's own motion into open access and network architecture development of dominant carrier networks.

Summary: On September 28, 1999, Tim McCallion, Regulatory and Governmental Affairs Vice President-West and Jenny Wong, Director-Regulatory Affairs, representing on behalf of GTE California Incorporated (GTE), met with Cmmr. Bilas and his advisor, Lester Wong, in San Francisco. A handout material was used and attached to the notice. GTE discussed its concerns relative to the issues raised by AT&T in their recent ex parte communication. GTE agreed with AT&T that there must be linkages between retail and wholesale rates. GTE stated with respect to Universal Service Fund, it is unreasonable to flow the subsidy through to any residential loops that AT&T may purchase. GTE also stated that with respect to the yellow page revenues, it is inappropriate to pass the subsidy to Unbundled Network Element price for residential loops that are used to serve the high cost areas. In addition, GTE noted the Commission is only required by state statute to consider but not necessarily impute the yellow page revenues when deciding on rates.

Summary: On September 29, 1999, Tim McCallion, Regulatory and Governmental Affairs Vice President-West, on behalf of GTE California Incorporated (GTE), met with Cmmr. Wood and his advisors, Linda Serizawa and Norman Low; Kim Malcolm, advisor to Cmmr. Hyatt; Fassil Fenikile, advisor to Cmmr. Neep; and Tim Sullivan, advisor to Cmmr. Duque, in San Francisco. In all four meetings, Jenny Wong, Director-Regulatory Affairs for GTE, participated. A handout material was used and attached to the notice. GTE discussed its concerns relative to the issues raised by AT&T in their recent ex parte communication. GTE agreed with AT&T that there must be linkages between retail and wholesale rates and that the Commission must adopt appropriate pricing policies to

eliminate any potential arbitrage.. GTE stated with respect to Universal Service Fund, it is unreasonable to flow the subsidy through to any residential loops that AT&T may purchase. GTE also stated that with respect to the yellow page revenues, it is inappropriate to pass the subsidy to Unbundled Network Element price for residential loops since GTE will continue to incur the same network costs for provision of either wholesale or retail services. In addition, GTE noted the Commission is only required by state statute to consider but not necessarily impute the yellow page revenues when deciding on rates. GTE also noted that the interpretation was clarified by the Commission's letter to the legislature during the 1999 session in response to a request from Senator Kelley.
