Stakeholder Roundtable on CPUC Innovations

<p>October 12, 1999 1 pm</p>	<p>California Public Utilities Commission 505 Van Ness Avenue Auditorium San Francisco (Corner of Van Ness Avenue and McAllister Street)</p>
----------------------------------	---

The *Stakeholder Roundtable* is a key element of our ongoing effort to assure that the way the California Public Utilities Commission (CPUC) conducts business is fully aligned with evolving publicly-valued needs and expectations.

Federal and state utility deregulation, technological change, as well as other current issues with widespread impact including area code proliferation, local and long distance telephone competition, competition in electricity services, and the need for consumer education and protection in competitive industries. All of these make it imperative for the CPUC to continue to strive to address stakeholder and public needs in innovative and efficient ways.

The goal of the *Stakeholder Roundtable* is to hear your suggestions for specific, feasible, needed innovations at the CPUC with respect to, for instance, changes in processes, rules, ways of conducting business, and ways we interact and communicate with the public and others. We also seek ideas from our employees on how we can make the Commission a more fulfilling place to work.

Recently, the Commission issued its *Draft 1999 – 2000 CPUC Business Plan* for stakeholder review and comment (available at www.cpuc.ca.gov). Within it are ongoing process reform efforts, planned innovations in expanded electronic access to the CPUC, and additional planned streamlined procedures to benefit stakeholders and the public directly. The *Draft Business Plan* incorporates a set of eight good government initiatives I proposed this spring and the Directors' responses to an innovation survey conducted by the Governor's Office of Innovation in Government. These documents are available on the Commission website in association with this notice.

The *Stakeholder Roundtable* is intended to go a step further by enabling us to hear firsthand from electric, telephone, and gas utilities and providers, rail, water, transportation, and other regulated entities. We also seek input from the public, consumer groups, industry labor representatives, legislators, the Administration, other government agencies, employee advocacy groups and employee union representatives about innovations or improvements you think we should make to better serve public and stakeholder interests, and how we should begin to implement them expeditiously. Contact Garret Shean at 415-703-1114; 916-327-1416, or Gshean@cpuc.ca.gov by September 13th if you wish to be a *Stakeholder Roundtable* participant.

Submission Instructions for Stakeholder Roundtable:

As a starting point, the Roundtable will consider:

Where are we now?
Where should we be?
How do we get there?

In asking, "Where should we be?" the Commissioners seek constructive ideas on making the agency effective, efficient, and future-oriented. Areas for discussion might include, for example:

New or evolving regulatory models for the Commission's regulatory, oversight, education, consumer protection, and enforcement roles;
Communication, both to and from the Commission, and access to Commission information, focusing on ease of use, availability of information or employees, and the timeliness and value of available information;
Electronic interfacing between the Commission and stakeholders, and e-business processes including the transferring information to and sharing of databases;
The development of expert systems or automated processes for repetitive business processes; and
Feedback mechanisms to continuously inform the Commission of a need to re-align its processes to address changing circumstances or enhanced technology.

Responses: The Commission requests that stakeholder responses be submitted electronically at Gshean@cpuc.ca.gov. Internal PUC submissions are to GPS on Outlook. Hardcopy submissions may be mailed to Mr. Shean, Room 5119, 505 Van Ness Avenue, San Francisco, California 94102

The Commission requests that all potential participants provide on or before September 20, 1999, a one-page summary of their innovation suggestions so that they can be compiled into general topic areas for panel selection and circulated electronically to participants prior to the *Roundtable* to facilitate a valuable dialogue. An agenda, including a designation of topic panels, for the *Roundtable* will be returned to all respondents on October 5, 1999. Non-panel participants may address the *Roundtable* during a general comment period.

Following the initial *Roundtable*, staff teams will review the replies, conduct any needed public workshops to discuss comments on stakeholder suggestions, and prepare an implementation plan for Commission consideration.

Public Meetings - CPUC Draft Environmental Impact Report

First Meeting: October 13, 1999 Starts at 6 pm	<i>Hutchins Street Square</i> <i>125 S. Hutchins Street</i> Lodi
Second Meeting: October 14, 1999 Starts at 6 pm	<i>Isleton Community Center</i> <i>208 Jackson Boulevard</i> Isleton

The CPUC invites all interested agencies and the public to comment on the Draft Environmental Impact Report (EIR) for the Lodi Gas Storage Application. The Draft EIR can be viewed at the Sacramento, Lodi, Walnut Grove, Isleton, and Stockton Public Libraries. The deadline for submitting written comments on the Draft EIR is November 11, 1999.

The CPUC released for public review and comment a Draft EIR for the project. Lodi Gas Storage, LLC, applied to the CPUC for approval to construct and operate a natural gas storage field near Lodi, California, and an approximately 33-mile pipeline in California's San Joaquin and Sacramento Counties. The Draft EIR contains environmental analyses and recommended mitigation measures for impacts that may occur if the project is approved. The CPUC's review analyzed topics such as agricultural, air quality, biological, and water resource impacts for the proposed pipeline and alternative routes. Two alternative routes follow public rights-of-way and an existing PG&E pipeline, and another alternative is a composite of all of the pipeline routes.

If approved, the CPUC will grant Lodi Gas Storage, LLC, a Certificate of Public Convenience and Necessity. The proposed project includes a separation facility that removes the water from gas, 11 natural gas withdrawal/injection wells, three monitoring wells, a compressor and dehydration station, and a 33-mile pipeline. The natural gas pipeline would connect to PG&E's pipeline system. Lodi Gas Storage plans to use the storage and pipeline to respond to market demands and fluctuations in the price of natural gas.

For questions about the meetings, contact the CPUC information line at 415/989-1446, extension 85. Contact the Public Advisor's office (415-703-2074) for more information on the public participation hearing. For more information about the project and about the environmental review process, visit the web site at

The workshop is a vehicle for discussion between the Commission's Telecommunications Division staff and telecommunications industry representatives concerning the parameters of the central office code utilization study to be conducted for the 310 Numbering Plan

Area (NPA) as mandated by Decision (D.) 99-09-067. A preliminary draft of the parameters to be addressed in the study is attached to the ALJ Ruling filed as part of the Local Competition Docket, R.95-04-043/ I.95-04-044 and issued on October 4, 1999. The input from the workshop will be considered in finalizing the parameters of the utilization study, however, the Telecommunications Division will issue no workshop report. Since Hearing Room E has seating capacity for 50 people and the Commission anticipates a good turn-out, we request that companies limit the number of staff they send to the workshop. 	A99-01-019	San Diego Gas & Electric Company, for authority to implement post rate freeze ratemaking mechanism.
	A99-01-034	Southern California Edison Company, to propose a method to determine and implement the end of the rate freeze; and propose ratemaking mechanisms which should be in place after the end of the rate freeze period.

Summary: On September 29, 1999, An all-party meeting was held in the Commission Office in San Francisco. In attendance were Cmmr. Wood and his advisor, Kevin Coughlan; Dan Richard, Christopher Warner and Jana Corey, on behalf of Pacific Gas and Electric Company; Keith Melville, of Sempra Energy; and Lynn Van Wagenen, for San Diego Gas & Electric (SDG&E); Scott Cauchois of the Office of Ratepayer Advocates; Edward O’Neill of the California Power Exchange (CalPX); Jeanne Bennett of Alliance Retail Markets; and James Weil, a consumer advocacy group, for AGLET; Reed Schmidt of California Lighting Association; Marc Joseph on behalf of Coalition of Utility Employees; Jim Lehrer of Southern California Edison; Kerry Hattevik of CPUC Energy Division; and Derk Pippin of California Energy Markets. O’Neill stated that the CalPX disagrees with SDG&E’s proposed modifications to the proposed decision in Phase I for the reason that issues associated with the mandatory buy/sell obligation are being considered in Phase II and should be prejudged by the Commission in its decision in Phase I. Among the issues to be briefed in Phase II is the effect of the recent decision of the FERC addressing SDG&E’s mandatory “sell” obligation.

- 10/1/99 A99-02-029 San Diego Gas & Electric Company, informing the Commission of the probable timing of the end of its electric rate freeze; for authorization to change electric rates through implementation of interim ratemaking mechanisms concurrent with termination of the electric rate freeze, and for authorization to change electric rates by adding new, and revising or terminating existing, rate and revenue mechanisms and rate designs.
- A99-01-016 Pacific Gas and Electric Company, for authority to establish post-transition period electric ratemaking mechanisms.
- A99-01-019 San Diego Gas & Electric Company, for authority to implement post rate freeze ratemaking mechanism.
- A99-01-034 Southern California Edison Company, to propose a method to determine and implement the end of the rate freeze; and propose ratemaking mechanisms which should be in place after the end of the rate freeze period.

Summary: On September 29, 1999, , an all-party meeting was held in the Commission Office in San Francisco. In attendance were Cmmr. Wood and his advisor, Kevin Coughlan; Keith Melville and Lynn Van Wagenen, Sempra for San Diego & Electric Company (SDG&E); Dan Richards, Chris Warner and Jana Corey, for Pacific Gas and Electric Company; James Lehrer, for Southern California Edison (SCE); Scott Cauchois, for the Office of Ratepayer Advocates; Jeanne Bennett, Alliance for Retail Markets (ARM); Reed Schmidt, for California Street Light Association; Edward O’Neill of the California Power Exchange (PX); and James Weil, a consumer advocacy group, for AGLET. SDG&E noted that the proposed decision (PD) treated all three utilities

identically by requiring all to operate under “mandatory buy/sell” with PX. SDG&E also noted that the PD was inconsistent with Federal Energy Regulatory Commission’s (FERCs) decision in that the FERC has determined that SDG&E was required to sell into the PX only its on-system generation and on-system Qualifying Facility capacity. Finally, SDG&E noted that the PD applied portions of an SCE only settlement in Phase I to SDG&E as well. SDG&E also noted that if there were any such surplus, it would be accumulated in the Transition Cost Balancing Account, and would normally accrue interest at the three-month commercial rate. In response to comments by ARM and the PX, SDG&E agreed that the mandatory buy/sell is being litigated in Phase II, and that the Phase I of the PD should not change the status quo. However, SDG&E status quo was determined by D.99-05-051.

A99-01-016

Pacific Gas and Electric Company, for authority to establish post-transition period electric ratemaking mechanisms.

Summary: On September 28, 1999, Jana Corey, Director, Regulatory Relations, for Pacific Gas and Electric Company (PG&E), met with Cmmr. Bilas, in San Francisco. Also present at this meeting were Dorothy Duda, advisor to Cmmr. Bilas; Ann Watson, Chief of Staff; Dan Richard, Senior Vice President, Public Affairs and Dede Hapner, Vice President, Regulatory Relations, for PG&E. Written materials was provided and attached to the notice. Richard stated that the Diablo Canyon Incremental Cost Incentive Pricing D.97-05-088 expressly adopts a price schedule for each year beginning in 1997 and ending in 2001. Further, Richard stated that the Commission intended to provide nuclear plants with the opportunity for a certain transition to competition to minimize any resulting disruption to the power markets that the transition might cause. Finally, Richard stated that the PD states that Diablo Canyon will go to market when the rate freeze ends, a point in time which may not be known until many months after rate freeze has occurred. Richard stated that the reference in the PD to the potential use of an “interim” valuation should be deleted. Richard further stated that the PD should be modified to limit the carryover constraint to transition cost recovery, leaving non-transition cost recovery subject to existing ratemaking.
