Finkelstein stated that TURN supports the adoption of the proposed decision (PD). Finkelstein urged the Commission to recognize that the PD represents the upper range of total revenue requirement amounts that could be deemed reasonable based on the record developed in the proceeding. Finkelstein also addressed the alternate decision of Cmmr. Bilas. Finkelstein noted that TURN continued to believe that PG&E ratepayers should not fund the tree removal and replacement program.

Gileau indicated that he supports the proposed decision (PD) of ALJ Wetzell. Gileau also indicated that the combined recommendations of various parties would support a rate decrease, rather than a \$243 million increase. Gileau noted that PG&E has sought increases in the past that are from 2 to 9 times greater than what was found reasonable. Gileau noted that the PD grants all of PG&E estimates for O&M (safety and reliability) other than in vegetation management. Gileau also noted that the PD increases this item by 76% whereas PG&E asks for 330%. Finally, Gileau stated that this is a period of low inflation, low customer growth and one where the Legislature and Commission are attempting to lower rates.
