1996 general rate case.  
I95-02-015 Commission Order Instituting Investigation into rates, charges, service and practices of PG&E.

**Summary:** On December 15, 1999, Marc Joseph, Attorney for the Coalition of California Utility Employees (CUE), met with Bill Julian, advisor to Cmmr. Wood, in San Francisco. Joseph stated that Pacific Gas and Electric Company (PG&E) should be fully funded for vegetation management, O&M for reliability and safety, and distribution infrastructure investment for reliability and safety. Joseph also stated that with properly funded Performance Based Ratemaking reliability measures, customer interests and employee interests were aligned. Joseph stated that an increase in revenue of \$350 million over 1998 revenue should mean that PG&E would not be forced to lay off any employees.

12/21/99 A97-12-020 Pacific Gas and Electric Company, for authority to increase rates and charges for electric and gas service effective 1/1/99.

**Summary: LATE FILED:** On December 15, 1999, Robert Finkelstein, Staff Attorney, for The Utility Reform Network (TURN), met with Bill Julian, advisor to Cmmr. Wood, in San Francisco. TURN provided with the portion of TURN's prepared testimony addressing customer service (Exhibit 366) and the exhibit list. Finkelstein stated that since these materials are already part of the record in the proceeding, TURN has not attached to the notice. Finkelstein stated that TURN supported the Proposed Decision (PD) of ALJ Wetzell. Finkelstein noted that from the beginning Pacific Gas and Electric Company (PG&E) had treated this proceeding as the rate freeze general rate case (GRC), rather than the reliability GRC. Finkelstein discussed the approach the Commission should take if it considers issuing an alternate decision that increases the authorized revenue requirement for any of the accounts covered in the PD. Finally, Finkelstein suggested that any balancing account the Commission adopts to mitigate PG&E's incentive to return to its underspending practices of the past should be very limited in application to avoid any undue impact on future ratemaking, especially any future Performance Based Ratemaking mechanism.
