Summary: On January 26, 2000 @ 10:15 a.m., Elizabeth M. Matthias, Senior Attorney for Southern California Edison Company (“Edison”) returned the telephone call of ALJ Michelle Cooke and stated that Edison’s Supplemental Motion for Protective Order, filed 01/24/2000 seeks to protect from public disclosure certain matters contained in footnote 1 of Exhibit SCE-4.

On January 28, 2000 @ 11:15 a.m., Ms. Matthias telephoned ALJ Cooke regarding the ruling on Edison’s Supplemental Motion for Protective Order. She indicated that Edison could not redact and serve documents as contemplated in the ruling; that complying with the ruling would require public disclosure of highly sensitive, confidential, information, and therefore, Edison will take appropriate steps to obtain relief therefrom.

Ms. Matthias also requested clarification of whether the ruling protected from disclosure the second sentence of the last paragraph on page 10 of the Application

2/2/00	I98-03-013	Order Instituting Investigation on the Commission's own motion, into whether existing standards and policies of the Commission regarding drinking water quality adequately protect the public health and safety with respect to contaminants such as Volatile Organic Compounds, Perchlorate, MTBEs, and whether those standards and policies are being uniformly complied with by Commission regulated utilities; compliance filing by utilities is due in 120 days from the date of the order
--------	------------	---

Summary: On January 31, 2000 from 3:30 to 4:30 p.m. in Room 5100 at the CPUC in San Francisco, a multi-party meeting was held at the request of Evelyn Elsesser, Esq., directed at Commissioner Duque’s office. The staff of Commissioner Duque invited representatives of all the various interests involved herein to said meeting. Those in attendance were Commissioner Henry M. Duque, his Advisor, Tim Sullivan, said Commissioner’s Legal Advisor Lynn McGhee, Commission Legal Advisor Izetta Jackson, Water Division Ratepayer Representation Branch Representative Mohsen Kazemzadeh, Water Division Ratepayer Representation Branch Staff Counsel Peter Fairchild and attorneys Evelyn Elsesser, Lawrence Hobel, Jan Jensen, Gary Ottson, Tim Ryan, William Bagley and Mark Fogelman. Mr. Fogelman is the Attorney for California-American Water Company, the filer herein.

The substance of Mr. Fogelman’s ex parte communication was as follows: that the Commission should consider ruling that compliance by Commission-regulated water utilities with all applicable water quality standards satisfies the obligations of those utilities under the law and that the utilities should not be placed in the position of having to predict

and comply with unknown future standards. Such a ruling would be proper not only under the Commission's ongoing exercise of its authority to regulate water quality, but also under its ongoing exercise of its authority to regulate rates and the financial health of water utilities.

Mr. Fogelman supported Mr. Ryan's statement that the Commission should consider ruling that the regulated utilities and their ratepayers should not have to bear costs related to contaminants put into the water by other parties.

Summary: On January 21, 2000 @ 2:30 p.m., at the CPUC in San Francisco, an equal time meeting was held between Southern California Generation Coalition ("SCGC") who was represented by Norman Pedersen, Alex Goldberg (Williams Energy Services) and Robert Pettinato (Los Angeles Department of Water and Power) and Commissioner Neeper and his Advisor, David Gamson. Mr. Pedersen initiated the communication.

The SCGC representatives urged that the Proposed Decision ("PD") mailed on January 11, 2000 herein be revised so as to eliminate the provision for a Sempra-wide rate that would apply to Electric Generation ("EG") customers on the Southern California Gas Company ("SoCalGas") and San Diego Gas & Electric Company ("SDG&E") systems. They contended that the Sempra-wide rate proposal deviated from the principle that rates should be cost-based. Furthermore, the proposal would be unfair in that costs that would be shifted from SDG&E EG customers would be assigned to SoCalGas EG customers rather than the supposed beneficiaries of the cost shift.

They also urged that the Commission adopt SCGC's proposal to segment the rates applicable to the EG class and it was further urged that the Commission decide on the merits the issue of whether line 6900 expansion costs should be included in the SDG&E resource plan rather than the SoCalGas resource plan.

Summary: LATE FILED. On January 21, 2000 @ 4:30 p.m., at the CPUC in San Francisco, an equal time meeting was held between Southern California Generation Coalition ("SCGC") who was represented by Norman Pedersen, Alex Goldberg (Williams Energy Services) and Robert Pettinato (Los Angeles Department of Water and Power) and

2/2/00 A99-03-054 Alisal Water Corporation, dba Alco Water Service, for a determination pursuant to Section 851 of the Public Utilities Code if utility funds obtained in settlement of a lawsuit lawfully may be applied to satisfy a third party judgment lien, for review of judgment, and related matters.

Summary: On January 27, 2000, @ 1:45 p.m., at the CPUC in San Francisco, Marc P. Fairman, attorney for Alisal Water Corporation, (“Alisal”) initiated this oral ex parte communication with Timothy J. Sullivan, Advisor to Commissioner Henry N. Duque.

Initially, Mr. Fairman described the background of this matter. He then described the circumstances under which the San Francisco Superior Court ordered Alisal to file the Application. Mr. Fairman believes that the Superior Court declined to enforce the judgment based on Alisal’s showings that, under the Public Utilities Code, it could not be enforced without prior review and authorization from the Commission. Specifically, enforcement of the judgment could not be reconciled with existing Supreme Court authority under which the Superior Courts lack the jurisdiction to adjudicate claims that are foreclosed by Commission rules or implicate its policies.

He expressed the view that the Commission has ample authority to review and decide the Application and that, in doing so, need not relitigate the issues adjudicated in the Monterey Superior Court. Rather, the Commission need only review the nature and background of the claims Silverwood raised in the Superior Court action to determine whether those claims abrogated Commission rules or policies. The Commission’s findings of facts and conclusions of law would be limited to a finding that it will not authorize enforcement of the judgment because it is in conflict with its own rules and policies. A ruling to that effect would lay the predicate for a petition for review seeking a determination from the Supreme

These Pacific Bell representatives answered questions and explained the work effort involved in preparing the 911 network for an area code split, which included network design for the 911 network which is done by an outside contractor, along with trunking work. It was further explained that an expedited implementation schedule increases the chance that 911 calls may not properly route.

A99-09-031 Citizens Telecommunications Company of Golden State, Inc., (CTC-Golden State) and GTE West Coast Incorporated, for GTE West Coast to sell and transfer assets to CTC-Golden State.

Summary: On February 3, 2000, @ 11:00 a.m., a telephone conference call was held between ALJ Timothy Kenney and the following persons, to wit: Elaine M. Duncan, Counsel for GTE California Incorporated and GTE West Coast Incorporated (collectively "GTE"); Kurt Rasmussen, Manager, Regulatory Affairs, GTE Service Corporation; Barbara Snider, counsel for Citizens Telecommunications Company of California Incorporated and Citizens Telecommunications Company of Golden State (collectively "CITIZENS"); Charles Born, Manager, State Government Affairs; and from ORA, Sindy Yun, counsel, and Brian Chang, Program and Project Supervisor, Monopoly and Regulatory Branch.

Ms. Duncan asked that the ALJ eliminate the requirement to include a comparison of GTE and Citizens rates in the notice to customers affected by the sale. Ms. Snider concurred stating that Citizens would commit to no rate change for at least 18 months and that customers would be protected because notice of impending rate changes would be required at the time rate changes were proposed.

Mr. Rasmussen stated that GTE would be willing to do a single direct mailing to affected customers rather than a bill message in order to shorten the period of time required for customer notification and that GTE would work with the Commission to develop an approved form of notice.

In response to Ms. Yun's inquiry whether one notice would be given of both transactions, Ms. Duncan replied that two very similar notices would be provided to the customers of the two GTE entities being sold to the two Citizens entities and that these notices would state that rates would not change.

Summary: LATE. FILED. On January 31, 2000, @ 3:30 p.m., at the CPUC in San Francisco, the following persons met with Commissioner Duque and his Advisors, Tim Sullivan and Lynne McGhee, and Commission Legal and Advisory Staff, Izetta Jackson, Peter Fairchild and Mohsen Kazemzadeh, to wit: Evelyn Elsesser, counsel to Aero-Jet General Corporation, Huffy Corporation and Wynn Oil Corporation, (collectively, "Responding Parties") Jan Jensen, counsel for Huffy, Lawrence Hobel, counsel to Aero-Jet, William Bagley, California Water Association, Tim Ryan, San Gabriel Valley Water Company, and Mark Fogelman, California-American Water Company.

Responding Parties expressed , first, that the record supports a finding that the Maximum Contaminant Levels ("MCLs") set by the Department of Health Services ("DHS") are designed with a margin of safety sufficient to ensure that water served at or below these levels is not dangerous or harmful to the public. The second point was that a summary of the record generally supports the conclusion that the utilities have complied with DHS standards.

Responding Parties continue to encourage the Commission to extend its investigation further to meet its obligation under General Order 103 and other related statutes by engaging in further scientific study and review of the health impact of excursions of contaminants above MCLs and other scientific matters that would aid in assuring that the water served by the utilities is not dangerous or harmful to health.
