**Draft Resolution Extending Temporary Authority Of Passenger Stage Corporations To Adjust Fares Available For Public Review And Comment**

A draft resolution (TL-18923) of the Rail Safety and Carriers Division that extends the temporary authority given to passenger stage corporations (PSCs) by Resolution TL-18904 to adjust their fares without specific Commission authorization will be on the March 16, 2000 Commission meeting agenda. The Commission may vote on this resolution at that time, or it may postpone a vote until later. When the Commission votes on Resolution TL-18923, it may adopt all or part of it as written, amend or modify it, or set it aside and prepare a different resolution.

Resolution TL-18904 authorized PSCs for a 180-day period to raise their fares as much as 15% above current fares or, for those carriers who had already been granted a zone of rate freedom (ZORF), 15% above the upper limit of the ZORF. The resolution was issued in response to the significant increases in fuel prices experienced by PSCs. Resolution TL-18923 extends this authorization for an additional 180 days.

The draft resolution is available for review and comment. A copy may be obtained from, and any subsequent written comments should be submitted to:

**Summary:** On February 8, 2000 @ 10:00 a.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Duque, his Advisor, Lynne McGhee, and Trina Horner, Acting Advisor to Commissioner Duque herein, at an all-party meeting, to wit: Joseph Karp, Esq., for California Cogeneration Council and numerous other parties not identified herein.

Mr. Karp requested the Commission reject the segmentation methodology proposed by the joint recommendation filed in the San Diego Gas & Electric Company (“SDG&E”) Biennial Cost Allocation proceeding in that it violates Public Utilities Code Section 454.4.

In regards to the proposed adoption of a Sempra-wide electricity generator class, Mr. Karp requested that the costs associated with implementing such a class be allocated either (i) to all SDG&E customers or (ii) to all SoCalGas and SDG&E customers (all Sempra

customers) rather than allocating such costs only to the electricity generating customers of SoCalGas.

Brian Cragg expressed the support of EGA for the Proposed Decision of ALJ Barnett, particularly on the issue of the single gas transportation rate for electric generators. Mr. Blue noted the benefits to ratepayers and to competition offered by the single EG rate. On behalf of PG&E Generating, Mr. Cragg described the importance of gas transportation charges in its decision-making process for its proposed generating plant at Otay Mesa and PG&E Generating supports the Proposed Decision's adoption of the single EG rate. Mr. Cragg, on behalf of Monsanto Company, expressed its recommendation that the Commission should direct SDG&E to develop an effective real-time pricing tariff and not to eliminate Schedule XGTS, as the Proposed Decision suggests, until a new real-time pricing tariff is available to noncore customers.

**Summary:** On February 8, 2000 @ 10:00 a.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Henry Duque and his Advisors, Trina Horner and Lynne McGhee, at an all-party meeting, to discuss the Proposed Decision (“PD”) of ALJ Barnett, to wit: R. Thomas Beach of the consulting firm, Crossborder Energy.

Mr. Beach indicated that Watson Cogeneration Company (“Watson”) supports the PD’s findings that the SoCalGas RLS tariff is driving electric generation load out of SoCalGas’ service territory. To stop the resulting harm to ratepayers, the RLS tariff must be eliminated or reformed now, not in three years, as recommended in the PD. A cost-based peaking rate, such as that proposed by Watson in the BCAP, could be used to replace the current RLS tariff. The Commission has designed similar cost-based stand-by rates for electric utilities for the past two decades.
