Summary: On February 8, 2000 @ 2:00 p.m., at the CPUC in San Francisco, the following person(s) met with Commission President Richard Bilas and his Advisors, Julie Halligan, Dorothy Duda and Ann Watson, to discuss the Proposed Decision (“PD”) of ALJ Minkin, issued January 6, 2000, to wit: Bruce C. Foster and Michael R. Hoover, representatives of Southern California Edison Company (“SCE”); and Robert Kinoshian of ORA.

Messrs. Foster and Hoover stated that the PD surfaces a new proposal for interim market valuation of Hydro facilities, which is inappropriate and should be stricken. In addition, the PD adopts several seriously flawed recommendations by the Energy Division, which has crossed over from providing advice and support to being an advocate. They suggested the PD be changed or an Alternate PD be issued to reject these recommendations in several areas.

A98-07-005 San Diego Gas and Electric Company and Southern California Gas Company, for approval of a gas transmission service tariff.

Summary: On February 8, 2000 @ 10:00 a.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Henry Duque and his Advisors, Lynne McGhee and Trina Horner, at an all-party meeting, to wit: Thomas W. Fillmore, Project Manager, Energy Supply and Marketing Department, Southern California Edison Company (“SCE”); Kim Freeman, Jeff Hartman and Rodney Winters on behalf of Sempra; Brian Cragg for Electric Generating Alliance and Monsanto; Joe Karp for California Cogeneration Council; Pat Power for the City of Long Beach; Frank DeRosa for PG&E Generating; Tom Beach for Watson Cogeneration; Lindsey How-Downing for Calpine Corp.; Mike Day for Kern River and Questar Pipeline; Greg Klatt for Southern California Generation Coalition; Marcel Hawiger for TURN and UCAN; Ed Poole for WMA; and Mark Pocta for ORA.

Mr. Fillmore urged the Commission (1) to reject the adoption of a Sempra-wide electric generation rate; (2) to adopt SoCalGas’ roll-in proposal in conjunction with its proposal to terminate the Wheeler Ridge contracts; and (3) to adopt a four-year rather than a one-year amortization period for the FERC El Paso and Transwestern surcharges.

2/14/00 A99-12-024 Southern California Edison Company, for authority to value its hydroelectric generation assets and for authority to retain its hydroelectric generation assets in a regulated utility corporation.

Summary: On February 9, 2000 @ 3:30 p.m., at the CPUC in San Francisco, the following person(s) met with Advisor to Commissioner Wood, Bill Julian, who initiated the meeting, to wit: James Scarff, Esq., Office of Ratepayer Advocates (“ORA”).

ORA’s interest in the environmental aspects of Edison’s application was to insure that the benefits of any environmental program that went beyond CEQA requirements were commensurate with the costs being proposed. The problem is the lack of detailed information about specific environmental actions that could be taken and their impact in achieving environmental goals. There is substantial value in gathering such information in advance of FERC relicensing proceedings for hydro facilities and ORA welcomes new ideas that could lead to a consensus approach among affected stakeholders. Such ideas could be presented to FERC for approval independent of a FERC relicensing proceeding. Pursuing such a strategy with Edison and affected agencies and stakeholders is the best place to test the feasibility of such an approach.

2/14/00 I87-11-033 Commission Investigation Into Alternative Regulatory Frameworks For Local Telecommunications Exchange Carriers.

Summary: LATE FILED: On February 1, 2000 @ 2:00 p.m., at the CPUC in San Francisco, the following person(s) met with Lester Wong, Advisor to Commissioner Bilas, to wit: Janice Grau, Esq., of the Office of Ratepayer Advocates (“ORA”) and Lee-Whei Tan, Project Coordinator, ORA.

ORA advised it opposed the Revised Draft Decision (“RDD”) and observed that it conflicted with Commissioner Bilas’ Ruling on the bias issue in the PG&E General Rate Case. Adoption of the RDD could handicap ORA in future investigations and discredit statistical and other analytical proposals presented by ORA.

2/15/00 A98-09-003 Pacific Gas and Electric Company, for review and recovery of the costs and recovery of the costs and revenues in the transition cost balancing account,

Summary: LATE FILED: On February 9, 2000 @ 2:00 p.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Duque and his Advisor, Laura Manina, at an all-party meeting convened by said Commissioner, to wit: Pacific Gas and Electric Company (“PG&E”) representatives, Leslie Everett, Vice-President and Project Manager; William Manheim, Esq.; Les Guliasi, Manager, Regulatory Relations; Kristel Frank, Director, Regulatory Relations; Joseph Malkin, Esq.; Sabrina Miller, Senior Representative, Regulatory Relations; the following representatives from the Office of Ratepayer Advocates (“ORA”): Jim Scarff, Esq., Robert Kinoshian, Analyst, and Pamela Thompson, Financial Examiner; Michael Day, Esq., for Enron; Marc Joseph, Esq., for Coalition of California Utility Employees (“CCUE”); Tom Whelan, Project Manager, SDG&E; Lisa Hubbard, Director, Regulatory Relations, and Keith Melville, Esq., of Sempra Energy; Peter Hanschen, Esq., for Agricultural Energy Consumers Association; James Weil, Esq., for Aglet Consumer Alliance; Kayode Kajopaiye, Financial Examiner, Energy Division; Bruce Foster, Vice-President, Regulatory Operations, and Mike Hoover, Director, Regulatory Affairs, SCE; and Peter Sly, Esq.

Mr. Manheim advised that ORA, PG&E and CCUE negotiated a settlement that the Proposed Decision (“PD”) would approve in part the package of employee transition cost benefits that the unions negotiated with PG&E. Next, he stated that another issue in the PD was the treatment of certain QF buy-outs reviewed by the Commission in the 1994 ECAC proceeding, A.95-04-002. Mr. Manheim stated that the PD would disallow \$30,000 in Hazardous Substance Mechanism costs based on the incorrect assumption, which should be rectified, that the costs are forecasts when in fact they are incurred costs and properly recoverable. Finally, he stated the PD finds that PG&E and other utilities

did not amortize their generation assets appropriately and orders a retroactive recalculation. The PD is in error on this point.

Summary: On February 10, 2000 @ 2:30 p.m., at the CPUC in San Francisco, the following person(s) met with Kim Malcolm, Advisor to Commissioner Lynch, at a meeting initiated by Sempra Energy, to wit: Kimberly Freeman, State Regulatory Relations Administrator, Sempra Energy; Jeff Hartman, Director of Energy Markets, Southern California Gas Company (“SoCalGas”); and Michael Schneider, Director of Business Analysis, San Diego Gas & Electric Company (“SDG&E”).

Ms. Freeman urged the Commission to adopt the Proposed Decision (“PD”) of ALJ Barnett as modified by Comments and Reply Comments filed by both SoCalGas and SDG&E. She also commented that the three-year transition period in the RLS tariff discussion of the PD is a compromise position that SoCalGas is willing to accept and the Commission should allow it that period to file an application for a new service. Mr. Hartman advised that the RLS tariff has not caused developers to site electric generation facilities outside the SoCalGas’ service territory. He also stated that under no circumstances is SoCalGas allowed to charge above market rates for peaking services. Opponents who wish to abolish immediately the RLS tariff do so only to lure customers away from the utility. Ms. Freeman requested the Commission to adopt a segmented Electric Generator (“EG”) class rate design for SDG&E. Mr. Schneider clarified that SDG&E would support the two-tiered segmented EG rate structure proposed by SoCalGas, recognizing that other parties such as California Cogeneration Council likewise support the proposal. Finally, he rejected the claim that segmentation of the EG rate is inconsistent with Public Utilities Code Section 454.4 in that said Section is no longer applicable given the utilities sale of power generation facilities.

and Lindsey How-Downing, Esq., for Calpine Corporation; Michael Day, Esq., for Kern River Gas Transmission Company and Questar Southern Trails Pipeline Company; Alex Goldberg for Southern California Generation Coalition – Williams Energy Services; Marcel Hawiger for TURN and UCAN; Gregory Blue for Dynergy; Edward Poole, Esq., for Western Manufactured Housing Group; Mark Pocta for ORA; Sandy Dickinson for PG&E; Patrick Power for the City of Long Beach; Alan Comnes for MRW; Michael Schneider, Director of Business Analysis, San Diego Gas & Electric Company (“SDG&E”); Kimberly Freeman, State Regulatory Relations Administrator, Steve Rahon and Rodney Winter, Regulatory Case Managers, of Sempra Energy; and Jeff Hartman, Director of Energy Services, Southern California Gas Company (“SoCalGas”).

Ms. Freeman urged the Commission to adopt the Proposed Decision of ALJ Barnett as modified by Comments and Reply Comments filed by both SoCalGas and SDG&E. The Commission should adopt a segmented Electric Generator (“EG”) class rate design for SDG&E in that the settling parties in the Joint Recommendations (“JR”) agreed to the same and parties other than SDG&E have filed comments in support thereof. She commented that the three-year transition period in the RLS tariff discussion of the PD was a compromise position that SoCalGas is willing to accept. She urged the Commission to allow SoCalGas the three-year transition period to file an application for a new service. Mr. Hartman stated that the RLS tariff has not caused developers to site electric generation facilities outside of SoCalGas’ service territory. He stated that under no circumstances was SoCalGas allowed to charge above market rates for peaking services.
