Summary: On February 9, 2000 @ 11:00 a.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Carl Wood and his Advisor, Bill Julian, to discuss said Commissioner's Alternate Decision in the PG&E General Rate Case, to wit: Scott Cauchois, Patrick Gileau and Jonathan Bromson of the Office of Ratepayer Advocates ("ORA").

Mr. Gileau noted on PG&E's contention that the significant rate increase it seeks is driven by a demand for greater reliability that while customers value a highly reliable electrical system, they are not willing to pay more for increased reliability. He also addressed the general inadequacy of PG&E's showing on tree trimming as well as PG&E's claim that the adoption of ALJ Wetzell's Proposed Decision would lead to massive layoffs. He finally addressed three problems associated with the Alternate Proposed Decision. Mr. Bromson addressed the inadequacies of PG&E's showing on electric capital additions. The following written materials were used during the meeting: (1) a portion of the Policy section of ORA's Opening Brief; (2) a January 3, 2000 Notice of Ex Parte Communication summarizing a meeting between Mr. Gileau, Mr. Bromson and Bill Julian; and (3) ORA's Comments on Commissioner Wood's Alternate Proposed Decision, copies of all of which are attached.

Summary: LATE FILED: On February 8, 2000 @ 10:00 a.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Duque and his Advisors, Lynne McGhee and Trina Horner, at an all-party meeting convened by said Commissioner, to wit: Gregory Klatt for Southern California Generation Coalition ("SCGC"); Lisa Hubbard and Kim Freeman, Sempra Energy; Rodney Winter, San Diego Gas & Electric Company; Steven Rahon and Jeffrey Hartman, Southern California Gas Company; Michael Day, Kern River Gas Transmission Company and Questar Southern Trails Pipeline Company; Edward Poole and Steve Moss, Western Manufactured Housing Communities Association; Craig Chancellor and Lindsey How-Downing, Calpine Corporation; Joseph Karp, California Cogeneration Council; Joyce Alfton, CPUC Energy Division;

Mr. Klatt urged that the Proposed Decision (“PD”) mailed on January 11, 2000 be revised to eliminate the provision for a Sempra-wide rate that would apply to Electric Generation (“EG”) customers on the Southern California Gas Company and San Diego Gas & Electric Company systems in that the alleged benefits are speculative at best. Rates should be cost-based.

Summary: LATE FILED. On February 8, 2000 @ 10:00 a.m., at the CPUC in San Francisco, at an all-party meeting, the following person(s) met with Commissioner Henry Duque and his Advisors, Lynne McGhee and Trina Horner, to discuss the Proposed Decision (“PD”) herein, to wit: Brian Cragg, Esq., for Electric Generating Alliance and Monsanto Company; Joseph Karp, Esq., for California Cogeneration Council; Frank DeRosa of PG&E Generating; Tom Beach of Watson Cogeneration Company; Thomas Fillmore of Southern California Edison Company; Craig Chancellor and Lindsey How-Downing, Esq., for Calpine Corporation; Gregory Klatt, Esq., for Southern California Generation Coalition; Michael Day, Esq., for Kern River Gas Transmission Company and Questar Southern Trails Pipeline Company; Marcel Hawiger for TURN and UCAN; Edward Poole, Esq., for Western Manufactured Housing Group; Mark Pocta for ORA; Patrick Power for the City of Long Beach; and Kim Freeman, Jeff Hartman and Rodney Winters for Sempra Energy. Other persons may have been present but did not speak.

Ms. How-Downing urged the Commission to reject the provision in the PD which would adopt a Sempra-wide rate for electric generators. Adopting the same would violate the Commission’s long-standing principle of setting rates based on costs to serve and would discourage development of new generation by providing inappropriate gas subsidies. Other, more appropriate, methods exist to encourage new generation in the SDG&E service territory.

Summary: On February 10, 2000 @ 11:00 a.m., at the CPUC in San Francisco, the following person(s) met with Trina Horner, Advisor to Commissioner Duque at a meeting initiated by Sempra Energy, to wit: Kimberly Freeman, State Regulatory Relations Administrator and Rodney Winter, Regulatory Case Manager, both of Sempra Energy; and Michael Schneider, Director of Business Analysis, San Diego Gas & Electric Company ("SDG&E").

Ms. Freeman commented that SDG&E is pleased that the Proposed Decision ("PD") of ALJ Barnett adopts the SDG&E Joint Recommendation ("JR"). She urged the Commission to adopt a segmented EG rate design. Mr. Winter stated that as written, the PD's single volumetric EG rate is incompatible with the concept of a segmented EG rate structure established in the SDG&E JR. Mr. Schneider stated that SDG&E would support the two-tiered segmented EG rate structure proposed by SoCalGas as would California Cogeneration Council. A segmented EG rate would be consistent with the two-tiered declining block rate that EG customers currently pay on the SDG&E system. Finally, Mr. Schneider rejected the claim that segmentation of the EG rate is inconsistent with Public Utilities Code Section 454.4.

Summary: On February 10, 2000 @ 10:30 a.m., at the CPUC in San Francisco, the following person(s) met with David Gamson, Advisor to Commissioner Neep, at a meeting initiated by Sempra Energy, to wit: Kimberly Freeman, State Regulatory Relations Administrator and Steve Rahon, Regulatory Case Manager, both of Sempra Energy; Jeff Hartman, Director of Energy Markets, Southern California Gas Company ("SoCalGas").

Mr. Hartman commented on the status of Assembly Bill 1002 and opined that said bill does not prevent the Commission from retaining the RLS tariff. He further stated that the RLS tariff is in place to close a regulatory gap that would unfairly reward noncore customers for partially bypassing SoCalGas' system. If the current RLS tariff is to be eliminated, three years is the minimum time necessary to develop a new peaking service program. In response to a question about the BCAP record on which stakeholders would benefit and which would be harmed under the Sempra-Wide EG rate, Mr. Hartman provided qualitative evidence about the relative position of electric generators served by the SDG&E system compared to those served by the SoCalGas system.

Summary: On February 10, 2000 @ 8:30 a.m., at the CPUC in San Francisco, the

following person(s) met with Commission President Richard Bilas and his Advisor, Dorothy Duda, at a meeting initiated by Sempra Energy, to wit: Kimberly Freeman, State Regulatory Relations Administrator and Rodney Winter, Regulatory Case Manager, both of Sempra Energy; and Jeff Hartman, Director of Energy Markets, Southern California Gas Company (“SoCalGas”).

Ms. Freeman urged the Commission to adopt the Proposed Decision (“PD”) of ALJ Barnett as modified by Comments and Reply Comments of both SoCalGas and SDG&E. She also observed that the three-year transition period in the RLS tariff discussion was a compromise position that SoCalGas is willing to accept. She urged the Commission to allow SoCalGas the three-year transition period to file an application for a new service. Mr. Hartman stated that the RLS tariff has not caused developers to site electric generation facilities outside of SoCalGas’ service territory. Ms. Freeman requested the Commission to adopt a segmented Electric Generator (“EG”) class rate design for SDG&E. Mr. Winter stated that as written, the PD’s single volumetric EG rate is incompatible with the concept of a segmented EG rate structure established in the SDG&E Joint Recommendations. Later that afternoon, Ms. Freeman telephoned Dorothy Duda to advise that California Cogeneration Council was not opposed to the SoCalGas two-tiered segmented rate proposal which is uncontested herein.

He stated that although the Proposed Decision made several correct findings, it also made two errors and requested these be rectified.

Summary: LATE FILED: On February 10, 2000 @ 1:00 p.m., at the CPUC in San Francisco, the following person(s) met with Commissioner Carl Wood and his Advisors, Jonathan Lakritz and Linda Serizawa, at an all-party meeting, to discuss the Proposed Decision (“PD”) of ALJ Barnett, to wit: R. Thomas Beach of the consulting firm Crossborder Energy, representing Watson Cogeneration Company (“Watson”); Alex Goldberg of Williams Energy Services representing Southern California Generation Coalition; Kimberly Freeman, Sempra Energy; Rodney Winter and Michael Schneider, San Diego Gas & Electric Company; Steven Rahon and Jeffrey Hartman, Southern California Gas Company; Michael Day, Kern River Gas Transmission Company and Questar Southern Trails Pipeline Company; Edward Poole, Western Manufactured Housing Communities Association; Craig Chancellor and Lindsey How-Downing, Calpine Corporation; Joseph Karp, California Cogeneration Council; Joyce Alfton, CPUC Energy Division; Patrick Power, City of Long Beach; Robert Mark Pocta, Office of Ratepayer Advocates; Sandy Dickinson, Pacific Gas and Electric Company; John Hughes and Gloria Ing, Southern California Edison Company; Gregory Blue, Dynergy Marketing and Trade; Briann Cragg, Electric Generator Alliance and PG&E Generating; and Alan Comnes, MRW & Associates, Inc.

Mr. Beach stated that although Watson supported the finding of the PD that the Southern California Gas Company RLS tariff is driving electric generation load out of its service territory, it also believes that in order to stop the resulting harm to ratepayers, the RLS tariff must be eliminated or reformed now and not in three years as the PD recommends. He described the cost-based peaking tariff proposed by Watson herein and recommended it as a compromise solution to this contentious issue.
