2/25/00	A98-10-012	Southern California Gas Company, for authority to revise its rates effective August 1, 1999, in its biennial cost allocation proceeding.
	A98-10-031	San Diego Gas & Electric Company, for authority to revise its gas rates effective August 1, 1999, in its Biennial Cost Allocation Proceeding.

**Summary:** On February 24, 2000 @ 3:30 p.m., at the CPUC in San Francisco, the following person(s) had a telephone conversation with Trina Horner, Advisor to Commissioner Duque, to wit: Brian Cragg, Esq., on behalf of Electric Generator Alliance (“EGA”).

EGA supports the single gas transportation rate for electric generators recommended in the Proposed Decision in that this was the best way for the Commission to accomplish the necessary rate alignment. Also, a single gas transportation rate currently prevails within the service areas of the existing utility companies like SoCalGas. Good policy reasons now supported extending the single rate principle to the entire territory of the Sempra Companies.

authority to retain its hydroelectric generation assets in a regulated utility corporation.

**Summary:** On February 22, 2000 @ 3:00 p.m., at the CPUC in San Francisco, the following person(s) met with Bill Julian, Advisor to Commissioner Carl Wood, who initiated the contact, to wit: James Scarff, Esq., and Truman Burns, Project Coordinator, both of the Office of Ratepayer Advocates (“ORA”).

Mr. Scarff expressed his view that the environmental impact analysis that is required under CEQA becomes problematic when it becomes difficult to use the status quo as the no-project base case for such an analysis. The Commission may be out of compliance with AB1890 by simply rejecting Edison’s application without substituting some other proposal.
