3/1/2000	C.98-01-032	Eric Diesel, Complainant, vs. Pacific Gas and Electric Company, Defendant; Presiding Officer's Decision
		No tariff violations being shown, the proposed decision denies the complaint. The decision determines that PG&E reasonably met its responsibility to construct the electric line extension despite not having been provided in timely fashion the documentation and information required; under the circumstances it reasonably required construction of <u>some</u> access road that would be usable; that being unaware of where complainant would and did construct his roadbed, PG&E could not have and did not determine its location, provide its specifications, or

		supervise its construction; and while at complainant's request PG&E did identify trees for removal/trimming, it did not require complaint to do the work. PG&E is not required to pay reparations and there was insufficient evidence of PG&E's failure to remove its slash.

3/2/00	A98-10-012	Southern California Gas Company, for authority to revise its rates effective August 1, 1999, in its biennial cost allocation proceeding.
	A98-10-031	San Diego Gas & Electric Company, for authority to

revise its gas rates effective August 1, 1999, in its
Biennial Cost Allocation Proceeding.

Summary: On February 25, 2000 @ 2:00 p.m., at the CPUC in San Francisco, the following person(s) met with Kim Malcolm, Advisor to Commissioner Lynch, to wit: Greg Blue of Dynergy, Inc., Robert Weisenmiller of MRW & Associates and Brian Cragg, Esq., for Electric Generator Alliance (EGA). Written materials used during the meeting consisted of a copy of the slides that accompanied the presentation of Kellan Fluckiger of the California ISO at the Commission's Roundtable in San Diego on January 25, 2000 and the table of contents and executive summary of the UCAN report entitled "The Coming Electric Shock," copies of all of which are attached.

Mr. Cragg expressed the support of EGA for the Proposed Decision on the issue of the single gas transportation rate for electric generators. Mr. Weisenmiller observed that waiting for FERC or the ISO to implement pricing initiatives could be futile, but the Sepra-wide rate could be put into place immediately and was entirely under the Commission's control. The EGA representatives explained that the Sempra-wide rate does not disadvantage generators located in SoCalGas territory. Mr. Blue stated that Dynergy supported the Sempra-wide rate because of the competitive and efficiency improvements it offered. Both TURN and UCAN support the single EG rate.
