

September 23, 2013

**Edward Randolph** Director of the Energy Division California Public Utilities Commission 505 Van Ness Avenue San Francisco, CA 94102

> A.08-06-001-Report of Southern California Edison Re:

> > Company (U 338-E) on Interruptible Load Programs and

**Demand Response Programs** 

Dear Mr. Randolph:

Enclosed is Southern California Edison Company's ("SCE") Report on Interruptible Load Programs and Demand Response Programs pursuant to Ordering Paragraph No. 39 of Decision 09-08-027. SCE's report presented in Appendix A, follows the reporting requirements and uses the approved template from Energy Division. It is posted on a publicly available website:

- Go to www.sce.com;
- Click on the "Regulatory Information" link at the bottom right of the page;
- Select "CPUC Open Proceedings";
- Enter "A.08-06-001" in the search box;
- Locate and select the "SCE August 2013 Report on ILP and DR Programs" links to access associated documents.

Very truly yours,

/s/ R. Olivia Samad

R. Olivia Samad

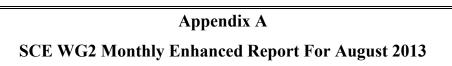

Kelly Hymes, Administrative Law Judge cc:

Bruce Kaneshiro

All Parties of Record in A.08-06-001 and A.11-03-001 - via email

RMS: LIMS- 314-5299 Enclosure(s)

Ordering Paragraph No. 39 requires PG&E and the other utilities to "...use a consistent monthly report format approved by Energy Division staff, and ... provide these monthly reports to the Director of the Commission's Energy Division, with service on and the most recent service list in this proceeding.'

#### Notes

- 1. Ex Ante Estimated MW = The monthly ex ante average load impact per customer reported in the annual April 1, 2013 D. 08-04-050 Compliance Filing multiplied by the number of currently enrolled service accounts for the reporting month, where the ex ante average load impact is the average hourly load impact for an event that would occur from 1 6 pm on the system peak day of the month with the exception of CPP where the average hourly load impacts from 2 6 pm are used. Monthly ex ante estimates are indicated only for programs which can be called for events that reporting month. For programs that are not available that month or do not have a positive load impact, a value of zero is reported. SDP Residential is available year-round, however due to no events being called during these months in previous years no ex ante data is available.
- 2. Ex Post Estimated MW = The annual ex post average load impact per customer reported in the annual April 1, 2013 D.08-04-050 Compliance Filing multiplied by the number of currently enrolled service accounts for the reporting month, where the ex post load impact per customer is the average load impact per customer for those customers that may have participated in an event(s) between 1 6pm on event days in the preceding year when or if events occurred. New programs report "n/a", as there were no prior events. Ex Post OBMC Load Impacts are based on program year 2008.
- 3. Load Impacts are not available for the SLRP, therefore MW are estimated based on the hour of peak scheduled load reduction.
- 4. Readers should exercise caution in interpreting or using the estimated MW values found in this report in either the ex post or ex ante columns. Ex post estimates reflects historic event(s) that have taken place during specific time periods and actual weather conditions by a mix of customers that participated on event day(s). Ex ante forecasts account for variables not included in the ex-post estimate such as normalized weather conditions, expected customer mix during events, expected time of day which events occur, expected days of the week which events occur, and other lesser effects forecast impact estimates that would occur between 1 pm and 6pm during a specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The ex ante and ex post load impact serior to various other agencies (CAISO, FERC, NERC, etc.) which may differ from the load impact estimates in this report but are still based on the June 1st Compliance Filing. The differences are attributed to the use of average values over specific load impact tours and other factors.
- 5. During November-April CBP is not active and "N/A" is entered for the total Service Accounts for these months. During May-October the Service Accounts listed reflect the total number of nominated accounts.
- 6. PTR Service Accounts reflects the total number of customers eligible for PTR notifications as of Jan 1, 2013.

#### Notes

Estimated Average Ex Post Load Impact kW / Customer = Average kW / Customer service account over actual event hours during the 1 - 6 pm window for the preceding year if events occurred omitting 0 and negative load values if program was available, but not dispatched. Some programs may experience no events or few events or few events while other programs may operate regularly depending on event triggers. For existing programs, the Average Ex Post Load Impact per customer service account remains constant across all months with the exception of RTP. A zero (0) load impact value is reported for RTP for June and September as the load impacts for these months are negative.

# \*Ex Post OBMC Load Impacts are based on program year 2008.

#### Notes:

Average Ex Ante Load Impact kW/Customer = Average kW / Customer, under 1-in-2 weather conditions, of an event that would occur from 1 - 6 pm on the system peak day of the month, as reported in the load impact reports filed April 1, 2013. For programs that are not active outside of the summer season a zero load impact value is reported. For programs available outside of the summer season, estimated Average Ex Ante Load Impacts for November through March/April/May are used depending on available data and reflect a typical event that would occur from 4 - 9 pm under the same conditions. Data from Ex Ante load impact reports filed in 2009 is used for OBMC reporting.

- 1. The accounts eligible to participate in OBMC is not available because the number of customers who can reduce 15% of their entire circuit load during every rotating outage cannot be reasonably estimated
- 2. PTR Service Accounts reflects the total number of customers eligible for PTR notifications as of Jan 1, 2013.
- 3. Effective April 1, 2013, DBP is available to all non-residential customers.

Notes:

TI Verified MW

Activity reflects projects initiated in 2009-2011.

Customer counts reported on this page are not excluded from counts in the Program MW tab. MWs reported on this page are not directly related to MW reported in the Program MW tab.

TA Identified MW Represents identified MW for service accounts from completed TA. AutoDR Verified MW Represents verified/tested MW for service accounts that participated in Auto DR.

Represents verified MW for service accounts that participated in TI (i.e. must be enrolled in DR) and not in AutoDR; MW reported here not necessarily amount enrolled in DR

\*A reduction in standard TI MWs can occur when a customer upgrades to Auto-DR (subsequently, the ADR MWs increase).

\*Also, if a customer leaves a DR program it will reduce the MWs for that particular DR program.

Total Technology MW Represents the sum of verified MW associated with the service accounts in the TI and Auto DR programs General Program category Represents MW of participants in the TA stage and may include participants who have completed TI and Auto DR

Notes:

TI Verified MW

Total Technology MW

Activity reflects projects initiated in 2012-2014

Customer counts reported on this page are not excluded from counts in the Program MW tab. MWs reported on this page are not directly related to MW reported in the Program MW tab.

TA Identified MW Represents identified MW for service accounts from completed TA. AutoDR Verified MW

Represents verified/tested MW for service accounts that participated in Auto DR.

Represents verified MW for service accounts that participated in TI (i.e. must be enrolled in DR) and not in AutoDR; MW reported here not necessarily amount enrolled in DR

\*A reduction in standard TI MWs can occur when a customer upgrades to Auto-DR (subsequently, the ADR MWs increase).

\*Also, if a customer leaves a DR program it will reduce the MWs for that particular DR program. Represents the sum of verified MW associated with the service accounts in the TI and Auto DR programs

General Program category Represents MW of participants in the TA stage and may include participants who have completed TI and Auto DR

A-5

Technical Assistance & Technology Incentives (TA&TI) commitments \$21,917,833 outstanding as of 8/31/2013

Notes:

(1) Per ACR issued on 12/28/11, continuing program costs reported here are recorded in SCE's Demand Response Program Balancing Account (DRPBA), unless otherwise noted

Due to timing differences, the amounts in the table may not reflect transactions to reflect respective bridge funding and carryover activities

[2] Funding and expenses for Aggregator Managed Contracts (DR Contracts)(AMP) reflect the administrative portion of costs tracked in the Purchase Agreement Administrative Costs Balancing Account (PAACBA). Capacity payments are recorded separately in Table 1-4
(3) Per Advice Letter 2721-E-A, 10:10 Summer Readiness Program anticipates \$3.3 million to be transferred from funds previously approved in D. 11-11-002 for SCE's Summer Discount Plan Transition

(4) See Table 1-54, (fund Shift Log) for explanations

(5) SDP Transition Program-to-Date Total Expenditures and 3-Year Funding includes 2011 & 2012 funding authorized in D.12-11-015. DR Contracts 3-Year funding includes 2013-2014 funding authorized in D.12-10-015. DR Contracts 3-Year funding included 2013-2014 funding authorized in D.12-11-015. authorized in

(6) Negative expenses in January are a result of reversed accrual entries.

Technical Assistance & Technology Incentives (TA&TI) commitments \$4,261,800 outstanding as of 7/31/2013

Notes:
(1) Per A.12-04-001, carryover program costs reported here are recorded in SCE's Demand Response Program Balancing Account (DRPBA), unless otherwise noted.
(2) TASTI expenses include Auto DR incentives for 2009-2011 projects.

(3) Negative expenses in January are a result of reversed accrual entries.

(4) Due to recent accounting grouping assessments and changes, amounts have varied slightly. Total expenditures from January 1, 2013 through July 31, 2013 have decreased by \$95,996.

#### Notes:

(1) Utility Marketing includes all activities to market individual utility programs or rates, demand response concepts, and customer tools, that were approved or directed by Decision 12-04-045, whether or not the marketing budget was approved as a line item in the Decision. For example, PG&E should not include marketing for TOU and PDP because funding was authorized in another proceeding. However, PG&E must document all amounts spent on marketing individual demand response programs such as Peak Choice even though a specific marketing budget was not approved for the program. This example applies to all of the utilities. The programs and activities listed in item II of the template are meant as examples, and may not be exhaustive. However, the utilities must include all programs or rates that meet this description. The totals for Items II, III and IV should be equal.

<sup>(2) 3-</sup>Year Funding 2012-2014 for Flex Alert includes \$12,000,000 approved in D.13-04-021 and recorded to SCE's Statewide Marketing, Education & Outreach Balancing Account (SME&OBA)

<sup>(3)</sup> Due to recent accounting grouping assessments and changes, amounts have varied slightly. Total expenditures from January 1, 2013 through July 31, 2013 have increased by \$34,522

(1) Utility Marketing includes all activities to market individual utility programs or rates, demand response concepts, and customer tools, that were approved or directed by Decision 12-04-045, whether or not the marketing budget was approved as a line item in the Decision. For example, PG&E should not include marketing for TOU and PDP because funding was authorized in another proceeding. However, PG&E must document all amounts spent on marketing individual demand response programs such as Peak Choice even though a specific marketing budget was not approved for the program. This example applies to all of the utilities. The programs and activities listed in item II of the template are meant as examples, and may not be exhaustive. However, the utilities must include all programs or rates that meet this description. The totals for Items II, III and IV should be equal.

# FUND SHIFTING DOCUMENTATION PER DECISION 09-08-027 ORDERING PARAGRAPH 35

OP 35: The utilities may shift up to 50% of a program's funds to another program within the same budget category.

The utilities shall document the amount of and reason for each shift in their monthly demand response reports.

Program Category	Fund Shift	Programs Impacted	Date	Rationale for Fundshift
Category 9	\$97,000	From Federal Power Reserve Partnership (FedPower) to Statewide IDSM	5/31/2012	In D. 09-09-047 there were eight tasks defined for Statewide IDSM Pilot program. The
cutcholy 5	<i>451</i> ,000	Trom reactar rower neserve rartiership (rear ower) to statewide ibsin	3/31/2012	total fund required for the eight tasks were \$535,647 for 2012. Due to minimal approval
				from D.12-04-045, the scope of work has been reduced to half with required fund of
				\$126K in 2012. Fund shift is needed to be in compliance with D.09-09-047.
Category 2	\$1,200,000	From Summer Discount Plan Transition to 10:10 Summer Readiness	6/30/2012	
	. , ,			associated program costs submitted in SCE Advice Letters 2721-E and 2721-E-A. This
				fund shift is for the estimated implementation costs for the 10 For 10 Program.
Category 9	\$28,600	From Federal Power Reserve Partnership (FedPower) to Statewide IDSM	12/31/2012	In D. 09-09-047 there were eight tasks defined for Statewide IDSM Pilot program. The

#### 2013 Event Summary

Category 11 - Dynamic Pricing							
SAI - Summer Advantage Incentive	1	07/01/13	Heat Rate	26.0 MW	System Territory	2PM - 6PM	4
SAI - Summer Advantage Incentive	2	07/03/13	Heat Rate	46.2 MW	System Territory	2PM - 6PM	8
SAI - Summer Advantage Incentive	3	08/21/13	Heat Rate	48.8 MW	System Territory	2PM - 6PM	12
SAI - Summer Advantage Incentive	4	08/28/13	Heat Rate	43.9 MW	System Territory	2PM - 6PM	16
SAI - Summer Advantage Incentive	5	08/30/13	Heat Rate	72.0 MW	System Territory	2PM - 6PM	20

#### Notes:

- (1) Emergency programs' load reductions are normally requested by the ISO. The ISO does not call for load reductions by program. OBMC is activated by SCE concurrent with the ISO's request for firm load curtailment (rotating outages) to the minimum % level required to meet the ISO's firm load curtailment request. Other programs are triggered according to the terms of the tariff associated with the program.
- (2) Initial event data subject to change based on billing records and verification.
- (3) Customer's load reduction (MW) is measured as follows:
  - BIP: The maximum hourly load reduction compared to 10 day rolling average, measured over the duration of the entire event day. 10 in 10 baseline is used and calculated for each 15 minute interval.
  - DBP: The maximum hourly load reduction measured over the duration of the DBP event utilizes a 10 in 10 day baseline with optional day-of adjustment.
  - SDP: Estimated based on ac tonnage, cycling strategy and load diversity at time of event.
  - OBMC: The maximum hourly load reduction compared to 10 day rolling average, measured over the duration of the entire event day. 10 in 10 baseline is used and calculated for each 15 minute interval.
  - AP-I: The maximum hourly load reduction compared to 10 day rolling average, measured over the duration of the entire event day. 10 in 10 baseline is used and calculated for each 15 minute interval.
  - CPP (SAI): The maximum hourly load reduction measured over the duration of the CPP event is compared to 10 in 10 Adjusted baseline.
  - CBP: Reported to SCE in aggregate by portfolio and by product by APX. These load reductions reflect the highest hourly reduction per event. 10 in 10 baseline and 10 in 10 with adjustment is used to determine event load reduction.
  - DR Contracts: Based on event reduction results using baseline established for each contract.
  - PTR: The average performance per customer enrolled in event notifications utilizing a 3 in 5 baseline with no day-of adjustment
- (4) Individual customer tolled hours or event limits may vary due to different customer contact times and/or load blocking.
- (5) Event times are based on GCC start and end times or SCE determined start and end times.
