**Re: Pacific Gas and Electric Company's Monthly Report on Interruptible Load
and Demand Response Programs Resubmission of its December 2015**

Dear Energy Division Central Files :

Pacific Gas and Electric Company (PG&E) submits a confidential and a public version of its Report on Interruptible Load and Demand Response Programs for December 2015 (Report). PG&E is serving the public version of the Report on the service list for A.11-03-001 et al. pursuant to Decision 09-08-027, Ordering Paragraph 39. The confidential version of the Report is being provided to Energy Division Central Files under to Public Utilities Code Section 583. PG&E's report follows all applicable reporting requirements and uses a template approved by the Energy Division.

The public version of the Report redacts certain customer information to comply with the Decision *Adopting Rules to Provide Access to Energy Usage and Usage-Related Data While Protecting Privacy of Personal Data*, D.14-05-016 (Decision). In the Decision, the Commission stated: "we...retain a requirement of a minimum aggregation standard of fifteen customers per zip for residential, agricultural and commercial customers." The Commission also states: "we...follow a 15/15 Rule for public posting of data concerning commercial, industrial and agricultural data." (D.14-05-016, page 118; and Finding of Fact 17.) PG&E has redacted from the Report information from Table I-4 where there are fewer than 15 customers involved or where a single customer in the group accounts for more than 15% of the aggregated total. Please let us know if you have any questions or concerns about the redactions to comply with the Decision.
