Energy Division Central Files Document Coversheet

All documents submitted to EnergyDivisionCentralFiles@cpuc.ca.gov are required to be submitted in an electronically searchable format. This document coversheet can be embedded as page 1 of the electronic filing or attached as a separate document.

A. Document Title and Summary

- 1. Today's Date: 05/20/2016
- 2. Document Title: SCE CPUC Monthly ILP and DR Report
- 3. Document Summary (Executive Summary, Brief Description, Background, Introduction): Report contains Demand Response customer count, load impact, expenditures, incentives, and events called.

B. Sender Contact Information

- 1. Sender Name: Eric Lee
- 2. Sender Organization: Southern California Edison
- If Utility, Utility Number: U 338-E
 Sender Phone: 626-302-0674
- 5. Sender Email: Eric.Lee@sce.com

C. Documents Submitted that Reference Proceedings

If the document attached is submitted as a compliance document because of a Commission Decision, identify:

- 1. Proceeding Number: A.08-06-001, A.08-06-002, A.08-06-003
- 2. Decision Number: D.09-08-027
- 3. Ordering Paragraph Number: 39
- 4. SCE Monthly ILP and DR 2016 04

D. Documents Submitted that Reference other requirements

1. If the document submitted is in compliance with (i) something other than a Commission decision identified in Section C above or (ii) something in addition to the Commission decision identified above, please identify the original source of the compliance filing: (Examples may include a Resolution on an Advice Letter, Ruling Proceeding, General Order, Staff Letter, Public Utilities Code, or sender's own motion): Click here to enter text.

E. Frequency of Submission

- 1. Identify document submission frequency: \square Monthly, \square Quarterly, \square Annual, \square One-Time, \square Other Click here to enter text.
- 2. If applicable, identify the interval for this particular filing; e.g., $Q3\ 2015\ data$, Annual $2015\ data$, or June $2014\ data$: April 2016
- 3. Identify whether this filing is \boxtimes original, \square supplement, or \square revision to a previous filing:

NOTE: If this is a supplement or a revision filing, identify the date of the original filing. Click here to enter text.

F. Confidentiality

1. If the document submitted is marked Confidential, provide an explanation of why confidentiality is claimed and identify the expiration of the confidentiality designation (e.g. Confidential until December 31, 2020.) Click here to enter text.

G. CPUC Routing

1. Names of Commission staff that sender copied on the submittal of this Document: Edward Randolph, Kelly Hymes, Bruce Kaneshiro

ver.3/17/2016

May 23, 2016

Edward Randolph Director of the Energy Division California Public Utilities Commission 505 Van Ness Avenue San Francisco, CA 94102

Re: A.08-06-001-Report of Southern California Edison Company (U 338-E) on Interruptible Load Programs and Demand Response Programs

Dear Mr. Randolph:

Enclosed is Southern California Edison Company's ("SCE") Report on Interruptible Load Programs and Demand Response Programs pursuant to Ordering Paragraph No. 39 of Decision 09-08-027. SCE's report, presented in Appendix A, follows the reporting requirements and uses the approved template from Energy Division. It is posted on a publicly available website:

- Go to www.sce.com;
- Click on the "Regulatory Information" link at the bottom right of the page;
- Select "CPUC Open Proceedings";
- Enter "A.08-06-001" in the search box;
- Locate and select the "SCE ILP and DRP Report April 2016" links to access associated documents.²

Very truly yours,

/s/ Jane Lee Cole

Jane Lee Cole

cc: ALJ Kelly Hymes, ALJ Patricia Miles Bruce Kaneshiro

All Parties of Record in A.08-06-001 et al and A.11-03-001 et al - via email

RMS: LIMS- 314-9662 Enclosure(s)

_

Ordering Paragraph No. 39 requires PG&E and the other utilities to "...use a consistent monthly report format approved by Energy Division staff, and ...provide these monthly reports to the Director of the Commission's Energy Division, with service on and the most recent service list in this proceeding."

Notes:

- 1. Ex Ante Estimated MW = The monthly ex ante average load impact per customer, reported in the annual April 1, 2016 D. 08-04-050 Compliance Filing, multiplied by the number of currently enrolled service accounts for the reporting month. The ex ante average load impact is the average hourly load impact for an event that would occur from 1-6pm on the system peak day of the month, with the exception of SAI/CPP where the average hourly load impacts from 2-6pm are used. Monthly ex ante estimates are indicated only for programs which can be called for events that reporting month. For programs that are not available that month or do not have a positive load impact, a value of zero is reported. SDP Residential is available year-round, however, due to no events being called during certain months in previous years, no ex ante data is available
- 2. Ex Post Estimated MW = The annual ex post average load impact per customer, reported in the annual April 1, 2016 D.08-04-050 Compliance Filing, multiplied by the number of currently enrolled service accounts for the reporting month. The annual ex post average load impact is the average hourly load impact per customer for those customers that may have participated in an event(s) between 1-6pm on event days in the preceding year when or if events occurred. Ex Post OBMC Load Impacts are based on program year 2008.
- 3. Load Impacts are not available for the SLRP, therefore MW are estimated based on the hour of peak scheduled load reduction.
- 4. Readers should exercise caution in interpreting or using the estimated MW values found in this report in either the ex post or ex ante columns. Ex post estimates reflects historic event(s) that have taken place during specific time periods and actual weather conditions by a mix of customers that participated on event day(s). E ante forecasts account for variables not included in the ex-post estimate such as normalized weather conditions, expected customer mix during events, expected days of the week which events occur, and other lesser effects etc. An ex-ante forecast reflects forecast impact estimates that would occur between 1 pm and 6pm during a specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The ex ante and ex post load impacts presented in this report are based on the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions of the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions of the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The ex ante and ex post load impact specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The ex ante and ex post load impact specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The ex ante and expected this period of the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The ex ante and expected this period of the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The expected this period of the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The expected this period of the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions. The expected this period of the IOUs' specific DR program's operating season, based on 1-in-2 (normal) weather conditions.
- 5. PTR Service Accounts reflects the total number of customers eligible for PTR notifications as of Jan 1, 2016.

Notes:

Estimated Average Ex Post Load Impact kW / Customer = Average kW / Customer service account over actual event hours during the 1-6pm window for the preceding year if events occurred omitting 0 and negative load values if program was available, but not dispatched. Some programs may experience no events or few events or few events while other programs may operate regularly depending on event triggers. For existing programs, the Average Ex Post Load Impact per customer service account remains constant across all months.

*Ex Post OBMC Load Impacts are based on program year 2008.

Notes

Average Ex Ante Load Impact kW/Customer = Average kW / Customer, under 1-in-2 weather conditions, of an event that would occur from 1-6pm on the system peak day of the month, as reported in the load impact reports filed April 1, 2016. For programs that are not active outside of the summer season a zero load impact value is reported. For programs available outside of the summer season, estimated Average Ex Ante Load Impacts for November through March/April/May are used depending on available data and reflect a typical event that would occur from 4-9pm under the same conditions. Data from Ex Ante load impact reports filed in 2009 is used for OBMC reporting.

- 1. The accounts eligible to participate in OBMC is not available because the number of customers who can reduce 15% of their entire circuit load during every rotating outage cannot be reasonably estimated
- 2. PTR Service Accounts reflects the total number of customers eligible for PTR notifications as of Jan 1, 2016

Notes:

TI Verified MW

Activity reflects projects initiated in 2009-2011.

Customer counts reported on this page are not excluded from counts in the Program MW tab. MWs reported on this page are not directly related to MW reported in the Program MW tab.

TA Identified MW Represents identified MW for service accounts from completed TA. AutoDR Verified MW

Represents verified/tested MW for service accounts that participated in Auto DR.

Represents verified MW for service accounts that participated in TI (i.e. must be enrolled in DR) and not in AutoDR; MW reported here not necessarily amount enrolled in DR

*A reduction in standard TI MWs can occur when a customer upgrades to Auto-DR (subsequently, the ADR MWs increase).

*Also, if a customer leaves a DR program it will reduce the MWs for that particular DR program.

Total Technology MW Represents the sum of verified MW associated with the service accounts in the TI and Auto DR programs Represents MW of participants in the TA stage and may include participants who have completed TI and Auto DR **General Program category**

Activity reflects projects initiated in 2012-2014

Customer counts reported on this page are not excluded from counts in the Program MW tab. MWs reported on this page are not directly related to MW reported in the Program MW tak

TA Identified MW Represents identified MW for service accounts from completed TA. AutoDR Verified MW

Represents verified/tested MW for service accounts that participated in Auto DR.

Represents verified MW for service accounts that participated in TI (i.e. must be enrolled in DR) and not in AutoDR; MW reported here not necessarily amount enrolled in DR

*A reduction in standard TI MWs can occur when a customer upgrades to Auto-DR (subsequently, the ADR MWs increase).

*Also, if a customer leaves a DR program it will reduce the MWs for that particular DR program. Total Technology MW Represents the sum of verified MW associated with the service accounts in the TI and Auto DR programs Represents MW of participants in the TA stage and may include participants who have completed TI and Auto DR **General Program category**

Notes:

TI Verified MW

Activity reflects projects initiated in 2015-2016

Customer counts reported on this page are not excluded from counts in the Program MW tab. MWs reported on this page are not directly related to MW reported in the Program MW tak

TA Identified MW Represents identified MW for service accounts from completed TA. AutoDR Verified MW

Represents verified/tested MW for service accounts that participated in Auto DR.

Represents verified MW for service accounts that participated in TI (i.e. must be enrolled in DR) and not in AutoDR; MW reported here not necessarily amount enrolled in DR

*A reduction in standard TI MWs can occur when a customer upgrades to Auto-DR (subsequently, the ADR MWs increase).

*Also, if a customer leaves a DR program it will reduce the MWs for that particular DR program.

Total Technology MW Represents the sum of verified MW associated with the service accounts in the TI and Auto DR programs Represents MW of participants in the TA stage and may include participants who have completed TI and Auto DR **General Program category**

- Notes:
 (1) Per ACR issued on 12/28/11, continuing program costs reported here are recorded in SCE's Demand Response Program Balancing Account (DRPBA), unless otherwise noted.

 Due to timing differences, the amounts in the table may not reflect transactions to reflect respective bridge funding and carryover activities.
 (2) Funding and expenses for Aggregator Managed Contracts (DR Contracts)(AMP) reflect the administrative portion of costs tracked in the Purchase Agreement Administrative Costs Balancing Account (PAACBA). Capacity payments are recorded separately in Table 1-4.

⁽¹⁾ Amounts reported are for incentives costs that are not recovered in the Demand Response Program Balancing Account.

⁽²⁾ Except for AMP Contacts/DR Contracts, Incentive data is preliminary and subject to change based on billing records.

⁽³⁾ Revenues assessed by BIP participants for failure to reduce load when requested during curtailment events.

Notes:

(1) Utility Marketing includes all activities to market individual utility programs or rates, demand response concepts, and customer tools, that were approved or directed by Decision 12-04-045 and 14-05-025, whether or not the marketing budget was approved as a line item in the Decision. For example, PG&E should not include marketing for TOU and PDP because funding was authorized in another proceeding. However, PG&E must document all amounts spent on marketing individual demand response programs such as Peak Choice even though a specific marketing budget was not approved for the program. This example applies to all of the utilities. The programs and activities listed in item II of the template are meant as examples, and may not be exhaustive. However, the utilities must include all programs or rates that meet this description. The totals for Items II, III and IV should be equal.

(2) Statewide marketing-Flex Alert program recorded costs incurred in 2015 was included in DR monthly CPUC report starting April 2015 until the new CPUC report template particularly for Statewide ME&O balancing account is ready

Notes:

(1) Utility Marketing includes all activities to market individual utility programs or rates, demand response concepts, and customer tools, that were approved or directed by Decision 12-04-045 and 14-05-025, whether or not the marketing budget was approved as a line item in the Decision. For example, PG&E should not include marketing for TOU and PDP because funding was authorized in another proceeding. However, PG&E must document all amounts spent on marketing individual demand response programs such as Peak Choice even though a specific marketing budget was not approved for the program. This example applies to all of the utilities. The programs and activities listed in item II of the template are meant as examples, and may not be exhaustive. However, the utilities must include all programs or rates that meet this description. The totals for Items II, III and IV should be equal.

(2) Statewide marketing-Flex Alert program recorded costs incurred in 2015 was included in DR monthly CPUC report starting April 2015 until the new CPUC report template particularly for Statewide ME&O balancing account is ready

FUND SHIFTING DOCUMENTATION PER DECISION 12-04-045 ORDERING PARAGRAPHS 4 AND 6.

The utilities may not shift funds between budget categories with two exceptions as stated in OP 4 and 5
The utilities may shift up to 50% of a program's funds to another program within the same budget category;
The utilities shall not shift funds within the "Pilots" (Category 5) or "Special Projects" (Category 11) budget categories without a Tier 2 Advice Letter;

The utilities may shift funds for pilots in the Enabling or Emerging Technologies category;
The utilities shall not eliminate a program through multiple fund shifting:
The utilities shall submit at Tier 2 Advice Letter before shifting more than 50% of a program's budget to a different program within the same budget category;

The utilities shall document the amount of and reason for each shift in their monthly demand response reports

OP 6: The utilities may shift funds in Category 4 (Enabling & Emerging Technologies) into the Permanent Load Shifting program with a Tier 2 Advice Letter.
