Edward Randolph Director of the Energy Division California Public Utilities Commission 505 Van Ness Avenue San Francisco, CA 94102

Re: R.13-09-011 and A.17-01-012, et al

Report of Southern California Edison Company (U 338-E) on Interruptible Load Programs and Demand Response Programs

Dear Mr. Randolph:

Southern California Edison Company ("SCE") submits a confidential and public version of its Report on Interruptible Load Programs and Demand Response Programs pursuant to Ordering Paragraph No. 39 of Decision 09-08-027. SCE's report, presented in Appendix A, follows the reporting requirements and uses the approved template from Energy Division. The confidential version of the Report is being provided to Energy Division Central Files with an accompanying Declaration. The public version of the report is posted on a publicly available website:

- Go to www.sce.com/regulatory/CPUC-Open-Proceedings
- Click "View and Search all CPUC Documents"
- Click "Proceeding #" column header
- Click "Filter By", type "R.13-09-011" into the Search box, and "Apply"
- Locate and select the "R1309011-SCE Monthly ILP and DR Report 202304" links to access associated documents.²

Very truly yours,
/s/ James Whooley
James Whooley

Enclosure(s)

_

Ordering Paragraph No. 39 requires PG&E and the other utilities to "use a consistent monthly report format approved by Energy Division staff, and provide these monthly reports to the Director of the Commission's Energy Division, with service on the most recent service list in this proceeding."

If you have trouble accessing the document using this process, use the following link: R.13-09-011 SCE Monthly ILP and DR Reports. If you still cannot access the documents with this link, please contact Legal.Admin@sce.com.

Notes:

(1) Readers should exercise caution in interpreting or using the estimated MW values found in this report in either the ex post estimates reflects historic event(s) that have taken place during specific time periods and actual weather conditions, expected customers that participated on event day(s). Ex ante forecasts account for variables not included in the ex post estimates such as normalized weather conditions, expected customer mix during events, expected time of day which events occur, expected days of the week which events occur, and other lesser effects forecast impact estimates that would occur between 4 pm and 9pm (Except for April 5p-10p window) during a specific DR program's operating season, based on CAISO 1-in-2 weather conditions. The ex ante and ex post load impacts presented in this report are based on the IOUs' annual April 1st Compliance Filings pursuant to Decision D.08-04-050. SCE provides reports to various other agencies (CAISO, FERC, NERC, etc.) which may differ from the load impact set imates in this report but are still based on the April 1st Compliance Filing. The differences are attributed to the use of average values over specific load impact hours and other factors.

(2) Ex Ante Estimated MW = The monthly ex ante average load impact per customer; (reported in the annual April 1 DR Load impact Studies filed in compliance with D. 08-04-050, Ordering Paragraph 4), multiplied by the number of currently enrolled service accounts for the reporting month. The ex ante average load impact is the average hourly load impact for an event that would occur from 4-9pm (Except for April 5p-10p window) on the system peak day of the month. Monthly ex ante estimates are indicated only for programs which can be called for events that reporting month. For programs that are not available that month or do not have a positive load impact, a value of zero is reported. SDP Residential is available year-round, however, due to no events being called during certain months in previous years, no ex ante data is available.

(3) Ex Post Estimated MW = The monthly ex post average load impact per customer; (reported in the annual April 1 DR Load Impact Studies filed in compliance with D. 08-04-050, Ordering Paragraph 4), multiplied by the number of currently enrolled service accounts for the reporting month. The annual ex post average load impact is the average hourly load impact per customer for those customers that may have participated in an event(s) between 4-9pm (Except for April 5p-10p window) on event days in the preceding year when or if events occurred. Ex Post OBMC Load Impacts are based on program year 2008.

(4) CBP service accounts reflect monthly nomination counts, not total program enrollment.

Notes:

- (1) Activity Reflects projects installed 2009-2022 and still active (no closed accounts)
- (2) MWs reported on this page are not excluded from and are not directly related to the MWs on the Program Ex Ante & Ex Post tab.
- (3) Auto DR Verified MW Represents verified/tested MW for service accounts that participate in Auto DR
- (4) Total Technology MW Represents the sum of verified MW associated with the service accounts in the Auto DR programs
- (5) General Program Category Represents MW of participants who have received Auto DR incentives but are not currently enrolled in a qualifying Demand Response Program

2023 Express		\$	-
	Total		\$26,250

(1) Amounts reflected in totals may be corrected in subsequent periods and/or may reflect corrections from previous periods.

(2) Funding for DR programs and activities are approved in: D.18-05-041, D.21-12-015, D.23-01-006, D.22-12-009 and are recorded in SCE's Demand Response Program Balancing Account (DRPBA), Emergency Load Reduction Program Balancing Account (EIRPBA), Base Revenue Requirement Balancing Account (BRBA), and Statewide Marketing, Education & Outreach Balancing Account (SME&OBA) as applicable.

(3) Incentives are reported separately from admin for programs in Category 1 and Emergency Load Reduction Program (ELRP). BIP incenties include BIP Aggregation incentives and Excess Energy Charges. This is consistent with table I-3.

(4) DRAM expenditures represent Resource Adequacy (RA) payments to demand response providers (DRP) based on the Demonstrated Capacity for each applicable Showing (Delivery) Month, in the month that the payments were paid. Payments are calculated as the product of the Contract Price of the RA Product and Demonstrated Capacity (kW) as defined in the DRAM Purchase Agreement, Section 1.6.

(5) Emerging Markets and Technology (EM&T) includes funding and spend for Dynamic Rate Pilot approved in D.21-12-015. EM&T budget also includes \$4.5M fundshift from ADR as reported in December 2022 IUP Report. (6) Historical ELEP Incentive amounts include charges to be recovered in Summer Reliability Demand Response Program Memorandum Account (SRDRPMA) as authorized in D.21-03-056 and D.21-03-056. (7) Bridge Funding budgets approved in D.221-02 Were authorized as the Category level, therefore, budgets are not allocated as in the Items.

(8) IDSM historical spend for period 2018-2021 was reported in 2021 for simplicity purposes.

(9) Unless otherwise notes, historical spend amounts were only included for budgets that have active funding in 2023 or beyond.

Revenues from Excess Energy Charges	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$1	\$0	\$0	\$0	\$0	\$0	\$0

Note

- (1) Amounts reported are for incentives costs that are recovered in the Demand Response Program Balancing Account (DRPBA), Emergency Load Reduction Program Balancing Account (ELRPBA) and/or Summer Reliability Demand Response Program Memorandum Account (SRDRPMA).
- (2) Incentives are reported in month of settlement or accrual and not necessarily based on the month in which they were earned.
- (3) Incentives are reported separately from admin for programs in Category 1 and Emergency Load Reduction Program (ELRP). BIP incenties include BIP Aggregation and represent the net of Excess Energy Charges and incentives paid. Revenues from Excess Energy Charges, assessed for BIP participants, are for failure to reduce load when requested during curtailment events.
- (4) CBP represents net of aggregator payment and penalties.
- (5) BIP incenties include BIP Aggregation and represent the net of Excess Energy Charges and incentives paid. Revenues from Excess Energy Charges, assessed for BIP participants, are for failure to reduce load when requested during curtailment events.
- (6) SDP-R incentive expenditures include \$50 bonus payments offered to new participants in 2022 as approved by D.21-03-056.
- (7) Unless otherwise notes, historical spend amounts were only inlcuded for budgets that have active funding in 2023 or beyond.

Table I-4

SCE Demand Response Programs and Activities Fund Shifting

2023

Southern California Edison

Fund Shifting Documentation Per Decision 12-04-045 Ordering Paragraphs 4 and 6.

OP 4: The Utilities may not shift funds between categories with two exceptions as stated in OP 4 and 5;

The Utilities may shift up to 50% of a program's funds to another program within the same budget category, with proper monthly reporting;

The Utilities shall not shift funds within the "Pilots" or "Special Projects" budget categories without a Tier 2 Advice Letter;

The Utilities may shift funds for pilots in the Enabling or Emerging Technologies category;

The Utilities shall continue to submit a Tier 2 Advice Letter to eliminate a Demand Response program;

The Utilities shall not eliminate a program through multiple fund shiftingevents or for any other reason without prior authorization from the Commission;

The Utilities shall submit a Tier 2 Advice Letter before shifting more than 50% of a program's budget to a different program within the same budget category;

OP 6: The Utilities may shift funds in category 4 (Enabling & Emerging Technologies) into the Permanent Load Shifting program with a Tier 2 Advice Letter.

D.20-05-009

OP 3: Reaffirmed findings in D.09-08-027 as well as D.12-04-045

OP 6: The Utilities may submit a request via a Tier 3 advice letter to shift funds between budget categories during this demand response budget cycle.

(1) Utility Marketing includes all activities to market individual utility programs or rates, demand response concepts, and customer tools whether or not the marketing budget was approved as a line item in the Decision. The programs and activities listed in item II of the template are meant as examples, and may not be exhaustive. The totals for Items II, III and IV should be equal.

(2) Other Local Marketing (IOLM) spend is part of Itemized Accounting in section: II

(3) Cost split by customer segment is estimated.

(4) Spend includes Carryover and excludes GRC funded programs/activities

Notes:
(1) Utility Marketing includes all activities to market individual utility programs or rates, demand response concepts, and customer tools, that were approved or directed by Decision 12-04-045, 14-05-025 and 17-12-003 whether or not the marketing budget was approved as a line Item in the Decision. For example, PG&E should not include marketing for TOU and PDP because funding was authorized in another proceeding. However, PG&E must document all amounts spent on marketing individual demand response programs such as Peak Choice even though a specific marketing budget was not approved for the program. This example applies to all of the utilities. The programs and activities listed in Item II of the template are mental as examples, and may not be exhaustive. However, the utilities must include all programs or rates that meet this description. The totals for Items II, III and IV should be equal.
(2) Other Local Marketing is part of Itemized Accounting in section: II

(3) Cost split by customer segment is estimated.

Notes:

(1) Emergency programs' load reductions are normally requested by the ISO. The ISO does not call for load reductions by program. OBMC is activated by SCE concurrent with the ISO's request for firm load curtailment (rotating outages) to the minimum % level required to meet the ISO's firm load curtailment request. Other programs are triggered according to the terms of the terms of

CBP: Reported to SCE in aggregate by portfolio and by product nominations by APX.

(3) Final event data for customer's load reduction (MW) is measured as follows:

CBP: Aggregated load reduction using billing data and the settlement baselines and calculations in accordance with the CBP tariff.

(4) Event times are based on CAISO award start and end times or SCE determined start and end times.

(5) Hours listed represent the number of hours for the event by individual SLAPs.
