**Directions:** Submit all documents and submittal questions to Energy Division Central Files via email [EnergyDivisionCentralFiles@cpuc.ca.gov](mailto:EnergyDivisionCentralFiles@cpuc.ca.gov)

1. Fill out coversheet completely. Coversheet can be embedded as page 1 of the electronic compliance filing, or can be submitted as a separate document that is attached to the email that delivers the compliance filing.
2. If the coversheet is submitted as separate document, please name the coversheet file with the same document name used in your primary document (see Section A) + plus the word "cov" (for coversheet). For example, the name of the coversheet file will be something like: **West Coast Gas Company Monthly Gas Report 201602 COV.docx**
3. If the document is confidential add CONF (for confidential). For example, the name of the coversheet file will be something like: **West Coast Gas Company Monthly Gas Report 201602 CONF.docx** and **West Coast Gas Company Monthly Gas Report 201602 COV CONF.docx**
4. All documents are required to be submitted in an electronically *searchable* format.
5. Documents need to reference the reason for the mandate that ordered the filing in Section B or C. If you are unable to reference a proceeding or explain the origin of your filing, please contact Energy Division Central Files.
6. To find a proceeding number (if you only have a decision number), go to <http://docs.cpus.ca.gov/DecisionsSearchForm.aspx>; enter the decision number, and the results shown include the proceeding number.

NOTE: It is Energy Division's preference to have document components combined into one PDF document with the top sheets being the cover sheet, the next an executive's letter (as applicable), and the compliance data as the third element.

March 27, 1969

Public Utilities Commission  
of the State of California  
State Building, Civic Center  
San Francisco, California 94102

Gentlemen:

Case No. 8209

The attached "Pacific Gas and Electric Company Report of 1968 Underground Conversion Projects", which lists each project where construction was started in 1968, describes each project and indicates the distribution, if any, of the costs between PGandE and others. Four sections, one for each section of Rule 20 and one for "other than Rule 20 projects", comprise the report. It does not list those jobs where a section of overhead line was converted to underground as a minor part of a subdivision development and the conversion cost was incidental to the total cost.

The year 1968 represents the first year of budgeted allocations for conversion work under Rule 20A. As you will recall, PGandE during the hearings on Case 8209 estimated that it would take about three years before a conversion program of this type could be fully underway, and consequently we expected that only about one-third of the first year's budget would be applied in that year. We are happy to be able to report that we have exceeded that estimate. One-third of the first year's Rule 20A budget of \$8,000,000 would have been \$2,677,000. The 1968 Report shows the total amount for the Rule 20A projects to be \$3,233,040; for Rule 20B projects \$644,757; for Rule 20C projects \$21,936; and for other than Rule 20 projects \$282,739; or a total for all 1968 conversion projects of \$4,182,472 of which amount PGandE paid \$3,656,618.

Some cities and counties have had no 1968 Rule 20A conversion projects within their area, or have had only a part of the amount allocated applied in 1968 for such work. Such allocated amounts which have not been so applied in 1968 are being carried over as indicated in my letter of November 21, 1969. PGandE's local divisions and districts have advised the cities and counties of their 1969 allocations and carry-over amounts for Rule 20A conversion work.

will be appreciated.

Very truly yours,

Public Utilities Commission  
of the State of California  
State Building  
San Francisco, California 94102

Gentlemen:

The attached "Pacific Gas and Electric Company Report of Underground Conversion Projects Completed in 1970" is submitted in conformance with Ordering Paragraph 7 of Decision No. 73078.

The report is in four parts. The first three parts cover Sections "A", "B", and "C" of Rule 20, and Part IV covers other conversion projects.

The total amount for the Rule 20, Section "A", projects completed during 1970 is \$2,874,798 and for all conversion projects completed during 1970 is \$3,239,058.

The following figures are submitted as a supplement to the attached report. They note by year (1) the estimated construction costs of Rule 20-A conversion projects started during the designated year, and (2) the status of each designated year's progress as of December 31, 1970 -- whether completed, or under construction.

Public Utilities Commission -2- March 30, 1971

Rule 20-A Conversion Projects

<u>Year</u>	<u>Started</u>	<u>Completed on 12-31-70</u>	<u>Balance (Under Construction)</u>
1968	\$2,434,096	\$1,451,787	\$982,309
1969	\$3,897,925	\$2,158,781	\$1,739,144
1970	\$9,014,482	\$2,261,115	\$6,753,367

The figures above indicate an increase of over 60% in Rule 20-A projects started in 1969 over 1968, and an increase of over 130% in Rule 20-A projects started in 1970 over 1969.

Very truly yours,

JOHN C. MORRISSEY

SUBJECT          1971 Conversion Projects  
Electric Rule No. 20  
Decision No. 73078

March 30, 1972

MR. MALCOLM H. FURBUSH:

The attached "Pacific Gas and Electric Company Report for Underground Conversion Projects - 1971" is submitted for your transmittal to the California Public Utilities Commission in conformance with Ordering Paragraph 7 of Decision No. 73078.

Past reports to the Commission have been based on projects completed as of the end of the year. In discussions with the Commission staff, the staff has indicated that the report would be more meaningful if it were based on projects charged to the Cities and Counties allocations. This year's status report is based on the projects physically started during 1971, since that is the time the charge is made against the budgeted allocation. The report is in four parts and covers projects done under Sections "A", "B", and "C" of Rule 20 as well as other conversion work done at company expense.

The total amount of the Rule 20, Section "A", projects charged to allocations during 1971 is \$9,517,286 and for all conversion projects, the total amount is \$11,122,768.

RE LETTER OF  
SUBJECT 1972 Conversion Projects  
Electric Rule No. 20  
Decision No. 73078

*3099 3.2**72 Conversions*

March 29, 1973

MR. M. H. FURBUSH:

The attached "Pacific Gas and Electric Company Report for Underground Conversion Projects - 1972", is submitted for your transmittal to the California Public Utilities Commission in conformance with Ordering Paragraph 7 of Decision No. 73078.

The report is in four parts and covers projects started during 1972 under Sections "A", "B", and "C" of Rule 20 as well as other conversion work done at company expense.

The total amount of the Rule 20, Section "A" projects charged to allocations during 1972 is \$8,540,982 and for all conversion projects, the total amount is \$10,479,922.

An estimate (\$11.1 million) of the total amount of conversion work to be started during 1972 under Section "A" of Rule 20 was forwarded to the Commission by your letter dated June 1, 1972. In view of the discrepancy between the estimate and projects actually started during 1972, it is suggested that we explain to the Commission that in addition to the \$8,540,982 of projects actually started, we were prepared to start an additional \$1,760,000 of Section "A" projects; however, these additional projects were delayed by unfavorable weather conditions and other factors and will be started during 1973. To date, approximately one-half of these projects, held over from 1972, were started in 1973.

 RE LETTER OF  
 SUBJECT The 1973 Conversion Projects  
 Electric Rule No. 20  
 Decision No. 73078

April 1, 1974

MR. M. H. FURBUSH:

The attached "Pacific Gas and Electric Company Report for Under-ground Conversion Projects--1973", has been prepared for your transmittal to the California Public Utilities Commission in conformance with Ordering Paragraph 7 of Decision No. 73078.

The report is in four parts and covers conversion projects started during 1973 under Sections A, B, and C of Rule 20 as well as other conversion work done at company expense.

The total amount of the Rule 20, Section A projects charged to allocations during 1973 is \$9,433,717, and for all conversion projects, the total amount is \$12,776,917.

In the application of our 1974 conversion program, procedures for advancing funds from future allocations have been expanded to permit a city or county that has not requested any conversion projects in the preceding three years (1971, 1972 and 1973) to use its accumulated Rule 20A allocations, including the current year's, plus an advance of three times the current year's Rule 20A allocation. The amount advanced under this expanded procedure shall not exceed the lesser of \$250,000 or three times the current year's allocation to the city or county.

In addition, those cities and counties that have not previously requested a Rule 20A conversion project and which have an accumulated allocation of less than \$50,000, may request a specific project not exceeding an estimated cost of \$50,000.

These two procedural changes in our administration of the company's underground conversion program should encourage cities and counties with nominal Rule 20A allocations to plan ahead and utilize their respective allocations earlier than would otherwise be the case. These new procedures will also help reduce our Rule 20A accumulated annual carryovers.

Case No. 8209; Decision No. 73078  
Report of Underground Conversion Projects - 1978

Gentlemen:

The enclosed "Pacific Gas and Electric Company Report on Conversions of Overhead to Underground Electric Rule No. 20 - 1978" is submitted in conformance with Ordering Paragraph 7 of Decision No. 73078.

The report is composed of four parts and covers conversion projects started during 1978 under Sections A, B, and C of Rule 20 and other operational convenience conversions.

The total estimated amount of all conversion projects started in 1978 was \$10,555,148.

The following information is the overall status of Rule 20A conversion program in our service territory as of December 31, 1978:

A.	Projects previously reported (1968-1977)	\$ 84,742,202
B.	Current year projects started as of December 31, 1978	<u>10,555,148</u>
C.	Total projects (1968-1978)	\$ 95,297,350
D.	Funds identified for committed projects as of December 31, 1978	17,024,991
E.	Funds held in reserve for identified areas under study by active underground communities as of December 31, 1978	18,222,000

Public Utilities Commission -2-

May 8, 1979

F.	Funds held for future use by entities where no activity is underway as of December 31, 1978	<u>515,100</u>
	Total of lines C through F	\$131,059,441
G.	1968 through 1978 allocation	\$122,000,000
H.	1979 allocation	<u>14,500,000</u>
	Total through 1979	\$136,500,000

The attached glossary covers terms used in the foregoing status report and the following detailed report.

Very truly yours,

GLOSSARY FOR CONVERSIONS FROM OVERHEAD TO UNDERGROUNDA. Projects Previously Reported

Total amount of projects reported in prior years. These amounts are reported on an estimated cost basis (overhead and underground).

B. Current Year Projects

Total amount of projects where work has been started during the current year. These amounts are reported on an estimated cost basis (overhead and underground).

C. Total Projects 1968 Through 1978D. Committed Projects

Preliminary estimates for projects where the underground district has been duly established under the enabling legislation provided by the local entity.

E. Study

Preliminary estimates of projects in areas within active undergrounding political entities where study is underway or the entity intends, in consultation with the utility, to form an underground district or districts.

F. No Activity

The accumulated allocation to those political entities where no action has been taken to becoming an active undergrounding community under the definition of this rule, and in some instances where we have been informed by the political body that they do not foresee future efforts in this regard. An active undergrounding community is one which has a project in any or all categories A, B, D or E above.

Case No. 8209; Decision No. 73078  
Report of Underground Conversion Projects - 1979

Gentlemen:

The enclosed "Pacific Gas and Electric Company Report on Conversions of Overhead to Underground Electric Rule No. 20 - 1979" is submitted in conformance with Ordering Paragraph 7 of Decision No. 73078.

The report is composed of four parts and covers conversion projects started during 1979 under Sections A, B, and C of Rule 20 and other operational convenience conversions.

The total estimated amount of all conversion projects started in 1979 was \$16,466,910.

The following information is the overall status of Rule 20A conversion program in our service territory as of December 31, 1979:

A.	Projects previously reported (1968-1978)	\$ 95,286,405
B.	Current year projects started as of December 31, 1979	16,466,910
C.	Total projects (1968-1979)	\$111,753,315
D.	Funds identified for committed projects as of December 31, 1979	19,770,765

Public Utilities Commission

GLOSSARY FOR CONVERSIONS FROM OVERHEAD TO UNDERGROUND

A. Projects Previously Reported

Total amount of projects reported in prior years. These amounts are reported on an estimated cost basis (overhead and underground).

B. Current Year Projects

Total amount of projects where work has been started during the current year. These amounts are reported on an estimated cost basis (overhead and underground).

C. Total Projects 1968 Through 1979

D. Committed Projects

Preliminary estimates for projects where the underground district has been duly established under the enabling legislation provided by the local entity.

E. Study

Preliminary estimates of projects in areas within active undergrounding political entities where study is underway or the entity intends, in consultation with the utility, to form an underground district or districts.

F. No Activity

The accumulated allocation to those political entities where no action has been taken to becoming an active undergrounding community under the definition of this rule, and in some instances where we have been informed by the political body that they do not foresee future efforts in this regard. An active undergrounding community is one which has a project in any or all categories A, B, D or E above.

Case No. 8209; Decision No. 73078  
Report of Underground Conversion Projects - 1980

Gentlemen:

The enclosed "Pacific Gas and Electric Company Report on Conversions of Overhead to Underground Electric Rule No. 20 - 1980" is submitted in conformance with Ordering Paragraph 7 of Decision No. 73078.

The report is composed of four parts and covers conversion projects started during 1980 under Sections A, B, and C of Rule 20 and other operational convenience conversions.

The total estimated amount of all conversion projects started in 1980 was \$24,184,579.

The following information is the overall status of Rule 20A conversion program in our service territory as of December 31, 1980:

A.	Projects previously reported (1968-1979)	\$111,753,315
B.	Current year Rule 20A projects started as of December 31, 1980	<u>16,714,410</u>
C.	Total projects (1968-1980)	128,467,725
D.	Funds identified for committed projects as of December 31, 1980	19,279,776

Public Utilities Commission

LAW DEPARTMENT

Attention: Mr. John E. Johnson

Enclosed are revised copies of the "Annual Report of Overhead to Underground Conversion Completed in 1983," which was previously transmitted to you on April 10, 1984.

This revision corrects omissions and typing errors recently noted on the original report. The figures submitted on the 1983 Summary of Rule No. 20A Accounting are valid and remain unchanged.

I have enclosed a highlighted copy of the revised report which indicates where the corrections were made. The clean copy should be substituted for the original report.

Please accept my apologies for any inconvenience  
this revision may cause.

Very truly yours,

*Peter W. Hanschen*

San Francisco, CA 94102Attention: Mr. John E. Johnson  
Service and SafetyRe: Electric Rule No. 20  
Conversion Program Reports

Gentlemen:

Enclosed are two submissions concerning Pacific Gas and Electric Company's (PG&E) overhead to underground conversion program. The first is the annual report on Rule 20A conversions completed during 1983 and submitted in accordance with Ordering Paragraph 7 of Decision No. 73078. The second is a summary of Rule 20A accounting for the year ending December 31, 1983 that has been prepared in the format specified in Mr. John E. Johnson's letter of December 6, 1982 to Mr. D. E. Gibson of PG&E.

Actual Rule 20A expenditures, funds committed to partially completed projects and funds committed to established underground districts exceeded PG&E's allocations through 1983 by \$3 million.

Very truly yours,

PETER W. HANSCHEN

Re: Electric Rule No. 20 Underground Conversion Report (1994)

Dear Mr. Shulman:

Enclosed are the following two documents detailing the results of PG&E's 1994 overhead to underground conversion program:

1. a summary of PG&E's Rule 20A accounting through December 31, 1994, prepared in accordance with the standard format and line item definitions included with Mr. John E. Johnson's letter of December 6, 1982; and
2. PG&E's 1994 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision No. 73078.

If you have questions concerning the enclosures, please call Eric Montizambert of my staff at 973-6859.

Sincerely,

Steven L. Kline

Re: Electric Rule No. 20 1995 Underground Conversion Report

Dear Mr. Franklin,

Enclosed are two documents detailing the results of PG&amp;E's 1995 overhead to underground conversion program:

1. A summary of Rule 20A accounting through December 31, 1995, prepared in accordance with the standard format and line item definitions included with Mr. John E. Johnson's letter of December 6, 1982; and,
2. PG&E's 1995 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision number 73078.

If you have questions concerning the enclosures, please call Sabrina Miller of my staff at 973-4612.

Sincerely,

*Les Guliasi/adk*cc: De Ann Baker, County Supervisors Association of California

Re: Electric Rule No. 20  
1996 Underground Conversion Report

Dear Mr. Franklin:

Enclosed are two documents detailing the results of PG&E's 1996 overhead to underground conversion program:

1. A summary of Rule 20A accounting through December 31, 1996, prepared in accordance with the standard format and line item definitions included with Mr. John E. Johnson's letter of December 6, 1982; and
2. PG&E's 1996 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision No. 73078.

If you have questions concerning the enclosures, please call Marian Swanson of my staff at 972-5600.

Sincerely,

*Les Guliasi /gc*

Dear Mr. Franklin:

Enclosed are two documents detailing the results of PG&E's 1997 overhead to underground conversion program:

1. A summary of Rule 20A accounting through December 31, 1997, prepared in accordance with the standard format and line item definitions included with Mr. John E. Johnson's letter of December 6, 1982; and
2. PG&E's 1997 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision No. 73078.

If you have questions concerning the enclosures, please call Paul Storz of my staff at 973-1358.

Sincerely,

Enclosures

Re: Electric Rule No. 20 1998 Underground Conversion Report

Dear Mr. Franklin:

Enclosed are two documents detailing the results of PG&E's 1998 electric overhead to underground conversion program:

1. A summary of Rule 20A accounting through December 31, 1998, prepared in accordance with the standard format used previously.
2. PG&E's 1998 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision 73078.

If you have questions concerning the enclosures, please call me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Paul Stroz'. The signature is fluid and stylized, with a long horizontal stroke extending to the right.

Re: Electric Rule No. 20 - 1999 Underground Conversion Report

Dear Mr. Franklin:

Enclosed are two documents detailing the results of PG&E's 1999 overhead to underground conversion program:

1. A summary of Rule 20A accounting through December 31, 1999, prepared in accordance with the standard format and line item definitions included with Mr. John E. Johnson's letter of December 6, 1982; and
2. PG&E's 1999 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision No. 73078.

If you have questions please call me at 973-1358.

Sincerely,

A handwritten signature in black ink, appearing to read "P. Storz", with a horizontal line extending from the end of the signature.

Paul Storz

**Re: Electric Rule No. 20 - 2000 Underground Conversion Report**

Dear Mr. Franklin:

Enclosed are two documents detailing the results of PG&E's 2000 overhead to underground conversion program:

1. A summary of Rule 20A accounting through December 31, 2000, prepared in accordance with the standard format and line item definitions included with Mr. John E. Johnson's letter of December 6, 1982; and
2. PG&E's 2000 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision No. 73078

If you have questions concerning the enclosures, please call John Clarke of my staff at 973-3652.

Sincerely,

*Les Gullasi/jpc*

**Re: Electric Rule No. 20 - 2001 Underground Conversion Report**

Dear Mr. Franklin:

Enclosed are two documents detailing the results of PG&E's 2001 overhead to underground conversion program:

1. A summary of Rule 20A accounting through December 31, 2001, prepared in accordance with the standard format and line item definitions included with Mr. John E. Johnson's letter of December 6, 1982; and
2. PG&E's 2001 annual report on Rule 20 conversions completed during the past year, submitted in accordance with Ordering Paragraph 7 of Decision No. 73078

If you have questions concerning the enclosures, please call John Clarke of my staff at 973-3652.

Sincerely,

Enclosures

**Re: Correction to PG&E's 2009 Electric Rule 20 Underground Conversion Report**

Dear Mr. Clanon:

On March 30, 2010, PG&E submitted its 2009 Electric Rule 20 Underground Conversion Report. Recently, PG&E discovered that the report contained a typographical error on the page titled "Report of Rule 20A Conversions," Line #13, Total Committed. Enclosed please find the corrected page for your record.

If you have any questions, please contact Cindy Mikkelsen at (707) 577-7101.

Sincerely,

A handwritten signature in black ink, which appears to read "Megan Lawson", is positioned above the printed name.

Re: PG&E's 2010 Electric Rule 20 Underground Conversion Report

Dear Mr. Clanon:

In accordance with Ordering Paragraph 7 of Decision 73078 in Case 8209, Pacific Gas and Electric Company is submitting a full report of its overhead to underground conversion projects completed in 2010. Also included, you will find a list and description of each finished project by Rule 20A, 20B, and 20C. This report is prepared in accordance with the standard format.

If you have any questions, please contact Sindy Mikkelsen, Principal Program Manager, at (707) 577-7101.

Sincerely,

A handwritten signature in black ink, appearing to read "Erik Jacobson", is written over a light blue horizontal line.

**Subject: PG&E's 2011 Electric Rule 20 Underground Conversion Report**

Dear Mr. Clanon:

In accordance with Ordering Paragraph 7 of Decision 73078 in Case 8209, Pacific Gas and Electric Company is submitting a full report of its overhead to underground conversion projects completed in 2011. Also included, you will find a list and description of each finished project by Rule 20A, 20B, and 20C. This report is prepared in accordance with the standard format.

If you have any questions, please contact Sindy Mikkelsen, Principal Program Manager, at (707) 577-7101.

Sincerely,

/s/

Erik B. Jacobson  
Sr. Director, Regulatory Relations

**Subject: PG&E's 2014 Electric Rule 20 Underground Conversion Report**

Dear Mr. Sullivan:

In accordance with Ordering Paragraph 7 of Decision 73078 in Case 8209, Pacific Gas and Electric Company is submitting a full report of its overhead to underground conversion projects completed in 2014. Also included, you will find a list and description of each finished project by Rule 20A, 20B, and 20C. This report is prepared in accordance with the standard format.

If you have any questions, please contact Andrea Samonek, Supervisor Rule 20A Program Management, at (925) 270-2719.

Sincerely,

A handwritten signature in black ink, appearing to read "Meredith E. Allen", is written over a light gray horizontal line.

\* Line 4 total is \$4,620 lower than the Line 6 total on the 2014 Report in order to correct an error discovered on PG&E's 2003 Report. On the 2003 Report, the total reported on line 5 was \$4,620 higher than the corresponding total on the accompanying Section A detail list of projects. The two totals should have matched. On the 2015 report, PG&E is accounting for the 2003 error by reducing the total on Line 4 by \$4,620.
