Energy Division Central Files Document Coversheet

Directions: Submit all documents and submittal questions to Energy Division Central Files via email EnergyDivisionCentralFiles@cpuc.ca.gov

1. Fill out coversheet completely. Coversheet can be embedded as page 1 of the electronic compliance filing, or can be submitted as a separate document that is attached to the email that delivers the compliance filing.
2. If the coversheet is submitted as separate document, please name the coversheet file with the same document name used in your primary document (see Section A) + plus the word "cov" (for coversheet). For example, the name of the coversheet file will be something like: ***West Coast Gas Company Monthly Gas Report 201602 COV.docx***
3. If the document is confidential add CONF (for confidential). For example, the name of the coversheet file will be something like: ***West Coast Gas Company Monthly Gas Report 201602 CONF.docx*** and ***West Coast Gas Company Monthly Gas Report 201602 COV CONF.docx***
4. All documents are required to be submitted in an electronically *searchable* format.
5. Documents need to reference the reason for the mandate that ordered the filing in Section B or C. If you are unable to reference a proceeding or explain the origin of your filing, please contact Energy Division Central Files.
6. To find a proceeding number (if you only have a decision number), go to http://docs.cpuc.ca.gov/DecisionsSearchForm.aspx; enter the decision number, and the results shown include the proceeding number.

NOTE: It is Energy Division's preference to have document components combined into one PDF document with the top sheets being the cover sheet, the next an executive's letter (as applicable), and the compliance data as the third element.

Attention: Mr. William R. Johnson, Secretary

Subject: Case 8209
Analysis of Rule Number 20-B
Conversion Projects

Rule 20

Gentlemen:

Attached, in accordance with your request of June 27, 1973, is our analysis of the conversion projects completed under Section B of Rule Number 20. Although you requested data for 1972 projects, only two such projects were completed on Southern California Edison's system in 1972. We have, therefore, included in the analysis all Rule 20-B projects completed since 1968.

Applicant participation in the costs of these conversion projects averaged 43.1 per cent.

Applying the League of California Cities' suggested maximum 25 per cent participation would therefore increase Southern California Edison's expenditures by 18.1 per cent.

The analysis also shows that under Rule 15-D, applicant's participation in costs would increase on the average to 45 per cent compared to 43.1 per cent under Rule Number 20-B.

Although conversions under Rule 20-B have been minimal in Southern California Edison's service territory (13 projects in 5 years), it is doubtful, in our opinion, that applicant's costs are the sole deciding factor.

Due to the anticipated impact of Decision Number 80864 in Case Number 9364 (Scenic Highways) on our system, and the

increasing impact resulting from Rule Number 20-A allocations, we are of the opinion Rule Number 20-B in its present form adequately and equitably distributes costs related to conversion projects in this category.

Very truly yours,

Re: Case No. 8209
Decision 73078

Gentlemen:

In accordance with the above referenced decision, enclosed is the Southern California Edison Company's annual report on conversions of electrical distribution facilities from overhead to underground, as of December 31, 1973. You will find the report broken into the four categories of Rule 20A,B,C, and all other.

The following information is the overall status of the Rule 20A conversion program in our territory as of December 31, 1973:

A.	Completed Projects Previously Reported (1968-1972)	$ 18,670,674
B.	Completed Current Year Projects As Of December 31, 1973	6,212,423
C.	Total Completed Projects (1968-1973)	$ 24,893,097
D.	Funds Identified for Projects in Progress as of December 31, 1973	$ 8,276,526
E.	Funds Identified for Projects in Process as of December 31, 1973	6,946,809

F.	Funds Held in Reserve for Identified Areas Under Study by Active Underground Communities as of December 31, 1973	$ 4,882,373
G.	Funds Held for Future Use by Entities Where No Activity is Underway as of December 31, 1973	3,195
H.	1968 Through 1973 Allocation - Totals of Lines C through G above	$ 45,000,000
	1974 Allocation	$ 11,000,000

10 980

During the 1968-1973 time span, we have expended an additional amount of $41.4 million for completed distribution conversions and installations of new underground distribution plant, done solely at the discretion of the Company for operating reasons.

GLOSSARY FOR CONVERSIONS FROM OVERHEAD TO UNDERGROUND

A. Completed Projects Previously Reported

Total amount of completed jobs reported in prior years. These amounts are reported on a completed cost basis (overhead and underground).

B. Completed Current Year Projects

Total amount expended on projects where all work has been completed during the current year (includes both overhead and underground costs). Work orders have been closed, completed costs confirmed, and reaffirmation has been made to the political entity of the charges to their allocation.

C. Total Completed Projects 1968 Through 1973

D. Progress

Projects where construction work has been started in the field under a duly established underground district provided for in the entity's enabling legislation under the criteria set forth in Rule 20A.

E. Process

Projects where the underground district has been duly established under the enabling legislation provided by the local entity, but no construction work has been started. This amount is either the approved work order estimates or commitment to the local entity.

EE. Active Development

Local entity preparing maps, documents and legal description for underground district in preparation for public hearing.

F. Study

Areas within active undergrounding political entities where study is underway or the entity intends, in consultation with the utility, to form an underground district or districts. This amount is the initial estimate of the cost of these future projects.

G. No Activity

The allocation to those political entities where no consideration has been given to becoming an active undergrounding community under the definition of this rule, and in some instances where we have been informed by the political body that they do not foresee future efforts in this regard.

H. Allocations

Total funds committed by the utility for this effort. This amount is equal to the Company's total-to-date allocation, excluding the current year allocation.

1974 Allocation

This amount is the Company's total current year allocation.

OTHER TERMS

Utility cost - Net utility expense for work made necessary by the conversion after deducting credits.

Others cost - Payment made by an applicant or estimated value of facilities installed by him (cost of trenching, backfilling and repavement is not included).

Feet of Underground Installed - Trench feet required for job.

Number of Poles Removed - Net figure (removed-installed).

Feet of Overhead Line Removed - Distance between poles removed and to remaining poles.

In 1967, the Public Utilities Commission established Rule 20, which provides for the orderly conversion of overhead distribution facilities to underground systems. Part A of this rule requires each serving utility in the state to allocate funds for the conversion of existing overhead distribution facilities to underground. For the six years, 1968 through 1973, we have allocated $45,000,000 for this purpose. During the first five years of this program (1968-1972), we expended $18,600,000 on completed projects, with the remaining $26,400,000 being allocated to projects either under construction or planned for construction in accordance with the criteria set forth in the rule. Our allocation for the current year, 1973, is $9,500,000. This is approximately 1% of the gross estimated annual revenue of the Corporation for 1973.

The following is a breakdown of the six years showing percentage increase as well as percentage of adjusted gross revenue on the CPUC formula: All revenue figures are from previous year shown.

Year	Rule 20A Allocation	% Annual Increase	Total Sales of Electricity(A)	Net Revenue PUC Formula	(A) % Allocation vs. Net Rev.

3. Reopened case would impact work on private property.
4. Annual capability approximately $10 million.
5. Impact on Corporation from now opened transmission u.g. case.

File Rule 20

September 20, 1974

MR. H. P. ALLEN

SUBJECT: Underground Conversion Under Rule No. 20 A.

Public Utilities Commission Decision No. 73078, dated September 19, 1967, in Case No. 8209, ordered that each electric utility, (1) budget a portion of its revenues to be used to pay for the conversion of existing overhead distribution lines to underground, and (2) file a rule (Rule 20) setting forth the basis on which the allocated funds would be utilized.

Under the rule, the total amount budgeted for conversion is allocated to each city and county in the service area in proportion to the number of meters in the city or county. The budgeted amounts are to be used only for conversion of distribution overhead to underground and the customers are to pay the cost of converting service connection from overhead to underground.

For the period beginning in 1968 and continuing through the year 1973, Edison has expended approximately $25 million for completed projects and during the same period assigned approximately $20 million to projects which had not been completed by the end of 1973. During the year 1974, an additional $11 million was allocated to this work. By memorandum dated December 31, 1973, Mr. Marriott mentioned this as one of the items ordered by the Public Utilities Commission and requiring large expenditures.

You will remember that this is one of the matters that we discussed with the staff at our meeting on March 5, 1974, at which time the staff indicated that they might entertain a suggestion for a reduction of approximately $1 million a year in our underground conversion program. Following this meeting, we discussed the matter with Mr. Wilcox and were advised that because of previous commitments to the various communities within our service areas, we would be unable to modify our program for 1974.

I am attaching a tabulation which compares our allocation and expenditure for underground conversion with similar expenditure for San Diego Gas & Electric Company and Pacific Gas & Electric Company.

GLOSSARY FOR RULE 20A (FORMAT) ACTIVITY REPORT

A. Completed Projects Previously Reported

Total amount of completed jobs reported for cities and unincorporated areas in prior years.

B. Completed Current Year Projects

Total amounts of completed jobs, for cities and unincorporated areas, during 1974, work orders have been closed, completed costs confirmed and reaffirmation has been made to the political entity of the charges to their allocation.

C. Total of Completed Projects (1968 through 1974) for cities and unincorporated areas.

D. Progress

Projects where construction work has begun under a pre-established underground district provided for in the enabling legislation, of cities or unincorporated areas, as set forth in Rule 20A. This amount will be the approved work order (overhead and underground) estimates.

E. Committed

Projects where the underground districts have been established under the enabling legislation provided by cities or unincorporated areas, but construction work has not begun. This amount is either the approved work order estimates or the estimated commitment to the cities or unincorporated area.

F. Study

Areas within active underground cities and unincorporated areas, where study is underway or the cities intend, in consultation with the utility, to form an underground district or districts. This amount is the initial commitment toward these future projects.

G. Total of Lines C Through F for Cities and Unincorporated Areas

H. 1968 Through 1974 Allocation

This amount is the total allocations to cities and unincorporated areas for years 1968 through 1974.

Re: Case No. 8209
Decision No. 73078

Gentlemen:

In accordance with the above referenced decision, enclosed is the Southern California Edison Company's annual report on conversions of electrical distribution facilities from overhead to underground, as of December 31, 1975. The report is divided into four categories, Rule 20 A,B,C and All Other.

The following is the overall status of the Rule 20A conversion program, in our service territory, as of December 31, 1975:

A.	Completed Projects Previously Reported (1968-1974)	$32,059,450
B.	Completed Current Year Projects as of December 31, 1975	$ 8,429,746
C.	Total Completed Projects (1968-1975)	$40,489,196
D.	Funds Identified for Projects in Progress as of December 31, 1975	$14,673,319
E.	Funds Identified for Committed Projects as of December 31, 1975	$10,307,721
F.	Funds Held in Reserve for Identified Areas Under Study by Active Underground Communities as of December 31, 1975	$11,138,278

G.	Funds Held for Future Use by Entities Where No Activity is Underway as of December 31, 1975	$ 47,426
H.	Total of Lines C through G	$76,655,940*
I.	1968 Through 1975 Allocation	$67,000,000

During 1968-1975 time span, we have expended an additional amount of $50.5 million for completed distribution conversions and installations of new underground distribution plant, done solely at the discretion of the Company for operating reasons.

Very truly yours,

W. H. WARREN, JR.

SUBJECT: Revised 1976 Rule 20 Completion Report

Re: Case No. 8209
Decision No. 73078

Gentlemen:

In an effort to provide the most accurate and up-to-date information available regarding the Southern California Edison Company's participation in the conversion of electrical facilities from overhead to underground, enclosed is a revised annual report for 1976. The changes were identified through a recent in-house audit and affect the 1976 completed jobs only. Each change or addition is identified by an * and may affect either dollar and/or removal and installation data. It is to be noted that through this audit an additional element, Telecommunications cost, was identified which has not formerly been reported.

Telecommunications have been added to 1976 completed projects and the 1977 annual report, due April 1, 1978, will reflect these costs from inception through 1975.

A.	Completed Projects Previously Reported (1968-1975)	$40,489,196
*B.	Completed Current Year Projects as of December 31, 1976	$11,079,779
*C.	Total Completed Projects (1968-1976)	$51,568,975
*D.	Funds Identified for Projects in Progress as of December 31, 1976	$16,642,157
E.	Funds Identified for Committed Projects as of December 31, 1976	$ 9,886,647
F.	Funds Held in Reserve for Identified Areas Under Study by Active Underground Communities as of December 31, 1976	$ 5,490,808

G.	Funds Held for Future Use by Entities Where No Activity is Underway as of December 31, 1976	$ 1,628,686
*H.	Total of Lines C through G	$85,217,273
I.	1968 Through 1976 Allocation	$78,000,000
J.	1977 Allocation	$12,500,000

*Indicates change/addition

The revised report reflects an increase in total expenditures, under Rule 20A, of $270,144.

Very truly yours,

J. H. HUNT

Attention: Mr. H. T. Sipe

Subject: 1977 Completion Report - Rule 20

Dear Sir:

In compliance with the California Public Utilities Commission's above-referenced Decision Nos. 73078 and 85497 of Case Nos. 8209 and 9365, enclosed is the Southern California Edison Company's annual report of overhead to underground conversions of electrical distribution facilities for the report year of 1977. The report is categorized in the following manner:

PART I Rule 20, Section "A" Projects

PART II Rule 20, Section "B" Projects

PART III Rule 20, Section "C" Projects

PART IV Projects Other Than Rule 20

The following represents an overview of the status of Rule 20A conversions in Edison's service territory of the report year 1977:

A. Completed Projects Previously Reported (1968 - 1976): $ 51,297,908

B. Completed Projects of the Report Year (1977): $ 12,297,425

C. Completed Projects - Inception Through the Report Year (1968 - 1977): $ 63,595,333

*	D.	Funds Expended for Projects in Progress Through the Report Year 1977:	$ 12,113,856
*	E.	Committed Project Funds Not Expended at the End of the Report Year 1977:	$ 7,458,422
	F.	Funds Held in Reserve for Identified Areas Under Study by Active Underground Communities at the End of the Report Year 1977:	$ 9,970,439
	G.	Funds Held for Future Use by Entities Where No Activity Is Underway at the End of the Report Year 1977:	$ 5,089,722
	H.	Total of Lines C Through G:	$ 98,227,772
	I.	Allocation (1968 Through The Report Year 1977):	$ 90,500,000
	J.	Allocation for Current Year (1978):	$ 12,500,000

The Southern California Edison Company has expended an additional 53.6 million dollars from inception through the report year (1968 - 1977) for completed distribution conversions and installations of new underground distribution plant, done solely at the discretion of the Company for operating reasons.

The revised Rule 20 completion report for the report year of 1976 (August 3, 1977) referred to inclusion of an additional element, Telecommunication costs, which had not previously been reported. Those costs were added to the 1977 completed projects annual report for the report year 1976, and, as indicated in the above-referenced letter, are reflected in the completion report through the report year 1977, submitted herewith.

Very truly yours,

* In order to increase visibility, it is to be noted that "D" above is now being reported on funds expended on jobs not completed rather than the total estimated value of such job, as was the case in past years. As a result, "E" above now represents the unexpended funds on jobs in progress and funds for jobs committed, but not yet begun.

Attention: Mr. H. T. Sipe

Subject: 1978 Completion Report - Rule 20

Dear Sir:

In compliance with the California Public Utilities Commission's above-referenced Decision Nos. 73078 and 85497 of Case Nos. 8209 and 9365, enclosed is the Southern California Edison Company's annual report of overhead to underground conversions of electrical distribution facilities for the report year of 1978. The report is categorized in the following manner:

PART I Rule 20, Section "A" Projects

PART II Rule 20, Section "B" Projects

PART III Rule 20, Section "C" Projects

PART IV Projects Other Than Rule 20

Attachment A represents an overview of the status of Rule 20A conversions in Edison's service territory for the report year 1978. We have redesigned the format for the 1978 Completion Report into six sections to more thoroughly define reported funds.

While this new format follows closely our previous reports, it does differ in the visibility now given to funds advanced beyond the 1979 allocation as well as reserve funds.

Included in reported totals are funds approximating $5 million for transmission conversion.

A department audit was conducted in the latter part of 1978 and early 1979 to reconcile differences in reported expenditures for completed projects and recorded adjustments and additional expenditures coming in after a work order was closed. To assure proper and accurate reporting for the report year 1978, the subject reconciliation was used as the base for the expenditures listed on Attachment A. Additional expenditures or adjustments over the 1977 Completion Report are reflected in Attachment A, "B.5."

You will note we have allocated through 1978 $103 million. At year-end we have a total of completed, expended and committed funds in excess of $125 million.

Very truly yours,

C J Walker

Attention: Mr. H. T. Sipe

Dear Sir:

Subject: 1979 Completion Report - Rule 20

In compliance with the California Public Utilities Commission's above-referenced Decision Nos. 73078 and 85497 of Case Nos. 8209 and 9365, enclosed is the Southern California Edison Company's annual report of overhead to underground conversions of electrical distribution facilities for the report year of 1979. The report is categorized in the following manner:

PART I Rule 20, Section "A" Projects

PART II Rule 20, Section "B" Projects

PART III Rule 20, Section "C" Projects

PART IV Projects Other Than Rule 20

Attachment A represents an overview of the status of Rule 20-A conversions in Edison's service territory for the report year 1979.

Included in reported totals are funds approximately $5.5 million for transmission conversion.

You will note we have allocated through 1980, $128.8 million. At year-end we have a total of completed, expended, and committed funds in excess of $132 million.

Very truly yours,

A. J. Walker

Attention: Mr. H. T. Sipe

Dear Sir:

Subject: 1980 Completion Report - Rule 20

In compliance with the California Public Utilities Commission's above-referenced Decision Nos. 73078 and 85497 of Case Nos. 8209 and 9365, enclosed is the Southern California Edison Company's annual report of overhead to underground conversions of electrical distribution facilities for the report year of 1980. The report is categorized in the following manner:

PART I Rule 20, Section "A" Projects

PART II Rule 20, Section "B" Projects

PART III Rule 20, Section "C" Projects

PART IV Projects Other Than Rule 20

Attachment "A" represents an overview of the status of Rule 20-A conversions in Edison's service territory for the report year 1980.

Included in reported totals are funds approximating $11.6 million for transmission conversion.

Public Utilities Commission
Mr. H. T. Sipe

March 30, 1981

You will note we have allocated through 1981, $142. million. At year-end we have a total of completed, expended, and committed funds in excess of $149.9 million.

Very truly yours,

F. J. White

Attention: Mr. John E. Johnson

Dear Sir:

Subject: 1981 Completion Report - Rule 20

In compliance with the California Public Utilities Commission's above-referenced Decision Nos. 73078 and 85497 of Case Nos. 8209 and 9365, enclosed is the Southern California Edison Company's annual report of overhead to underground conversions of electrical distribution facilities for the report year of 1981. The report is categorized in the following manner:

PART I Rule 20, Section "A" Projects
PART II Rule 20, Section "B" Projects
PART III Rule 20, Section "C" Projects

Attachment "A" represents an overview of the status of Rule 20-A conversions in Edison's service territory for the report year 1981.

Included in reported totals are inception-to-date funds approximating $8.8 million for transmission conversion.

Public Utilities Commission
Mr. John E. Johnson

March 30, 1982

You will note we have allocated through 1981, $145.9 million. At year-end we have a total of completed, expended, and committed funds in excess of $148.7 million, which is $2.8 million over our allocated funds.

Very truly yours,

Edward A. Myers, Jr.

Attention: Mr. John E. Johnson

Dear Sir:

In accordance with Decision Nos. 73078 and 82 01 18 in Case 8209, Southern California Edison is now submitting its annual report on the conversion of overhead electrical facilities to underground for report year 1982.

This report has been catagorized as follows:

PART I	Rule 20, Section A Projects
PART II	Rule 20, Section B Projects
PART III	Rule 20, Section C Projects
PART IV	Company Operations Projects

Attachment "A", located at the beginning of PART I, is the dollar summary of all Rule 20A activity in the Company's service territory for the period 1968 thru 1982. As indicated by the summary entries, the Company has no net carryover, since expenditures and commitments to approved projects of $161.5 million exceed allocations of $159.2 million by $2.3 million for this reporting period.

Sincerely,

Attention: Mr. John E. Johnson

Dear Sir:

In accordance with Decision Nos. 73078 and 82 01 18 in Case 8209, Southern California Edison is now submitting its annual report on the conversion of overhead electrical facilities to underground for report year 1983.

This report has been categorized as follows:

PART I	Rule 20, Section A Projects
PART II	Rule 20, Section B Projects
PART III	Rule 20, Section C Projects
PART IV	Company Operations Projects

Attachment "A", located at the beginning of PART I, is the dollar summary of all Rule 20A activity in the Company's service territory for the period 1968 thru 1983. As indicated by the summary, expenditures and commitments to approved projects total $176,976,481, whereas our allocation totals $177,885,000. This leaves a net carryover of $908,519 or 0.5% of total allocations for this reporting period. However, when the additional commitments of line 14 are considered, there is no net carryover since the expenditures and commitments exceed the total allocation.

Sincerely,

Robert Kendall

Attention: Mr. John E. Johnson

Dear Sir:

In accordance with Decision Nos. 73078 and 82 01 18 in Case 8209, Southern California Edison is now submitting its annual report on the conversion of overhead electrical facilities to underground for report year 1984.

This report has been categorized as follows:

PART I	Rule 20, Section A Projects
PART II	Rule 20, Section B Projects
PART III	Rule 20, Section C Projects
PART IV	Company Operations Projects

Attachment "A", located at the beginning of PART I, is the dollar summary of all Rule 20A activity in the Company's service territory for the period 1968 thru 1984. As indicated by the summary, expenditures and commitments to approved projects total $196,384,438, whereas our allocation totals $196,985,000. This leaves a net carryover of $600,562 or 0.3% of total allocations for this reporting period. However, when the additional commitments of line 14 are considered, there is no net carryover since the expenditures and commitments exceed the total allocation.

Sincerely,

JKE:eh

Attention: Mr. John E. Johnson

Dear Sir:

In accordance with Decision Nos. 73078 and 82 01 18 in Case 8209, Southern California Edison is now submitting its annual report on the conversion of overhead electrical facilities to underground for report year 1985.

This report has been categorized as follows:

PART I	Rule 20, Section A Projects
PART II	Rule 20, Section B Projects
PART III	Rule 20, Section C Projects

Attachment "A", located at the beginning of PART I, is the dollar summary of all Rule 20A activity in the Company's service territory for the period 1968 thru 1985. As indicated by the summary, Edison currently has no net carryover since expenditures and commitments to approved projects ($228.2 million) exceed allocations ($222.5 million) by $5.7 million for this reporting period.

San Francisco, CA 94102

Dear Mr. Copeland:

Pursuant to Decisions 73078 and 82-01-18 in Case 8209, Southern California Edison is submitting its 1986 annual completion report for the conversion of overhead electrical facilities to undergound. This report is categorized as follows:

Attachment "A"	Report of Rule 20A Conversions
Part I	1986 Rule 20A Completed Projects
Part II	1986 Rule 20B Completed Projects
Part III	1986 Rule 20C Completed Projects
Part IV	1986 Company Operations Projects

Attachment "A" is a summary for years 1968 through 1986. Edison has allocated $250.5 million to the Rule 20A Program through 1986. By 1986 year-end Edison has expended $214.4 million, leaving an unexpended balance of $36.1 million. However, we currently have $58.5 million in firm commitments reserved for either partially completed jobs or approved future projects. Therefore, Edison currently has no net Rule 20A carryover since expenditures and firm commitments exceed cumulative allocations by $22.4 million.

With the cooperative efforts of the cities and counties in our service territory, Edison is actively involved in the Rule 20A conversion program. Edison will continue to review the level of commitment to Rule 20A annually as we develop future capital budgets.

Sincerely,

GLM:eh

Dear Mr. Copeland:

Pursuant to Decisions 73078 and 82-01-18 in Case 8209, Southern California Edison is submitting its 1987 annual completion report for the conversion of overhead electrical facilities to underground. This report is categorized as follows:

Attachment "A"	Report of Rule 20A Conversions
Part I	1987 Rule 20A Completed Projects
Part II	1987 Rule 20B Completed Projects
Part III	1987 Rule 20C Completed Projects
Part IV	1987 Company Operations Projects

Attachment "A" is a summary for years 1968 through 1987. Edison has allocated $280.5 million to the Rule 20A Program through 1987. By 1987 year-end Edison has expended $255.2 million, leaving an unexpended balance of $25.3 million. However, we currently have $74.6 million in firm commitments reserved for either partially completed jobs or approved future projects. Therefore, Edison currently has no net Rule 20A carryover since expenditures and firm commitments exceed cumulative allocations by $49.3 million.

With the cooperative efforts of the cities and counties in our service territory, Edison is actively involved in the Rule 20A conversion program. Edison will continue to review the level of commitment to Rule 20A annually as we develop future capital budgets.

Mr. Vladislav A. Bevc
Supervisor of Programs and Projects
Energy Branch - CACD
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94102

Dear Mr. Bevc:

Pursuant to Decisions 73078 and 82-01-18 in Case 8209, Southern California Edison is submitting its 1988 annual completion report of the underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20-A Conversions
Exhibit B	1988 Rule 20, Section A Projects
Exhibit C	1988 Rule 20, Section B Projects
Exhibit D	1988 Rule 20, Section C Projects
Exhibit E	1988 Company Operating Projects

Exhibit A is a summary of Rule 20-A activity for the years 1968 through 1988. Through 1988, Edison's allocations to the Rule 20-A program were $312 million with expenditures of $290 million, leaving an unexpended balance of $22 million. Exhibit B details Rule 20-A expenditures by project for those work orders reported complete in 1988. Exhibits C through E detail additional expenditures for other overhead to underground conversions reported complete in 1988 as Rule 20-B, Rule 20-C, and company operating projects.

Sincerely,

Mr. Douglas M. Long
Program Manager Chief, Energy Branch
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94102

Dear Mr. Long:

Pursuant to Decisions 73078 and 82-01-18 in Case 8209, Southern California Edison is submitting its 1989 annual completion report of the underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20-A Conversions
Exhibit B	1989 Rule 20, Section A Projects
Exhibit C	1989 Rule 20, Section B Projects
Exhibit D	1989 Rule 20, Section C Projects

Exhibit A is a summary of Rule 20-A activity for the years 1968 through 1989. Through 1989, Edison's allocations to the Rule 20-A program have totaled $345 million with expenditures of $319 million, leaving an unexpended balance of $26 million. Exhibit B details Rule 20-A expenditures by project for those work orders reported complete in 1989. Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1989 as Rule 20-B and Rule 20-C projects.

Sincerely,

MR. DOUGLAS M. LONG
CHIEF, ENERGY BRANCH
CALIFORNIA PUBLIC UTILITIES COMMISSION
505 VAN NESS AVENUE
SAN FRANCISCO, CA 94102

Dear Mr. Long;

Pursuant to Decision 73078 and 82-01-18 in Case 8209, Southern California Edison is submitting its 1990 annual completion report of the underground conversion of overhead electrical facilities. This report consist of the following attachments:

Exhibit A	Report of Rule 20-A Conversions
Exhibit B	1990 Rule 20, Section A Projects
Exhibit C	1990 Rule 20, Section B Projects
Exhibit D	1990 Rule 20, Section C Projects
Exhibit E	1990 Company Operating Conversions

As shown in Exhibit A, Edison's Allocations to the Rule 20-A program through 1990 were $381 million with expenditures of $346 million, leaving an unexpended balance of $35 million. Exhibit B details Rule 20-A expenditures by project for those work orders reported complete in 1990 (line 5).

Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1990 as Rule 20-B and Rule 20-C. Conversions undertaken for operating reasons that were reported complete in 1990 are listed by project on Exhibit E.

Sincerely,

Margo Wells

Mr. Douglas M. Long
Chief, Energy Branch
California Public Utilities Commission
505 Van Ness Avenue
San Francisco, CA 94102

Dear Mr. Long:

Pursuant to Decision 73078 and 82-01-18 in Case 8209, Southern California Edison is submitting its 1991 annual completion report of the underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20-A Conversions
Exhibit B	1991 Rule 20, Section A Projects
Exhibit C	1991 Rule 20, Section B Projects
Exhibit D	1991 Rule 20, Section C Projects
Exhibit E	1991 Company Operating Conversions

As shown in Exhibit A, Edison's allocations to the Rule 20-A program through 1991 were $421.7 million with expenditures of $374 million, leaving an unexpended balance of $47.4 million. Exhibit B details Rule 20-A expenditures by project for those work orders reported complete in 1991 (line 5).

Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1991 as Rule 20-B and Rule 20-C. Conversions undertaken for operating reasons that were reported complete in 1991 are listed by project on Exhibit E.

Sincerely,

Margo Wells

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

Pursuant to Decisions 73078 and 82-01-18 in Case 8209, Southern California Edison is submitting its 1992 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1992 Rule 20, Section A Projects
Exhibit C	1992 Rule 20, Section B Projects
Exhibit D	1992 Rule 20, Section C Projects
Exhibit E	1992 Company Operating Conversions

As shown in Exhibit A, Edison's Allocations to the Rule 20.A program through 1992 were $457.7 million with expenditures of $399.2 million, leaving an unexpended balance of $58.5 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1992 (line 5).

Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1992 as Rule 20.B and Rule 20.C. Conversions undertaken for operating reasons that were reported complete in 1992 are listed by project on Exhibit E.

Sincerely,

Margo Wells

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

In compliance with Decisions 73078 and 82-01-18 in Case 8209, Edison is submitting its 1993 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1993 Rule 20.A Projects
Exhibit C	1993 Rule 20.B Projects
Exhibit D	1993 Rule 20.C Projects
Exhibit E	1993 Company Operating Conversions

As shown in Exhibit A, Edison's allocations to the Rule 20.A program through 1993 were $497.6 million with expenditures of $434.7 million, leaving an unexpended balance of $62.9 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1993 (line 5).

Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1993 as Rule 20.B and Rule 20.C. Conversions undertaken for operating reasons that were reported complete in 1993 are listed by project in Exhibit E.

Sincerely,

Margo Wells

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

In compliance with Decisions 73078 and 82-01-18 in Case 8209, Edison is submitting its 1994 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1994 Rule 20.A Projects
Exhibit C	1994 Rule 20.B Projects
Exhibit D	1994 Rule 20.C Projects

As shown in Exhibit A, Edison's allocations to the Rule 20.A program through 1994 were $538.4 million with expenditures of $475.3 million, leaving an unexpended balance of $63.2 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1994 (line 5).

Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1994 as Rule 20.B and Rule 20.C.

Sincerely,

Margo Wells

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

In compliance with Decisions 73078 and 82-01-18 in Case 8209, Edison is submitting its 1995 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1995 Rule 20.A Projects
Exhibit C	1995 Rule 20.B Projects
Exhibit D	1995 Rule 20.C Projects

As shown in Exhibit A, Edison's allocations to the Rule 20.A program through 1995 were $580.6 million with expenditures of $513.0 million, leaving an unexpended balance of $67.6 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1995 (line 5).

Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1995 as Rule 20.B and Rule 20.C.

Sincerely,

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

In compliance with Decisions 73078 and 82-01-18 in Case 8209, Edison is submitting its 1996 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1996 Rule 20.A Projects
Exhibit C	1996 Rule 20.B Projects
Exhibit D	1996 Rule 20.C Projects

As shown in Exhibit A, Edison's allocations to the Rule 20.A program through 1996 were $623.9 million with expenditures of $538.7 million, leaving an unexpended balance of $85.2 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1996.

Exhibits C and D detail additional expenditures for other overhead to underground conversions reported complete in 1996 as Rule 20.B and Rule 20.C. Blank areas in the "Completed Costs" section of Exhibits A-D indicate work orders which were not completed and closed in 1996.

Sincerely,

Gonsalves
or Pete Goeddel

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 1997 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1997 Rule 20.A Projects
Exhibit C	1997 Rule 20.B Projects

As shown in Exhibit A, SCE's allocations to the Rule 20.A program through 1997 were $668.1 million with expenditures of $567.7 million, leaving an unexpended balance of $100.4 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1997. Exhibit C details expenditures for other overhead to underground conversions reported complete in 1997 as Rule 20.B.

If you have any questions, please contact Dara Morgan at (626) 302-2086.

Sincerely,

Akbar Jazayeri

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 1998 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1998 Rule 20.A Projects
Exhibit C	1998 Rule 20.B Projects

As shown in Exhibit A, SCE's allocations to the Rule 20.A program through 1998 were $712.8 million with expenditures of $596.2 million, leaving an unexpended balance of $116.6 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1998. Exhibit C details expenditures for other overhead to underground conversions reported complete in 1998 as Rule 20.B.

Subject: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Coughlan:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 1999 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A	Report of Rule 20.A Conversions
Exhibit B	1999 Rule 20.A Projects
Exhibit C	1999 Rule 20.B Projects
Exhibit D	1999 Rule 20.C Projects
Exhibit E	1999 Company Operating Projects

As shown in Exhibit A, SCE's allocations to the Rule 20.A program through 1999 were $758.1 million with expenditures of $635.8 million, leaving an unexpended balance of $122.3 million. Exhibit B details Rule 20.A expenditures by project for those work orders reported complete in 1999. Exhibits C and D detail expenditures for other overhead to underground conversions reported complete in 1999 as Rule 20.B and Rule 20.C., respectively. Exhibit E details conversions undertaken for operating reasons that were reported complete in 1999.

If you have any questions, please contact Dara Morgan at (626) 302-2086.

Sincerely,

Akbar Jazayeri

Exhibit B Rule 20A Completed Costs Notes

1. Unincorporated Riverside: Cherry Valley Project reflects credit amount in order to record a joint pole payment received from the telephone company and other joint owners.
2. Unincorporated San Bernardino: 40th Street Project reflects a credit to record costs applied to the City of San Bernardino.
3. Ventura: Thompson Project reflects credit amount in order to record a joint pole payment received from the telephone company and other joint owners.

---

1 An internal review of completed conversion projects since 1968 revealed that expenditures for completed transmission projects has been misreported. CPUC Case #9365 resulted in the modification that included transmission lines under the Rule 20A tariff. This cumulative expenditure is shown as "memo information" only on line 17 of Exhibit A and it was understated by $33,457,283, as these cumulative totals had not been carried forward in the earlier reports. The total expended amount (line 8) of the report is correct as it includes all Rule 20A conversion costs. Only the transmission costs were misreported in the Memo Information section of the report (Exhibit A).

RE: Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Ms. Salinas:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 2003 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A - Report of Rule 20A Conversions
Exhibit B - 2003 Rule 20A Projects
Exhibit C - 2003 Rule 20B Projects
Exhibit D - 2003 Rule 20C Projects
Exhibit E - 2003 Company Operating Projects

In this years report, SCE has re-worded some selected definitions in the ***Exhibit A Summary*** attachment to more precisely describe the financial information being reported. Therefore, you will find that Lines, 5, 11, and 12 definitions were revised to reflect the currently used accounting terminology which is intended to provide a better description of the reported financial information. Also, line 9 and line 15 contain minor text change revisions. These revisions do not change the substance of the information that SCE is reporting, which is consistent with such information provided in previous reports.

If you have any questions, please contact Lisa Ornelas (626) 302-3981.

Sincerely,

Craig Keen

RE: 2005 Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Ms. Salinas:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 2005 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A - Report of Rule 20A Conversions
Exhibit B - 2005 Rule 20A Projects
Exhibit C - 2005 Rule 20B Projects
Exhibit D - 2005 Rule 20C Projects
Exhibit E - 2005 Company Operating Projects

Beginning with this report, for Rule 20B and 20C projects, SCE has included the value associated with deeded structures in the column labeled "Others" and customer cash payments as a reduction to the utility's net cost. In the past, the value of deeded structures was not reflected in the report as part of the contribution from others. Also, "Utility" costs did not correctly reflect customer cash payments as a reduction in utility costs.

If you have any questions, please contact Lisa Ornelas (626) 302-3981.

Sincerely,

Lisa Vellanoweth

RE: RESUBMITTING - 2007 Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Lewis:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is resubmitting its 2007 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A – Report of Rule 20A conversions
Exhibit B – 2007 Rule 20A Projects
Exhibit C – 2007 Rule 20B Projects
Exhibit D – 2007 Rule 20C Projects
Exhibit E – 2007 Company Operating Projects

In response to an Energy Division 7/22/08 inquiry, SCE conducted a review of SCE's 2007 Annual Report of Overhead to Underground Conversion (the "2007 Completion Report") and determined that incorrect dollar amounts were reported under the "Utility" column for both Rule 20B and Rule 20C projects. In addition, a minor adjustment was made to the "Others" column for Rule 20C projects as explained below.

The "Utility" Column.

SCE's "Utility" column should reflect SCE's net contribution towards the projects reported as complete. SCE's 2007 Completion Report inadvertently reports incorrect amounts under the "Utility" column. Instead of reflecting SCE's net contribution, the "Utility" column reflected an amount which represented the total SCE and applicant contribution, minus the value of the applicants' deeded facilities [(SCE + Applicant) – Value of Applicants' Deeded Facilities)]. SCE's net contribution amounts are equal to $22,663,527 (not $46,063,627) for Rule 20B projects and $3,252,827 (not $10,962,354) for Rule 20C projects.

The "Others" Column.

The "Others" column in the 2007 Completion Report correctly reflects the applicant contributions toward Rule 20B and Rule 20C projects, with a minor exception. After the 2007 Completion Report was filed, an adjustment was made to the Rancho Cucamonga Etiwanda/Candlewood Rule 20C project in the amount of $5,982 to correct a spreadsheet error. The corrected value for Rule 20C applicant contributions should be $9,989,689, which is a reduction of $5,982 to the amount originally reported in the 2007 Completion Report. The revised 2007 Completion Report will report the corrected applicant net contributions amount for Rule 20C projects.

Corrected Contribution Percentages.

Rule 20B Projects

Utility Contribution	Others Contribution	Total Project Cost
$22,663,527	$32,914,414	$55,577,940

Conclusion: 41% contribution by SCE and 59% contribution by applicants for completed Rule 20B projects in 2007.

Rule 20C Projects

Utility Contribution	Others Contribution	Total Project Cost
$3,252,827	$9,989,689	$13,242,516

Conclusion: 25% contribution by SCE and 75% contribution by applicants for completed Rule 20C projects in 2007.

Please replace the 2007 Completion Report previously submitted on March 29, 2008 with the attached report.

If you have any questions, please contact Prabha Cadambi (626) 302-8177.

Sincerely,

Lisa Vellanoweth

RE: 2008 Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Clanon:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 2008 annual completion report for underground conversion of overhead electrical facilities. The decisions require that SCE submit annually, on March 31, the annual completion report. However, SCE has delayed the submission of this report until April 15, 2009. SCE submitted a letter, attached hereto, requesting this delay and stating the reason for such delay to the California Public Utilities Commission (Commission) on March, 24, 2009. In subsequent conversations, the Commission staff has indicated their approval for SCE to submit the report on the requested date. This report consists of the following attachments:

Exhibit A – Report of Rule 20A conversions
Exhibit B – 2008 Rule 20A Projects
Exhibit C – 2008 Rule 20B Projects
Exhibit D – 2008 Rule 20C Projects
Exhibit E – 2008 Company Operating Projects

If you have any questions, please contact Ingrid Vigh (626) 302-7383.

Sincerely,

Lisa Vellanoweth

Energy Division Central Files Document Coversheet

Directions: Submit all documents and submittal questions to Energy Division Central Files via email EnergyDivisionCentralFiles@cpuc.ca.gov

1. Fill out coversheet completely. Coversheet can be embedded as page 1 of the electronic compliance filing, or can be submitted as a separate document that is attached to the email that delivers the compliance filing.
2. If the coversheet is submitted as separate document, please name the coversheet file with the same document name used in your primary document (see Section A) + plus the word "cov" (for coversheet). For example, the name of the coversheet file will be something like: ***West Coast Gas Company Monthly Gas Report 201602 COV.docx***
3. If the document is confidential add CONF (for confidential). For example, the name of the coversheet file will be something like: ***West Coast Gas Company Monthly Gas Report 201602 CONF.docx*** and ***West Coast Gas Company Monthly Gas Report 201602 COV CONF.docx***
4. All documents are required to be submitted in an electronically *searchable* format.
5. Documents need to reference the reason for the mandate that ordered the filing in Section B or C. If you are unable to reference a proceeding or explain the origin of your filing, please contact Energy Division Central Files.
6. To find a proceeding number (if you only have a decision number), go to http://docs.cpuc.ca.gov/DecisionsSearchForm.aspx; enter the decision number, and the results shown include the proceeding number.

NOTE: It is Energy Division's preference to have document components combined into one PDF document with the top sheets being the cover sheet, the next an executive's letter (as applicable), and the compliance data as the third element.

RE: 2005 Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Ms. Salinas:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 2005 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A - Report of Rule 20A Conversions
Exhibit B - 2005 Rule 20A Projects
Exhibit C - 2005 Rule 20B Projects
Exhibit D - 2005 Rule 20C Projects
Exhibit E - 2005 Company Operating Projects

Beginning with this report, for Rule 20B and 20C projects, SCE has included the value associated with deeded structures in the column labeled "Others" and customer cash payments as a reduction to the utility's net cost. In the past, the value of deeded structures was not reflected in the report as part of the contribution from others. Also, "Utility" costs did not correctly reflect customer cash payments as a reduction in utility costs.

If you have any questions, please contact Lisa Ornelas (626) 302-3981.

Sincerely,

Lisa Vellanoweth

RE: RESUBMITTING - 2007 Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Lewis:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is resubmitting its 2007 annual completion report for underground conversion of overhead electrical facilities. This report consists of the following attachments:

Exhibit A – Report of Rule 20A conversions
Exhibit B – 2007 Rule 20A Projects
Exhibit C – 2007 Rule 20B Projects
Exhibit D – 2007 Rule 20C Projects
Exhibit E – 2007 Company Operating Projects

In response to an Energy Division 7/22/08 inquiry, SCE conducted a review of SCE's 2007 Annual Report of Overhead to Underground Conversion (the "2007 Completion Report") and determined that incorrect dollar amounts were reported under the "Utility" column for both Rule 20B and Rule 20C projects. In addition, a minor adjustment was made to the "Others" column for Rule 20C projects as explained below.

The "Utility" Column.

SCE's "Utility" column should reflect SCE's net contribution towards the projects reported as complete. SCE's 2007 Completion Report inadvertently reports incorrect amounts under the "Utility" column. Instead of reflecting SCE's net contribution, the "Utility" column reflected an amount which represented the total SCE and applicant contribution, minus the value of the applicants' deeded facilities [(SCE + Applicant) – Value of Applicants' Deeded Facilities)]. SCE's net contribution amounts are equal to $22,663,527 (not $46,063,627) for Rule 20B projects and $3,252,827 (not $10,962,354) for Rule 20C projects.

The "Others" Column.

The "Others" column in the 2007 Completion Report correctly reflects the applicant contributions toward Rule 20B and Rule 20C projects, with a minor exception. After the 2007 Completion Report was filed, an adjustment was made to the Rancho Cucamonga Etiwanda/Candlewood Rule 20C project in the amount of $5,982 to correct a spreadsheet error. The corrected value for Rule 20C applicant contributions should be $9,989,689, which is a reduction of $5,982 to the amount originally reported in the 2007 Completion Report. The revised 2007 Completion Report will report the corrected applicant net contributions amount for Rule 20C projects.

Corrected Contribution Percentages.

Rule 20B Projects

Utility Contribution	Others Contribution	Total Project Cost
$22,663,527	$32,914,414	$55,577,940

Conclusion: 41% contribution by SCE and 59% contribution by applicants for completed Rule 20B projects in 2007.

Rule 20C Projects

Utility Contribution	Others Contribution	Total Project Cost
$3,252,827	$9,989,689	$13,242,516

Conclusion: 25% contribution by SCE and 75% contribution by applicants for completed Rule 20C projects in 2007.

Please replace the 2007 Completion Report previously submitted on March 29, 2008 with the attached report.

If you have any questions, please contact Prabha Cadambi (626) 302-8177.

Sincerely,

Lisa Vellanoweth

RE: 2008 Completion Report for Underground Conversion of Overhead Electrical Facilities

Dear Mr. Clanon:

In compliance with Decision Nos. 73078 and 82-01-18 in Case 8209, SCE is submitting its 2008 annual completion report for underground conversion of overhead electrical facilities. The decisions require that SCE submit annually, on March 31, the annual completion report. However, SCE has delayed the submission of this report until April 15, 2009. SCE submitted a letter, attached hereto, requesting this delay and stating the reason for such delay to the California Public Utilities Commission (Commission) on March, 24, 2009. In subsequent conversations, the Commission staff has indicated their approval for SCE to submit the report on the requested date. This report consists of the following attachments:

Exhibit A – Report of Rule 20A conversions
Exhibit B – 2008 Rule 20A Projects
Exhibit C – 2008 Rule 20B Projects
Exhibit D – 2008 Rule 20C Projects
Exhibit E – 2008 Company Operating Projects

If you have any questions, please contact Ingrid Vigh (626) 302-7383.

Sincerely,

Lisa Vellanoweth
