SUBJECT: Order authorizing contract between Pacific Gas and Electric Company and Butte Creek Rock Company covering the installation of special overhead electric facilities.

WHEREAS: PACIFIC GAS AND ELECTRIC COMPANY (PG&E) by Advice Letter No. 614-E filed September 20, 1977, requests authority under Section 10A of General Order No. 96-A to carry out the terms and conditions of an agreement dated August 2, 1977, with Butte Creek Rock Company covering the installation of a second overhead service and associated equipment additional to facilities which PG&E would normally supply.

Butte Creek will pay PG&E an advance of \$1,960 which is the estimated additional cost of the special facilities.

Butte Creek will pay the one time nonrefundable sum of \$61.00 to rearrange certain existing facilities to accommodate installation of the special facilities.

Butte Creek will pay to PG&E \$19.60 monthly for the cost of ownership which is 1% of the advance.

Upon discontinuance of the use of the special facilities, PG&E will refund to Butte Creek the difference, if any, between its installation and removal costs, less salvage, and the advance.

It is found that the provisions of this agreement are consistent with procedures for installation of special facilities, are not discriminatory, do not result in an unreasonable burden on other ratepayers, and are just and reasonable; therefore, good cause appearing: appearing:

IT IS ORDERED that authority is granted Pacific Gas and Electric Company under Section 532 of the Public Utilities Code to carry out the terms and conditions of said agreement effective October 20, 1977. The effective date of this resolution is the date hereof.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular conference of the Public Utilities Commission of the State of California, held on the 18th day of October, 1977, the following Commissioners voting favorably thereon:
