RESOLUTION

ORDER AUTHORIZING SAN DIEGO GAS AND ELECTRIC COMPANY
(SDG&E) TO REVISE ITS RULE NO. 21 CUSTOMER-OWNED-
GENERATION -- QUALIFIED FACILITIES

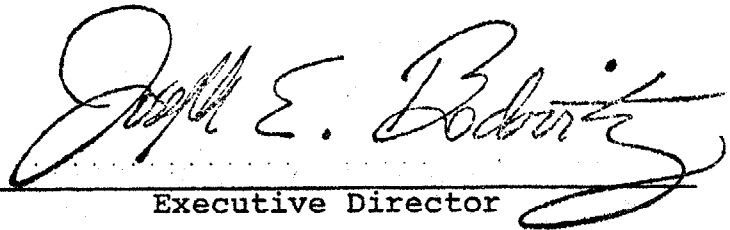

By Advice Letter 632-E, filed January 16, 1985, SDG&E requests authority to revise Rule No. 21, Customer-Owned Generation -- Qualified Facilities as it applies to electric service, and as set forth on Cal. P.U.C. Sheets 5370-E through 5373-E, inclusive. The facts are as follows:

1. -The proposed revision of Electric Rule 11, Customer-Owned Generation -- Qualified Facilities, is to add language to Section J.1.d. of Rule 21 which states that where a customer's operating facility is less than 100 kW and the customer does not require that power delivered to the utility be measured on a time-of-delivery basis, the utility will bear the cost of installing, operating and maintaining one standard watt-hour meter to measure power flows from the customer to the utility. The customer shall provide and install necessary meter sockets and enclosure equipment at or near the point of delivery.
2. The utility states that a standard watt-hour meter costs approximately \$300-500 to install at a residence and up to \$1000 for a larger QF installation, and it is estimated that 15 to 20 new customer-owned generating facilities will be added to SDG&E's system over the next 12 months.
3. The purpose of this revision is to change SDG&E's tariff to conform with procedures of other major California utilities and to encourage the installation of generation facilities by small power producers.
4. All other provisions for customer-owned operation will continue in effect as presently filed.
5. This filing will not increase any rate or charge, conflict with other schedules or rules, nor cause the withdrawal of service.
6. Public notification of this filing has been made by mailing copies of the advice letter to other utilities and to governmental agencies. The Commission staff has received no protests in this matter.
7. The staff has reviewed this filing and recommends its approval.

THEREFORE:

1. San Diego Gas and Electric Company is authorized under Sections 491 and 779 of the Public Utilities Code to place Advice Letter 632-E and accompanying tariff sheets into effect today.
2. The above advice letter and tariff sheets shall all be marked to show that they were authorized for filing by Resolution E-2028. This resolution is effective today.

I certify that this resolution was adopted by the Public Utilities Commission at its regular meeting on February 21, 1985. The following Commissioners approved it:

Executive Director

DONALD VIAL
President
VICTOR CALVO
WILLIAM T. BAGLEY
FREDERICK R. DUDA
Commissioners

I abstain.

FRISCILLA C. GREW, Commissioner
