SUBJECT: Request to Provide Additional Gas Service by
Southern California Gas Company

WHEREAS: SOUTHERN CALIFORNIA GAS COMPANY, by Advice Letter No. 929, filed July 14, 1975, having requested Commission approval under Decision No. 83819, to provide additional service to the University of Southern California, and

WHEREAS: The customer states that the amount of additional gas needed is 60 Mcfd for a total demand of 510 Mcfd, and

WHEREAS: The University of Southern California will use this additional gas for boiler fuel, and

WHEREAS: Boiler fuel requirements should be met with alternate fuels, and

WHEREAS: Proposed end-use priorities, coupled with projected gas supplies, would not provide natural gas boiler fuel after 1975, thus making present expenses for such facilities impractical, and

WHEREAS: The gas supply situation in California is critical and to provide this additional service will reduce service to other similar customers on the utilities' system, and

WHEREAS: San Diego Gas and Electric Company has requested public hearings on the above advice letter, and

WHEREAS: The issues San Diego Gas and Electric Company is attempting to raise are currently under consideration in a formal rate proceeding before this Commission; therefore, good cause appearing,

IT IS ORDERED that San Diego Gas and Electric Company's request for public hearings on this matter be denied.

IT IS FURTHER ORDERED that Commission approval will be denied to Southern California Gas Company to provide the additional service to the University of Southern California.

IT IS FURTHER ORDERED that the above filing be marked to show that it was rejected under Resolution of the Public Utilities Commission of the State of California No. G-1787.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular conference of the Public Utilities Commission of the State of California, held on the 10th day of September, 1975, the following Commissioners voting favorably thereon:
