RESOLUTION NO. G-1811

UTILITIES DIVISION

BRANCH/SECTION: Gas

DATE: October 21, 1975

RESOLUTION

**SUBJECT:** Request to Install Additional Facilities by Southern California Gas Company

WHEREAS: SOUTHERN CALIFORNIA GAS COMPANY, by Advice Letter No. 949, filed September 22, 1975, having requested Commission approval under Section 532 of the Public Utilities Code and under Section X.A. of General Order No. 96-A to install additional facilities to increase the hourly rate of flow of firm gas service to California Rotogravure Division of Alco Gravure, Inc., at customer's facilities in Woodland Hills, and

WHEREAS: The utility initially filed Advice Letter No. 925 on July 1, 1975, under the provisions of Decision No. 83819 to provide additional interruptible natural gas service to California Rotogravure in excess of 200 Mcfd, and

WHEREAS: Such request was denied by Commission Resolution No. G-1783 on July 22, 1975, and

WHEREAS: Southern California is currently delivering 3,300 Mcf per month, or 150 Mcfd, on a firm schedule, which was not affected by Resolution No. G-1783, and

WHEREAS: Rotogravure has recently installed new, more efficient boilers that will not operate at the current hourly rate of flow, and

WHEREAS: By this filing, the utility has agreed to install larger facilities to provide the necessary hourly rate of flow to operate customer's new boilers and the customer agrees to pay all costs for such new facilities and also agrees to limit gas use to the historic peak volume of 3,300 Mcf per month, and

WHEREAS: We find that this agreement is acceptable as long as the customer does not exceed the present monthly volume of gas service, therefore; good cause appearing,

IT IS ORDERED that authority be granted under Section 532 of the Public Utilities Code and under Section X.A. of General Order No. 96-A for Southern California Gas Company to install the additional facilities to California Rotogravure.

IT IS FURTHER ORDERED that both the utility and the customer be notified that the Commission expects strict adherence to the 3,300 Mcf per month limitation of this agreement.

IT IS FURTHER ORDERED that the above advice letter and agreement be marked to show that they were authorized under Resolution of the Public Utilities Commission of the State of California No. G-1811.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular conference of the Public Utilities Commission of the State of California, held on the 21st day of October, 1975, the following Commissioners voting favorably thereon:
