SUBJECT: Request to Provide Additional Natural Gas Service
In Excess of 50 Mcfd

WHEREAS: PACIFIC GAS & ELECTRIC COMPANY, by Advice Letter No. 909-G, filed May 24, 1977, has requested Commission approval under the provisions of Decision No. 85189, to supply additional natural gas in excess of 50 Mcfd to Cal-Gem Raisins, Inc. (Applicant) in Madera, Madera County under the following circumstances:

1. Applicant's request is for an additional daily consumption of 605 Mcf, raising his existing average daily consumption from 1,037 Mcf to 1,642 Mcf.
2. Applicant will use this additional gas to operate 6 new direct-fired raisin drying tunnels.
3. Fuel oil cannot be used in direct-firing of burners as the potential of odor and/or taste contamination of the fruit cannot be tolerated.
4. There are no solar dehydrators available at this time.
5. We find that this request should be granted and that the Applicant should be classified in Priority 2A under the end-use criteria adopted in Decision No. 86189; therefore, good cause appearing,

IT IS ORDERED that:

1. Authority be granted under the provisions of Decision No. 85189 for PG&E to supply the requested additional service to Cal-Gem Raisins, Inc. effective June 23, 1977.
2. The above advice letter and contract be marked to show that they were accepted for filing under Resolution of the State of California No. G-2097. The effective date of this Resolution is the date hereof.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular conference of the Public Utilities Commission of the State of California, held on the 21st day of June, 1977, the following Commissioners voting favorably thereon:
