RESOLUTION NO. G-2138

UTILITIES DIVISION
BRANCH/SECTION: Gas
DATE: September 7, 1977

RESOLUTION

SUBJECT: Request to Provide Additional Natural Gas Service in
Excess of 50 Mcfd

WHEREAS: SAN DIEGO GAS & ELECTRIC COMPANY, by Advice Letter No. 394-G, filed August 12, 1977, has requested Commission approval under the provisions of Decision No. 85189, to supply additional natural gas in excess of 50 Mcfd to Sony Corporation (Applicant) in San Diego, San Diego County under the following circumstances:

1. Applicant's request is for an additional average daily consumption of 282 Mcf, raising his existing average daily consumption from 65 Mcf to 347 Mcf.
2. Applicant will use this additional gas to operate glass ovens at elevated and uniform temperatures in the manufacture of television sets.
3. Fuel oil cannot be used in this operation since it requires a controlled atmosphere and precise temperature control.
4. The process is not adaptable to solar heating due to the 24 hour high temperature requirements of the production process.
5. Applicant meets the criteria for FPC Priority 2 classification (Docket No. RP 72-6).
6. We find that this request should be granted and that the Applicant should be classified in Priority 2A under the end-use criteria adopted in Decision No. 85189; therefore, good cause appearing,

IT IS ORDERED that:

1. Authority be granted under the provisions of Decision No. 85189 for San Diego Gas & Electric Company to supply the requested service to Sony Corporation effective September 11, 1977.
2. The above advice letter be marked to show that it was accepted for filing under Resolution of the Public Utilities Commission of the State of California No. G-2138. The effective date of this Resolution is the date hereof.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular conference of the Public Utilities Commission of the State of California, held on the 7th day of September, 1977, the following Commissioners voting favorably thereon:
