SUBJECT: Request to Provide Additional Natural Gas Service in
Excess of 50 Mcfd

WHEREAS: PACIFIC GAS & ELECTRIC COMPANY, by Advice Letter No. 936-G, filed August 19, 1977, has requested Commission approval under the provisions of Decision No. 85189, to supply additional natural gas in excess of 50 Mcfd to Reynolds Metals Company (Applicant) in Hayward, Alameda County under the following circumstances:

1. Applicant's request is for an additional average daily consumption of 48 Mcf, raising his existing average daily consumption from 543 Mcf to 591 Mcf.
2. Applicant will use this additional gas to operate two new printer ovens at his aluminum beverage can manufacturing plant.
3. Fuel oil cannot be used in this direct fired ink drying process without combustion product contamination.
4. Solar heating cannot be used at this time since air temperatures of 400°F are required.
5. Applicant meets the criteria for FPC Priority 2 classification (Docket No. RP 72-6).
6. We find that this request should be granted and that the Applicant should be classified in Priority 2A under the end-use criteria adopted in Decision No. 85189; therefore, good cause appearing,

IT IS ORDERED that:

1. Authority be granted under the provisions of Decision No. 85189 for Pacific Gas & Electric Company to supply the requested service to Reynolds Metals Company effective September 18, 1977.
2. The above advice letter and application be marked to show that they were accepted for filing under Resolution of the Public Utilities Commission of the State of California No. G-2143. The effective date of this Resolution is the date hereof.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular conference of the Public Utilities Commission of the State of California, held on the 13th day of September, 1977, the following Commissioners voting favorably thereon:

.....
Executive Director
