RESOLUTION NO. G-2178

UTILITIES DIVISION
BRANCH/SECTION: Gas

DATE: December 20, 1977

R E S O L U T I O N

SUBJECT: Request to Provide Additional Natural Gas Service in Excess of 50 Mcfd

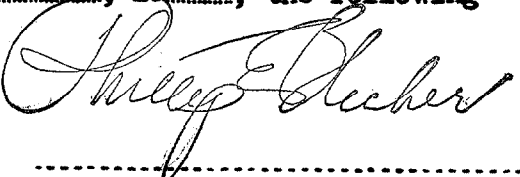

WHEREAS: PACIFIC GAS & ELECTRIC COMPANY, by Advice Letter No. 953-G, filed November 15, 1977, has requested Commission approval under the provisions of Decision No. 85189, to supply additional natural gas in excess of 50 Mcfd to Cal-Compac Foods, Inc (Applicant) in King City, Monterey County under the following circumstances:

1. Applicant's request is for an additional average daily consumption during the months of October to December of 1,680 Mcf, raising his existing average daily consumption from 849 Mcf to 2,529 Mcf.
2. Applicant will use this additional gas to operate a direct-fired food dehydrator.
3. Fuel oil cannot be used in this process without product contamination since the products of combustion come in direct contact with the food being dehydrated.
4. Food dehydration using solar energy has not yet been demonstrated on a commercial scale.
5. Applicant meets the criteria for FPC Priority 2 classification (Docket No. RP 72-6).
6. We find that this request should be granted and that the Applicant should be classified in Priority 2A under the end-use criteria adopted in Decision No. 85139; therefore, good cause appearing,

IT IS ORDERED that:

1. Authority be granted under the provisions of Decision No. 85189 for PG&E to supply the requested service to Cal-Compac Foods, Inc. effective this date.
2. The above advice letter and application be marked to show that they were authorized for filing under Resolution of the Public Utilities Commission of the State of California No. G-2178. The effective date of this Resolution is the date hereof.

I hereby certify that the foregoing Resolution was duly introduced, passed and adopted at a regular conference of the Public Utilities Commission of the State of California, held on the 20th day of December, 1977, the following Commissioners voting favorably thereon:

Executive Director
