1. The deletion of a street from the Development thereby eliminating the need to install 1,630 feet of 2-inch gas main
2. Reduction in the installation charges resulting from (1) above
3. The original agreement was filed by Advice Letter No. 928-G on July 11, 1977 and authorized by CPUC's Resolution G-2128, effective August 10, 1977, and
4. The proposed amendment resulting in the Applicant paying in advance of construction a nonrefundable amount of \$50,761 representing the estimated total cost of gas facilities less a credit of \$4,657 for trenching and backfilling by the Applicant. The original agreement stipulates that these amounts be \$56,096 and \$6,564 respectively.
5. The Applicant will also pay a cost-of-ownership fund of \$24,974.41, which is the present worth of annual charges of 12% per annum for five years. The original agreement stipulates that the cost-of-ownership charge be \$27,599.23, and

WHEREAS: We find that this amendment to the original agreement is compensatory and nondiscriminatory and provides for service to the Applicant without placing a burden on other ratepayers; therefore, good cause appearing,
