Re: Moorpark-Newbury 66k Subtransmission Line SCE  
Draft Resolution E-4243

Dear Mr. Clanon:

On October 28, 2008, the County of Ventura submitted the attached letter to the California Public Utilities Commission (Moorpark-Newbury 66k Subtransmission Line SCE Advice Letter Number 2272-E Dated October 2, 2008). The intent of the County's letter was to notify the Commission that Southern California Edison and the County of Ventura were unable to resolve their differences. Its purpose was to notify the Commission of the inability to reach agreement on land use and environmental matters.

The Draft Resolution E-4243 incorrectly characterizes the purpose and intent of the County's letter of 10/28/08, and it does not recognize the fact that there has been no subsequent effort by the applicant to address the County's concerns. Thus, as described in GO 131-D, Section XIV.B, the Draft Resolution should recommend the Commission set the required hearing within 30 days.

Sincerely,

Linda Parks  
Supervisor, District 2
