

KOP-South-16 is located within a residential neighborhood in the City of Chino, west of Highway 71. The closest existing transmission tower and conductors are approximately 400 feet away, to the east-southeast.

Overall Visual Sensitivity: moderate-to-high. For residents of Yellowstone Circle in general and KOP-South-16 specifically, the ratings of high viewer exposure, high viewer concern, and moderate visual quality lead to a moderate-to-high overall visual sensitivity of the visual setting and viewing characteristics.
