

KOP-South-2 is located just south of the I-210/I-605 interchange, looking south on the southbound I-605 freeway and it represents a typical view for motorists traveling south along this freeway.

**Overall Visual Sensitivity: low-to-moderate.** For viewers on I-605 in general and KOP-South-2 specifically, the ratings of moderate-to-high viewer exposure, low viewer concern, and low visual quality lead to a low-to-moderate overall visual sensitivity of the visual setting and viewing characteristics.
