

KOP-North-1 is located on Oak Creek Canyon Road looking west toward the site of the future Windhub Substation, 220-kV and 500-kV transmission lines that were approved as part of ATP 2-3. The Tehachapi Wind Resource Area is on the north (right) and the undeveloped Mojave Desert is on the south (left) side of the road.

Overall Visual Sensitivity: low-to-moderate. For viewers on Oak Creek Canyon Road in general, and from KOP-North-1 specifically, the ratings of moderate-to-high viewer exposure, low viewer concern, and low visual quality, lead to a low-to-moderate overall visual sensitivity of the visual setting and viewing characteristics.
