

This KOP is located on the northbound Orange Freeway (Highway 57), just north of the Orange County/LA County line. In this location, Highway 57 is designated by the State as an eligible State Scenic Highway. KOP-South-11 represents typical views of the TRTP transmission corridor for motorists traveling northbound. At this location, TRTP would be very visually evident on the skyline straight ahead.

Overall Visual Sensitivity: high. For people traveling northbound on State Scenic Highway 57 in general and KOP-South-11 specifically, the ratings of moderate-to-high viewer exposure, high viewer concern, and high visual quality lead to a high overall visual sensitivity of the visual setting and viewing characteristics.
