

SDG&E Territory

ESP Name	Service Plans and Electricity Source	Green power		Rates in ¢ per kWh (1)		Sample Bill (2)
		green-e cert (3)	CEC (4) registrd	Baseline	Non-Baseline	(500 kWh)
SDG&E (local utility)	Schedule DR (net system power)(5)	n/a	n/a	9.394	11.223	\$51.56
ACN Energy, Inc.	Standard plan (net system power)	n/a	n/a	10.934	12.763	\$63.05
Cleen 'n green (6)	"EcoSave" : 100% in-state renewable	no	yes	9.369	11.198	\$51.44
Commonwealth Energy (7)	"Green Smart": 100% Calif-based, certified renewable	yes	yes	9.274	11.103	\$50.96
Edison Source	1. "EarthSource 50" : 56% renew; 8% coal; 12% large hydro; 17% natural gas; 7% nuclear 2. "EarthSource 100" : 100% renewable	yes yes	yes yes	10.419 12.721	11.690 14.629	\$57.87 \$65.83
Green Mountain Energy Resources	1. "Water Power" : hydro 2. "75% Renewable" 3. "Wind for the Future" : up to 10% new wind	no yes yes	yes yes yes	10.369 10.594 11.494	12.198 12.423 13.323	\$56.44 \$57.56 \$62.06
Keystone Energy Services	"Earth Choice 100" : 100% renewable;	yes	yes	11.134	12.963	\$64.21
PG&E Energy Services	1. "Clean Choice" : 5% new renewable; 15% existing renewable; 80% large hydro 2. "Clean Choice 50" : 12.5% new renewable; 37.5% existing renewable; 50% large hydro 3. "Clean Choice 100" : 25% new renewables; 75% existing renewables	no yes yes	yes yes yes	9.565 10.483 11.148	11.394 12.312 12.977	\$55.37 \$59.96 \$63.28
PowerCom Energy & Communications Access (8)	1. "Clean Hydro 100": 100% large hydro 2. "Clean Power 50": 50% renewable, 50% large hydro 3. "Clean Power 100": 100% renewable	no no no	no yes yes	10.394 11.394 12.394	12.223 13.223 14.223	\$77.56 \$82.56 \$87.56
Power Source Ltd.	"Power Green 100": 100% renewable	no	yes	11.894	13.723	\$66.06
Utility.com (9)	1. "ValuePower": (net system or all renewable power) 2. "PowerAce": time-of-use rate plan (net system or all renewable power option)	no no	yes yes	9.392 n/a	11.220 n/a	51.55 Summer \$51.57 Winter \$34.82

Notes:

- (1) Rates include the legislatively mandated 10% discount and other discounts or premiums which are listed in the table of terms and conditions.
 - (2) Sample bill amounts assume a baseline allowance of 249 kWh/month, a PX price of 2.4 cents/kWh and include ESP's customer charge, if applicable.
 - (3) "Green e" is a private, non-profit, renewable energy certification program run by the Center for Resource Solutions, in San Francisco.
 - (4) CEC is the California Energy Commission, which registers qualifying renewable ("green") energy providers for the State of California.
 - (5) "Net system power" generally refers to the power generated from the total mix of fuel resources available through the California Power Exchange (Cal PX), excluding power purchased by marketers by specific fuel type (e.g., wind, biomass, etc.). It is the mix purchased and provided by the UDCs, and is derived from 11% renewable and 89% non-renewable sources.
 - (6) Cleen 'n Green's price for electricity is the Cal PX energy credit minus \$0.00025 per kWh.
 - (7) Commonwealth's price for electricity is 95% of the UDC's PX energy credit.
 - (8) PowerCom's price includes the \$16.00 monthly lease cost of a mandatory electronic meter. The meter can either be leased for 36 months or purchased outright for \$300.00
 - (9) Utility.com's "PowerAce" plan requires purchase of a digital meter @ \$3.99/month for 36 months. Bill amount assumes 16% on-peak usage.
- n/a = not applicable

This information is provided in accordance with provisions of Senate Bill 477, codified as P.U. Code Section 392.1(c). ORA makes no recommendations with respect to any ESP nor warrants that any ESP listed is actively marketing at this time. All rates are subject to change without notice.
