Celine Leung Assistant Engineer San Francisco Municipal Transportation Agency 1 South Van Ness Avenue 7<sup>th</sup> Floor San Francisco, CA 94103

## **SENT VIA EMAIL**

Re: General Order 88-B Request for Authority to Modify the 18<sup>th</sup> and Church Streets At-Grade Highway-Light Rail Crossing, Identified as CPUC Crossing No. 125J-9.67, in the City and County of San Francisco.

Dear Ms. Leung:

This refers to your letter, dated September 15, 2015, received by us on September 24, 2015, requesting authorization, pursuant to California Public Utilities Commission (CPUC / Commission) General Order (GO) 88-B, to modify the 18<sup>th</sup> and Church Streets at-grade highway-light rail crossing (crossing) in the City and County of San Francisco. The crossing is identified as CPUC Crossing No. 125J-9.67.

The two track crossing is located within the intersection of 18<sup>th</sup> and Church Streets. 18<sup>th</sup> and Church Streets are both two-lane roadways, with one through lane in each direction. The crossing is controlled by traffic signals. The tracks on Church Street are street running north of 18<sup>th</sup> Street and share the road with vehicles. The trains operate at a maximum speed of 9.6 miles per hour. There are approximately 250 trains per day with an average traffic of 10,936 vehicles at this crossing.

San Francisco Municipal Transit Agency (SFMTA) proposes the following crossing improvements:

- Replacing the signals and underground conduits to bring them up to standard;
- Adding pedestrian traffic signals; and
- Minor altering the phasing and timing of the signals.

The Commission's Rail Crossings and Engineering Branch (RCEB) investigated the request by the SFMTA and finds it adequately addresses compliance and safety.

Temporary traffic controls shall be provided in compliance with the California Manual on Uniform Traffic Control Devices (CA MUTCD), published by the California Department of Transportation. All parties shall comply with all applicable rules, including Commission GOs, Americans with Disabilities Act and CA MUTCD.

Celine Leung XREQ 2015090009 November 17, 2015 Page 2 of 2

This project is categorically exempt from the requirements of the California Environmental Quality Act of 1970, as amended [California Public Resources Code §21084].

This authorization shall expire if the above conditions are not complied with or if the work is not completed within three years of the date of this letter. Upon written request to RCEB, the time to complete the project may be extended. If an extension is requested, RCEB may reevaluate the crossing prior to granting an extension.

Within 30 days after completion of this project, SFMTA shall notify RCEB that the authorized work is completed, by submitting a completed Commission Standard Form G titled *Report of Changes at Highway Grade Crossings and Separation*. Form G requirements and forms can be obtained at the CPUC web site Form G page at

http://www.cpuc.ca.gov/PUC/safety/Rail/Crossings/formg.htm. This report may be submitted electronically to <a href="mailto:reeb@cpuc.ca.gov">reeb@cpuc.ca.gov</a>.

If you have any questions, please contact Siavash Mozaffari at (415) 703-1815 or sm4@cpuc.ca.gov.

Sincerely,

Anton Garabetian, P.E.
