Re: General Order 88-B Request for Authority to Alter the Broadway Avenue At-Grade Highway-Rail Crossing, CPUC Crossing No. 105E-15.20 and DOT No. 754879V in the City of Burlingame, County of San Mateo.

Dear Mr. Chao:

This refers to your letter dated October 22, 2015, received by us on October 26, 2015, requesting authorization, pursuant to California Public Utilities Commission (Commission) General Order (GO) 88-B, to alter the Broadway Avenue at-grade highway-rail crossing (crossing) of the Peninsula Corridor Joint Powers Board (PCJX) track in the City of Burlingame (City), County of San Mateo. The crossing is identified as CPUC Crossing No. 105E-15.20 and DOT No. 754879V.

The double track crossing is equipped with two curb mounted Commission Standard 9-A (flashing light signal assembly with automatic gate arm and additional flashing light signals over the roadway on a cantilevered arm) warning devices and four Commission Standard 9 (flashing light signal assembly with automatic gate arm) pedestrian warning devices. There are 92 passenger trains and four freight trains per day at a maximum speed of 79 mph over the crossing. The average daily traffic on Broadway Avenue is 28,000 vehicles.

The proposed alterations as indicated in the request letter and/or shown in the attachments shall consist of:

- Installing "KEEP CLEAR" pavement markings; and
- Installing raised pavement markers along the roadway edge a maximum height of one inch up to the concrete panels and two inches along the concrete panel crossing surface area, as shown on plans.

The Commission's Rail Crossings and Engineering Branch (RCEB) staff investigated PCJX's request, and finds it adequately addresses compliance and safety. As PCJX and the City are in agreement as to the design and apportionments of the cost under the provisions of GO 88-B, you may proceed with the improvements as described in your request letter, attachments, and summarized above. PCJX must complete all the proposed alterations mentioned above for RCEB to consider this GO 88-B application closed.

PCJX must ensure that Emergency Notification Signs are installed to comply with Title 49 Code of Federal Regulations (CFR) Section 234.309.

Temporary traffic controls shall be provided in compliance with Section 8A.08, Temporary Traffic Control Zones, of the CA MUTCD, 2014 Edition, published by the California Department of Transportation.

All parties shall comply with all applicable rules, including Commission General Orders and CA MUTCD. This project is categorically exempt from the requirements of the California Environment Quality Act of 1970, as amended [California Public Resources Code 21084].

This authorization shall expire if the above conditions are not complied with or if the work is not completed within three years of the date of this letter. Upon written request to this office, the time to complete the project may be extended. Any written request for a time extension must include concurrence letters by involved parties in support of the time extension. If an extension is requested, the RCEB may reevaluate the crossing prior to granting an extension.

Within 30 days after completion of this project, PCJX shall notify RCEB that the authorized work is completed, by submitting a completed Commission Standard Form G. Form G requirements and forms can be obtained at the Commission web site Form G page at <http://www.cpuc.ca.gov/PUC/safety/Rail/Crossings/formg.htm> . This report may be submitted electronically to rceb@cpuc.ca.gov.

At the conclusion of the project, PCJX should electronically submit an updated Federal Railroad Administration (FRA) inventory form (Form F6180.71) to the FRA, reflecting the changes. Title 49 CFR Section 234.409 requires the railroads to submit periodic crossing inventory updates a minimum of once every three years. Commission requests a concurrent copy of the updated inventory form be submitted to rceb@cpuc.ca.gov.

If you have any questions, please contact Felix Ko at (415) 703-3722 or felix.ko@cpuc.ca.gov .

Sincerely,

Anton Garabetian, P.E.
Program and Project Supervisor
Rail Crossings and Engineering Branch
Safety and Enforcement Division
